Duration: \_\_\_\_\_ 12 hours

Issue addressed: \_Awareness/

Summary of Program Content:

The day was designated to raising awareness and funding for a village of 312 families in LaUnion Abajo, Dominican Republic. These families live on a trash dump. The poorest of the poor. Children scavenge through medical and human waste for food or anything to sell to buy food. Women and children work the streets at night to try to get a little bit of money for food. Human trafficking is rampant in this area. We, as a community, are going to work together to adopt this village. Educate, teach skills to earn, provide some medical supplies and work with children. The money raised on this day is being used to build a community center, provide a clean water source, and pave walkways thru difficult terrain, hire an educator for the children and more.

The next phase will be to send mission teams and supplies multiple times a year to teach, train, help, share and support. This also creates opportunities for our communities here to be generous, to share talents and abilities and giftings with others.
