Who We Serve

They achieve the unimaginable each and every day.

They are the children and adults of McGuire Memorial — individuals who are severely physically and developmentally challenged.

At McGuire Memorial, every individual served is loved, supported, and encouraged to reach their fullest potential. For no matter the severity or extent of one's disability, McGuire Memorial strives to let each and every person in their care live life to the fullest.

At the very heart of McGuire's mission is the belief in the sacredness of life from conception to death. McGuire Memorial believes that every person is a unique gift of God, is created for a sacred purpose, and is able to attain a fullness of life.

Inspired and guided by these principles, McGuire Memorial treats each and every individual with dignity and respect. Helping them achieve their hopes, dreams, and desires. Helping them experience a fullness of life.

Who We Are

A ministry of the [Felician Sisters of North America](#), McGuire Memorial is a not-for-profit, non-denominational facility that has, since 1963, served those who are physically and developmentally challenged. Located in Western Pennsylvania, McGuire Memorial has created a unique program that includes the care of those with profound disabilities. Known for its care and commitment to those they serve, McGuire Memorial is synonymous with the highest quality of care of individuals with mental retardation and/or physical disabilities.

The professional, interdisciplinary staff of McGuire Memorial is uniquely expert in serving those with a range of disabilities — from those with severe developmental and physical disabilities, to those with mild to moderate mental retardation.

Our Programs

Residential, educational, medical, and adult training services are available with individualized programs in settings designed for each individual at their particular level.

McGuire Memorial offers a variety of services to help those who are disabled live lives full of meaning and purpose:

- **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID)** - part of McGuire's residential program, serving those with the most complex, profound disabilities
- **The School at McGuire Memorial** - offering a licensed 180-day private school for children with multiple and/or profound disabilities, a pre-school, and an autistic program. An extended 10-day school program is available during the summer.
- **Adult Day Programs** - meeting the needs and abilities of adults with disabilities
- **The Respite Program** - offers professional, specialized care of individuals with significant physical and developmental disabilities for temporary, short-term, or extended respite stays.
- **The Community Home Program** - situated throughout the Western Pennsylvania communities, offers private residential living within a safe and supportive living environment for individuals with mild to severe disabilities.

Our Issues Pittsburgh

Celiac Disease

Episode #29R

WPMY, Sunday, October 12, 2014

630am

Hello and welcome to Our Issues Pittsburgh - I'm your host Shelley Duffy. Our Issues Pittsburgh examines the important topics facing our viewers here in the tri state area. We invite guests from around the region to explore these topics and ideas and give feedback about how they are addressing the needs and challenges of people in Pittsburgh and the surrounding areas.

Today I'd like to welcome Caroline Shannon-Karasik is the author of The Gluten-Free Revolution, a certified health coach and author of the popular gluten-free blog Sincerely Caroline. Her writing and recipe development have been featured in several publications, including VegNews, Kiwi, and REDBOOK magazines. Welcome Caroline.

What exactly is gluten?

How does gluten affect certain people?

How do I know if I have celiac disease?

How is celiac disease different from a gluten sensitivity?

What's the difference between an intolerance and an allergy?

How long does it take people to feel better after going gluten-free?

What are the benefits of eating gluten free? Are there any downsides?

So a gluten-free diet is not necessarily a low carbohydrate diet then, correct?

Can you name a few gluten-free grains?

What are some hidden sources of gluten that people don't always recognize?

One of the things I hear a lot about a gluten-free diet is that it's expensive. Can you talk about that?

Tell us a bit about your book. What sets The Gluten-Free Revolution apart from other gluten-free books currently available?

How can gluten-free non-cooks or those who hate to cook get in the kitchen and begin making food?

What are some tips for eating safely at restaurants or friends' houses?

How will the new gluten-free labeling law affect people on a gluten-free diet?

Welcome back to Our Issues Pittsburgh. I'd like to thank Caroline Shannon-Karasik. Her book is The Gluten-Free Revolution and she's author of the popular gluten-free blog Sincerely Caroline. Thank you for joining us today. (Say goodbyes.)

If you'd like to learn more about gluten free you can go to Caroline's blog Sincerely Caroline or to Facebook at facebook.com/thesincerelylife. And if you have a suggestion or a topic you'd like to see explored on Our Issues Pittsburgh email us at OurIssuesPittsburgh@wpgh.com or call us at 412 – 931-5300 and your issue could be discussed on a future show. Thank you for joining us today on Our Issues Pittsburgh. I'm Shelley Duffy – have a good day.

Key Points About Gluten-Free Lifestyle:

- Gluten is a protein found in wheat, rye, barley and contaminated oats. Oats that have been certified gluten-free are safe to consume on a gluten-free diet.

- According to the National Foundation for Celiac Awareness (NFCA), an estimated 1 in 133 Americans has celiac disease, yet 83% remain either undiagnosed or misdiagnosed.

- What's more, research estimates that 18 million Americans have gluten sensitivity. That's six times the amount of Americans who have celiac disease.

- On August 5, 2013, the FDA issued a final rule defining the term "gluten-free" for voluntary use in the labeling of foods. Food products bearing a gluten-free claim labeled on or after that date must contain less than 20 parts per million of gluten.

Our Issues Pittsburgh

American Lung Association

Episode #33

WPMY, Sunday, November 9, 2014:

630am

Hello and welcome to Our Issues Pittsburgh - I'm your host Shelley Duffy. Our Issues Pittsburgh examines the important issues facing our viewers in the Pittsburgh area - looking at topics and events here in the tri-state area and talking about how they affect us and our daily lives. We will be inviting guests from around the region to explore these issues and ideas and give feedback about how they are addressing the needs and challenges of people here in Pittsburgh and the surrounding areas.

Today I'd like to welcome Lana Schumacher, M.D., FACS, Thoracic Surgical Oncologist and Co-Director at the Esophageal and Thoracic Institute at Allegheny Health Network and Sherry Stoll, LUNG FORCE Committee Member and Lung Cancer Survivor. Welcome!

(Key Questions and Answers: Dr. Schumacher)

Shelley: Many people don't know that lung cancer is the number cancer killer of women – why is that?

- Lung cancer has actually been the #1 cancer killer of women in the United States since 1987. And, on average, less than half of all women diagnosed with lung cancer will be alive one year after the diagnosis; however only 1% of 1,000 women surveyed were aware of this. I believe that due to a lack of awareness, a lack of understanding, and social stigma are some of the reasons that lung cancer isn't getting a lot of attention. However, we need everyone to take notice and to take action.

You talked about a social stigma around lung cancer, can you elaborate?

- There is a social stigma out there that you will only get lung cancer if you smoke. And we want to raise awareness and educate the public that anyone can get lung cancer. There are definitely other factors involved including the environment, radon, and genetics.

You mentioned raising awareness and educating the public, how are you doing that?

- Well, LUNG FORCE is a new national movement led by the American Lung Association to unite women in the fight against lung cancer and for lung health. We are working together in the Pittsburgh area to unite community leaders, lung heroes, caregivers and medical professionals in the fight against lung cancer.

- Highmark Blue Cross Blue Shield and Allegheny Health Network are two of the partners that have joined the fight here in the Pittsburgh area.

How have Highmark Blue Cross Blue Shield and Allegheny Health Network gotten involved?

- Highmark Blue Cross Blue Shield and Allegheny Health Network are the Signature Sponsors of LUNG FORCE.
- We are proud to work with the American Lung Association to better educate the public about the growing incidence of lung disease and the steps individuals can take to reduce their lung health risks and lead healthier lifestyles.
- Although we have made significant progress in treating lung cancer over the past few decades, early stage diagnosis through better screening programs and prevention remains our best weapons in the fight against this formidable disease.

You talked about screening programs and prevention methods; could you give us more details on ways the public can be screened if they are at higher risk for lung cancer?

- Dr. Schumacher to talk about free CT Scan program that Allegheny Health Network has developed.

(Key Questions and Answers: Sherry Stoll)

I wanted to switch gears and talk to Sherry. You have an amazing story about your battle with lung cancer that your family has endured would you mind sharing?

- Sherry to share her story/battle with lung cancer.

(Key Questions and Answers: Dr. Schumacher and Sherry Stoll)

Now that we've learned so much today about lung cancer and surprising statistics, how can the public become more involved with LUNG FORCE?

- One way the public can become involved is by joining us at our 1st Annual LUNG FORCE Walk on Sunday November 9th at North Park.
- Registration begins at 8 AM, and it is a 3.1 mile course around North Park.
- This Walk will be a day of education, celebration and fun. We will have Zumba and Yoga instructors joining us in the morning. Participants will be encouraged to visit our educational tents, dress up in turquoise and take pictures, sign a message for our lung heroes and so much more.

- This is a day for everyone to come out and join the fight against lung cancer. People of all ages and dogs too are invited to join us for the Walk.

Is there a fee to participate?

- No, the walk is free to attend! However, we are offering great incentive prizes to those who fundraise including a key chain, LUNG FORCE t-shirt and some great raffle prizes.

Fantastic, and is there a website to go and register?

- Yes, you can register online at www.lungforce.org or you can call the Pittsburgh office at 412.321.4029
- The LUNG FORCE Walk is just one way to get involved and make a difference. If you would like more information on volunteering or any of the American Lung Association's programs, please call the office.

Welcome back to Our Issues Pittsburgh. I'd like to thank Lana Schumacher and Sherry Stoll from the American Lung Association. Thank you for joining us today. (Say goodbyes.)

Joan Kaylor and Karen Kaylor Shanahan Founder and Director

Hello and welcome to Our Issues Pittsburgh - I'm your host Shelley Duffy. Today we are going to talk to Joan Kaylor about Emotional Freedom Techniques and to Karen Kaylor Shanahan about the Avanti Institute in Peters Township. Welcome ladies and thanks so much for coming on the show. Let's get right to it:

1. What are Emotional Freedom Techniques?
 - a. EFT is a system of energy psychology that releases disturbances in the Chinese meridian system of the human body by tapping on the end points of energy meridians.
 - b. EFT was created in 1995 by Gary Craig.
 - c. It is a marriage of ancient Chinese medicine and modern cognitive behavior therapy.
 - d. It is in the top 5 self- help techniques around the world. The EFT manual has been downloaded over 1.5 million times in the US and over 1.4 million times around the world.
2. Why are people so excited about Emotional Freedom Techniques?
 - a. People are excited because when it works it is safe, fast, effective and complete. EFT gets to the cause of the problem. It treats the cause not the symptoms. Note: It doesn't work for everyone but when it works it is complete. Some problems take more than one treatment. I say that one round of EFT is like one counseling session. If someone does 10 rounds of tapping in one counseling session that is equal to 10 traditional counseling sessions.
 - b. It is non-invasive. If someone uses EFT first, they MAY not need medication. It depends upon the problem. Always consult your physician before making any changes to your medication.
IMPORTANT NOTE: DO NOT GO OFF ANY MEDICATION WITHOUT CONSULTING WITH YOUR DOCTOR OR HEALTH CARE PROVIDER.

c. I am excited to be certified in the gold standard of EFT from the Association of Comprehensive Energy Psychology. Tina Craig, daughter of Gary Craig, is the teacher and director of this program. Unless someone is certified through ACEP, they are not being trained by Tina Craig, the co-creator of EFT.

3. Show us a sample of tapping:

a. Joan demonstrates tapping for sugar cravings on Shelley (this takes 2 minutes if time permits) If not enough time Joan will demonstrate EFT for panic attacks.

4. Where can people go to learn Emotional Freedom Techniques?

a. I teach EFT the gold standard at Avani Institute in Peters Township.

b. They can also visit: www.emofree.com

Karen Kaylor Shanahan, tell us about the Avanti Institute.

1. What is the AVANI Institute?

2. What types of services or offerings do you provide?

3. How do your services help people?

4. Why did you want to open AVANI?

5. What is your mission?

6. What kind of classes and events are held at Avani Institute?

7. Who would benefit from your services? Who are your customers?

8. What makes Avani Institute unique?

9. If someone is not sure how to get started or what services to choose, how can they contact Avani Institute?

Welcome back to Our Issues Pittsburgh. I'd like to thank Joan Kaylor EFT practitioner and Karen Kaylor Shanahan of the Avanti Institute. Thank you for joining us today. (Say goodbyes.)

If you'd like to learn more about EFT and the Avanti Institute you can go to their website at avani-institute.com or call 724-941-7400. Greater Pittsburgh Special Hockey Association (The Steel City Icebergs)

Episode #37

WPMY, Sunday, December 7, 2014:

Interview with Greater Pittsburgh Special Hockey Association (The Steel City Icebergs)

Stephanie Maust – Founder, President, Board Chairman

Chris Weber – Parent Liaison, Executive Administrator, Board Member

Hello and welcome to Our Issues Pittsburgh - I'm your host Shelley Duffy.

In Pennsylvania, an excess of one million individuals over the age of five have a developmental disability. Pittsburgh Special Hockey is an adaptive ice hockey program for both children and adults with developmental disabilities such as Autism, Down Syndrome, and traumatic brain injury. The program teaches children and adults to play ice hockey in an environment adapted to each participant's ability. In a controlled setting, this unique program combines sensory input, coordination, social interaction, self-reliance, concentration, and willingness to adapt to new experiences with a sense of accomplishment and pride.

Today we're talking with some representatives from the Greater Pittsburgh Special Hockey Association -Stephanie Maust – Founder, President, Board Chairman and Chris Weber – Parent Liaison, Executive Administrator and Board Member.

Questions

Could you provide us with some background information about Greater Pittsburgh Special Hockey Association?

Stephanie Answer: We are a 501 (c)(3) non-profit organization dedicated to providing services to special needs individuals. Our primary objectives are to:

- Create a safe haven for special needs athletes and their families to come together in an enjoyable forum
- Aid physical development through ice hockey skills training adapted to the participant's ability
- Instill a sense of self-confidence, self-reliance, and social acceptance
- Realize special athletes' dreams of playing ice hockey
- Keep cost of participation as close to zero as possible

The organization sponsors an ice hockey team called The Steel City Icebergs. What are some of your program highlights?

Stephanie Answer: We have a highly trained staff of USA Hockey certified adult coaches and dozens of junior youth coaches. This allows for a low-player to coach ratio and fosters the development of peer relationships. We provide free ice time, equipment and uniforms. And, our home ice at Robert Morris University's Island Sports Center on Grand Avenue in Neville Island is one of the nicest facilities in the country.

Chris...you have a son, Alex, who is a member of the Icebergs. Can you tell us a little bit about Alex and his diagnosis?

Chris Answer: Alex was born with Down Syndrome. He also had a spinal condition which caused nerve damage in his leg.

How old was Alex when he began playing on an ice hockey team and why did you discontinue his participation in a traditional ice hockey team?

Chris Answer: Alex was 8 years old when he played on an ice hockey team for the first time. We chose to discontinue his participation because based on his age and other criteria, he would have been required to move up to the next age level of ice hockey. Jeff and I were not comfortable with him competing at the next level. The other children were a lot faster and more skilled than Alex and so we were concerned for his safety.

How did Alex feel about this decision?

Chris Answer: He was really sad. And, he couldn't understand why he was not allowed to play. In fact, as he got older, he registered himself several times for the school ice hockey team only to be disappointed because it just wasn't feasible for him to compete at that level.

Stephanie, you are the founder of Greater Pittsburgh Special Hockey Association. How did you first become interested in starting a special needs ice hockey program?

Stephanie Answer: Alex's pure love for the sport inspired me to find a way that he could continue playing. So, I began researching and found "special hockey" among disabled categories by USA Hockey which referenced the American Special Hockey Association. As it turned out, I discovered that one of my older son's high school hockey coaches, Jarron Gass, had helped coach the first special needs ice hockey team while studying at the University of Maryland. When I reached out, he was excited about the idea of forming a team in Pittsburgh.

How did Alex react when he heard about the Steel City Icebergs?

Chris Answer: Alex doesn't show much emotion. However when he heard about the Steel City Icebergs he quietly whispered "Yes finally!" and raised his hands in the air! It was a very special moment for all of us! The night before the Icebergs first practice was very much like Christmas Eve in our household!

Describe some of the team activities that occur throughout the course of a typical season.

Stephanie Answer: We generally hold weekly practices, engage in games with other teams both at home and away with social events involving both teams (including Penguin games), tournaments, festivals, Christmas Party, end of season party. We want participation to be stress-free, so 100% attendance at practices is not required and travel is optional.

Alex has been a member of the Icebergs since the inception of the program five years ago. Based upon your observations, what have been the benefits of his participation?

Chris Answer: Participation in the program has improved his:

- physical development and fitness (gross motor skills, endurance, balance and coordination)
- mental fitness (attentiveness and a variety of processing skills required to play hockey)
- responsibility and organizational skills
- socialization (he has made and continues to make friends on this team. He looks forward to seeing them each week.
- leadership (since he has been involved for several years, I noticed that Alex and others helping the younger and new participants)

Stephanie...Hockey is an extremely expensive sport and you mentioned earlier that the organization provides services free-of-charge. How has that been made possible?

Stephanie Answer: One of the reasons Pittsburgh is such a great place to live is the kindness and generosity of the people in the community. Families of youth hockey athletes continue to reach out to provide equipment and volunteer. We receive donations from individuals, businesses, fund-raising charities, school districts, and our largest sponsor the Pittsburgh Penguin Foundation.

Speaking of the Penguins, I understand that Thomas Greiss, the new back up goalie has been involved in the program. How did that come about and what has been the reaction from participants?

Stephanie Answer: We had hoped for interest from one of the local NHL players but we wanted to wait until someone felt the calling to reach out to us. Thomas and his girlfriend, Brittney Palmer contacted me before they moved to Pittsburgh. They were so eager, in one day I received three emails and a phone call from different people who were helping them contact me. They have tender hearts for our athletes and as a result of their active participation have infused tremendous enthusiasm into the program this year.

Chris Answer: The players have been really excited. Thomas is so helpful to the players on the ice. And, he arranged to have his signature goalie equipment shipped from Canada to give to one of our goalies who had outgrown his equipment. He has been "flying high" ever since.

The Icebergs recently formed a Hardship Committee. Why was it formed? And, what is the committee's role in the organization?

Stephanie Answer: The committee was formed due to a growing number of families that could not afford the \$45 annual registration fee with USA Hockey. And to stay true to our mission in providing the service as close to no cost as possible, we felt the need to provide this added level of financial support. In addition to financial support, the Hardship Committee can also assist families in need of advocacy.

Chris... What does your leadership role as "Parent Liaison" involve?

Chris Answer: I wear several different hats. But, generally speaking, I:

- serve as the focal point of communications with parents,
- assist in organizing team events, and
- perform a variety of administrative duties.

...And whatever it takes to keep our athletes on the ice and having fun together!

What do you most enjoy about your involvement with The Steel City Icebergs?

Chris Answer: I enjoy seeing the happy faces each week. It is such a joy to watch the team grow and develop skills that they will use for life!

In 2011, just two years after the launch of the team, The Steel City Icebergs was awarded the prestigious Achieva Foundation Award in Excellence for Community Awareness. And, one of the main reasons you agreed to be on the show today was to raise awareness about your program. What would you like to share with our viewers?

Stephanie Answer: Anyone with a disability who has a dream of playing ice hockey or those who may have an interest in a variety of volunteer opportunities, please contact us at

steelcityicebergs@gmail.com ,check out our website www.pittsburghspecialhockey.org , or just stop in at one of our 7:00pm Wednesday practices at RMU Island Sports Center.

Our Issues Pittsburgh

Officers Down 5K

Episode #32R

WPMY, Sunday, December 21, 2014:

630am

Hello and welcome to Our Issues Pittsburgh - I'm your host Shelley Duffy. Our Issues Pittsburgh examines the important issues facing our viewers in the Pittsburgh area - looking at topics and events here in the tri-state area and talking about how they affect us and our daily lives. We will be inviting guests from around the region to explore these issues and ideas and give feedback about how they are addressing the needs and challenges of people here in Pittsburgh and the surrounding areas.

Today I'd like to welcome TJ Burke Executive Director of the Officers Down 5K Foundation. The Officers Down 5K celebrates officers who put their lives on the line daily to keep our communities safe and honor those who have fallen in the line of duty.

1. Why did you start this organization? How has it grown or changed over time?
2. Tell me a little about your background in the police force
3. Can you tell me about the work your organization does and the program you run?
4. What differentiates you from other organizations? (what causes/people it serves, what programs it offers, etc.)
5. Tell me about your next event that is coming up?
6. How does each event you hold usually run? What is the process?
7. Is there anything you are needing for this event that maybe the public can help you with?
8. Tell us something that the viewers might now know about your organization? A little inside scoop
9. What do you think your beneficiaries would say is the best thing about your organization?
10. What are your goals for the next three to five years?

Any events coming up?/ Donation info.

Welcome back to Our Issues Pittsburgh. I'd like to thank TJ Burke of the Officers Down 5K Foundation Thank you for joining us today. (Say goodbyes.)

Our Issues Pittsburgh

American Lung Association

Episode #33R

WPMY, Sunday, December 28, 2014:

630am

Hello and welcome to Our Issues Pittsburgh - I'm your host Shelley Duffy. Our Issues Pittsburgh examines the important issues facing our viewers in the Pittsburgh area - looking at topics and events here in the tri-state area and talking about how they affect us and our daily lives. We will be inviting guests from around the region to explore these issues and ideas and give feedback about how they are addressing the needs and challenges of people here in Pittsburgh and the surrounding areas.

Today I'd like to welcome Lana Schumacher, M.D., FACS, Thoracic Surgical Oncologist and Co-Director at the Esophageal and Thoracic Institute at Allegheny Health Network and Sherry Stoll, LUNG FORCE Committee Member and Lung Cancer Survivor. Welcome!

(Key Questions and Answers: Dr. Schumacher)

Shelley: Many people don't know that lung cancer is the number cancer killer of women – why is that?

- Lung cancer has actually been the #1 cancer killer of women in the United States since 1987. And, on average, less than half of all women diagnosed with lung cancer will be alive one year after the diagnosis; however only 1% of 1,000 women surveyed were aware of this. I believe that due to a lack of awareness, a lack of understanding, and social stigma are some of the reasons that lung cancer isn't getting a lot of attention. However, we need everyone to take notice and to take action.

You talked about a social stigma around lung cancer, can you elaborate?

- There is a social stigma out there that you will only get lung cancer if you smoke. And we want to raise awareness and educate the public that anyone can get lung cancer. There are definitely other factors involved including the environment, radon, and genetics.

You mentioned raising awareness and educating the public, how are you doing that?

- Well, LUNG FORCE is a new national movement led by the American Lung Association to unite women in the fight against lung cancer and for lung health. We are working together in the Pittsburgh area to unite community leaders, lung heroes, caregivers and medical professionals in the fight against lung cancer.

- Highmark Blue Cross Blue Shield and Allegheny Health Network are two of the partners that have joined the fight here in the Pittsburgh area.

How have Highmark Blue Cross Blue Shield and Allegheny Health Network gotten involved?

- Highmark Blue Cross Blue Shield and Allegheny Health Network are the Signature Sponsors of LUNG FORCE.
- We are proud to work with the American Lung Association to better educate the public about the growing incidence of lung disease and the steps individuals can take to reduce their lung health risks and lead healthier lifestyles.
- Although we have made significant progress in treating lung cancer over the past few decades, early stage diagnosis through better screening programs and prevention remains our best weapons in the fight against this formidable disease.

You talked about screening programs and prevention methods; could you give us more details on ways the public can be screened if they are at higher risk for lung cancer?

- Dr. Schumacher to talk about free CT Scan program that Allegheny Health Network has developed.

(Key Questions and Answers: Sherry Stoll)

I wanted to switch gears and talk to Sherry. You have an amazing story about your battle with lung cancer that your family has endured would you mind sharing?

- Sherry to share her story/battle with lung cancer.

(Key Questions and Answers: Dr. Schumacher and Sherry Stoll)

Now that we've learned so much today about lung cancer and surprising statistics, how can the public become more involved with LUNG FORCE?

- One way the public can become involved is by joining us at our 1st Annual LUNG FORCE Walk on Sunday November 9th at North Park.
- Registration begins at 8 AM, and it is a 3.1 mile course around North Park.
- This Walk will be a day of education, celebration and fun. We will have Zumba and Yoga instructors joining us in the morning. Participants will be encouraged to visit our educational tents, dress up in turquoise and take pictures, sign a message for our lung heroes and so much more.

- This is a day for everyone to come out and join the fight against lung cancer. People of all ages and dogs too are invited to join us for the Walk.

Is there a fee to participate?

- No, the walk is free to attend! However, we are offering great incentive prizes to those who fundraise including a key chain, LUNG FORCE t-shirt and some great raffle prizes.

Fantastic, and is there a website to go and register?

- Yes, you can register online at www.lungforce.org or you can call the Pittsburgh office at 412.321.4029

- The LUNG FORCE Walk is just one way to get involved and make a difference. If you would like more information on volunteering or any of the American Lung Association's programs, please call the office.

Welcome back to Our Issues Pittsburgh. I'd like to thank Lana Schumacher and Sherry Stoll from the American Lung Association. Thank you for joining us today. (Say goodbyes.)
