

ISSUES AND PROGRAMS LIST - COMPLETE EACH QUARTER

PURPOSE: On this form, summarize a list of several issues which confront the your community and the programs you ran to address each. See 73.3526(a)(9) or 73.3527(a)(7). Do not rely on PSAs to satisfy this requirement. While an FCC inspector may not object, PSAs have little value if your license renewal is challenged!

STATION: WXAV 88.3FM DATE: 10.25.15 - 11.15.15 (retain for seven years from above) DURING THE PAST QUARTER, THE ISSUES SHOWN BELOW HAVE BEEN SIGNIFICANT TO OUR COMMUNITY. WE RAN THE PROGRAMS INDICATED TO ADDRESS THEM. (QUARTER, 19

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio Date: 10.25.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.): Planetary Radio

Hal Weaver is a very happy Project Scientist. His New Horizons spacecraft has shocked his fellow researchers with magnificent images and data. He shares the excitement this week. Emily Lakdawalla has the brand new flyby images of Saturn's icy moon Enceladus. Bill Nye looks forward to giving Neil deGrasse Tyson a major award. Bruce Betts knows what's up in the night sky, and you will, too.

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Date: 11.1.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.): Planetary Radio

It was the #1 New York Times bestseller, and as this week's Planetary Radio premiered it was once again the most popular movie in the USA. "The Martian" has won universal acclaim from scientists, astronauts, NASA, science fiction fans, and people who thought they weren't science fiction fans. Mat Kaplan talks with the author about his harrowing, uplifting, amazingly detailed and realistic tale. Emily is delighted by the massive release of Ceres data that enabled the first color images of the dwarf planet. Someone will win Bill Nye's voice on their voicemail system.

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Date: 11.8.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.): Planetary Radio

It was a grand night at the Pasadena Civic Auditorium. CEO Bill Nye led the Planetary Society's 35th anniversary party with guests including Neil deGrasse Tyson and Deputy NASA Administrator Dava Newman. We present a very brief sampling of the celebration. Also, Emily Lakdawalla talks maps, while Jason Davis and Casey Dreier report on the planning workshop that has begun the process of deciding where humans will someday land on Mars. A barbershop quartet introduces Bruce Betts' Random Space Fact on What's Up

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio Date: 11.15.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):

The founding Executive Director of the Planetary Society has just written "Human Spacelight: From Mars to the Stars," an optimistic view of humanity's future in the solar system and beyond. Bill Nye shares his admiration for his predecessor, Lou Friedman. Emily Lakdawalla is ready for the 2015 Division of Planetary Science conference. The What's Up space trivia contest once again offers your chance to win Bill Nye's personalized greeting on your voicemail.

Do not rely on PSAs to satisfy this requirement. While an FCC inspector may not object, PSAs have little value if your license renewal is challenged!

STATION: WXAV 88.3FM DATE: Sept 27th through Oct. 18th (retain for seven years from above) DURING THE PAST QUARTER, THE ISSUES SHOWN BELOW HAVE BEEN SIGNIFICANT TO OUR COMMUNITY. WE RAN THE PROGRAMS INDICATED TO ADDRESS THEM. (QUARTER, 19

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio Date: 9.27.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):

They are the most neglected planets in our solar system, but that status may be changing. Planetary scientist Elizabeth "Zibi" Turtle celebrates NASA's announcement that it will study a mission to Uranus or Neptune. Emily Lakdawalla has the latest progress report for Curiosity, rolling across Mars. Bill Nye had a blast reading "The Martian." Someone will win the Extronaut game in the new What's Up space trivia contest.

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio Date: 10.4.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):

Scott Hubbard and John Logsdon led the Humans Orbiting Mars Workshop last spring. They return with Casey Dreier as the report on that workshop is released to the world. Emily Lakdawalla sizes up NASA's announcement about water on the surface of Mars right now. Bill Nye calls us on his way toward the Crimson Tide.

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio Date: 10.11.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):

Franck Marchis is on the team that has delivered an actual image of a young, hot world about 100 light years from Earth. We talk with him on the 20th anniversary of the first exoplanet discovery. Emily Lakdawalla reveals spectacular Charon, while Bill Nye and Mat Kaplan compare notes on "The Martian." What's a syzygy? Find out from Bruce Betts on What's Up.

Issue: WE RAN THE FOLLOWING PROGRAM TO ADDRESS IT (Title): Planetary Radio Date: 10.18.15 Time of Day: 10:30AM Duration: 30mins BRIEF DESCRIPTION OF PROGRAM (Format, participants, content, etc.):

Digital editor Jason Davis is a lucky guy. He follows and reports on human spaceflight progress, as well as the progress of the LightSail solar sail, which is about a year from its next flight. Emily Lakdawalla shares her thoughts about the Mars depicted in The Martian, while Bill Nye has sharp words for NASA's new plan for getting humans there.
