News 19 @ 7pm	M-F 7:00pm – 7:30pm	Local Newscast
News 19 @ 11pm	M-Sun 11:00pm – 11:35pm	Local Newscast
News 19 Saturday Morning	Sat 11:00am – 12:00pm	Local Newscast

WLTX Statement - Coverage of the COVID-19 Pandemic

On a daily basis, WLTX fully covered the COVID-19 Pandemic from a local perspective. Our *Facts not Fear* approach was designed to give our community a full look at the facts regarding the impact of the virus. Every newscast every day had the latest information.

Each day, we updated the community with pertinent information of new cases in a county by county display as well as deaths, numbers of tests performed, percent positive, hospitalization levels, and all testing sites. The station carried every press conference from Governor Henry McMaster and the South Carolina Department of Health and Environmental Control.

When the vaccine became available, WLTX created a Vaccine Team to inform viewers on who was eligible, how to go through the process to make an appointment, and where to find the vaccine. Special attention was paid to underserved areas outside of the metro where vaccine was less available. The station also reported on how the lack of broadband service in rural areas hindered the sign-up process.

Multiple virtual discussions regarding schools were held by SC School Superintendent Molly Spearman. All were streamed live.

The station produced multiple messages urging people to be safe – wash their hands, wear a mask, and socially distance. Our reporters in the field wore masks on camera for safety and to provide community role models. A large percentage of interviews with health officials and others were done virtually and the in-person interviews were done totally socially distanced.

WLTX viewers received complete coverage and life-saving information throughout the quarter as WLTX utilized all platforms.

Local Issues Addressed During the Quarter

The following are some of the local issues of concern in the community. Programs that addressed these issues during this reporting period are listed on the following pages.

Issue/Concern Brief Description of the local issue or concern

Health	The COVID-19 pandemic affected the lives of every South Carolina resident throughout the quarter. From massive testing to hospitalizations to the rollout of vaccine.
Safety	COVID-19 was one of the main stories of every newscast during the quarter. Segments each day focused on ways to keep individuals and families safe. Our goal is to help educate in order to help our community deal with the pandemic.
Politics	Columbia is the State Capital of South Carolina and there are always political issues to deal with. This quarter, the November election was top of mind with the Presidential, US Senate, and local races in play.
Crime	During the pandemic, crime did not stop – it changed a bit, but didn't stop. The station always keeps the public informed on crime and crime prevention making sure that our coverage is balanced.
Consumer	Throughout the quarter, consumers were living in a new normal where their daily routines had been disrupted. The station helped consumers learn to navigate the unemployment process, how to find deals, the ins and out of delivery, how to get needed food at local food banks, keeping kids entertained, and finding ways to save money.
Education	Education is always top of mind as parents are very concerned about the quality of education their children are receiving. The questionable start of the new school year and in-person vs. remote learning dominated along with all safety factors.

Issue: Health
