

QUARTERLY REPORT #1 for 2021  
FOR PERIOD COVERING  
JAN 1, 2020 to MAR. 31, 2020 (Filed 4.9.20 by Wendy Osher)

Vaccine distribution has started. We have shared info on what to expect, how to register and where to get help. In January, the state and hospital were struggling with limitations on the federal VAMS registry site that has resulted in patients going to the wrong clinic by default and dozens being turned away. There's also short notice on supply resulting in cancellation of first dose hospital appointments through Feb. 7. By the end of the quarter Maui was preparing to expand vaccinations to all who want them (16+ years).

Mayor Victorino also implemented new rules that place a limit on max capacity at 30% for all businesses. In Q2, he's looking to implement a secondary rapid test upon arrival for all trans-Pacific travelers.

In February, big stories included: Snow at Haleakala and a Shark Attack in West Maui Waters that sank a kayak. We did interviews with those who escaped the attack and updates on the road conditions at Haleakala. There was also a tragic flash flood death at Waioka in East Maui. We also did an exclusive story on a "Bill Seeks Reimbursement for Rescue of Hikers in Prohibited Areas," a story that hits home with many on Maui. Shortly after this story ran, we had a major search and rescue operation in East Maui that ended in tragedy when two visitors were presumed swept away in a flash flood—one was found deceased, the search was suspended for the other individual.

I also did a nice story about Maui's low vaccine rates, by covering a Zoom meeting with Lt. Gov. Josh Green, who said there were thousands of administered vaccines that were unaccounted for on Maui because of a lag in reporting.

In March, we were the first to issue an advisory on what authorities believed would be an imminent dam failure and subsequent evacuations of Haiku. My follow up story on a Kaupakalua Farm House that was swept away also was a nice on-the-ground look at what happened. Also in March we did a story on the necropsy of an endangered false killer whale, which was found off Maui. The story drew widespread interest due to the rare find. Other stories that performed well included: mayor eyeing restrictions in virus cluster areas; Maui vaccine passport pilot and secondary test proposed; and Maui church w/COVID won't cancel in-person Easter and the breaking story that the outbreak was confirmed at King's Cathedral.

Pacific Media Group continues to carry regular interviews with Mayor Victorino and state updates from the governor highlighting the latest COVID-19 info, and coordinated updates online with supporting, more detailed info. THE FOLLOWING IS A SELECTION OF THE TOP STORIES COVERED BY PACIFIC MEDIA GROUP ON THE GIVEN DAYS: It gives a glimpse into the various topics covered in daily news casts, special reports and expanded coverage online with cross promotion on our various platforms.

## JAN. 2021

Title	Description	Date
