#### Key Points:

Colorectal cancer continues to be a major health problem. Some latest cancer stats show:

- Overall, colon cancer is the second leading cause of cancer deaths for men and women combined;
- Currently, over 1 million individuals are living with the disease and about 1 in 3 adults between 50 and 75 years old (23 million people) are not getting tested as recommended;
- This year, there will be around 140,000 new cases of colorectal cancer in the United States and of those around 47,000 will pass away;
- According to the CDC, individuals in the 50 and younger demographic (especially 40-50) have seen a rise in cases by 40% in the last two years alone;
- The people less likely to get tested are Hispanics, American Indians, African Americans, rural populations, men/women, those 50 to 64, and those with lower education and income;
- When caught early, colon cancer is 90% treatable through early screening;
- The top 5 states that have the highest cases of colorectal cancer are: Washington, D.C., Pennsylvania, New York, Illinois, and Iowa.

In partnership with the National Colorectal Cancer Roundtable, co-founded by the American Cancer Society and the Centers for Disease Control and Prevention, Chris4Life is part of an initiative called '80% by 2018' – in which organizations have committed to eliminating colorectal cancer as major public health problem with a shared goal of reaching 80% of adults screened for colorectal cancer by 2018.

Greater Pittsburgh Arts Council

Episode #23

WPMY, Sunday, June 1, 2014

630am

**Guests:** Mitch Swain, CEO of the Greater Pittsburgh Arts Council

Hello and welcome to Our Issues Pittsburgh - I'm your host Shelley Duffy. Our Issues Pittsburgh examines the important topics facing our viewers here in the tri state area. We invite guests from around the region to explore these topics and ideas and give feedback about how they are addressing the needs and challenges of people in Pittsburgh and the surrounding areas.

Today I'd like to welcome Mitch Swain, CEO of the Greater Pittsburgh Arts Council. Welcome!

- 1) What are the "Arts" in the Greater Pittsburgh Arts Council? Can you tell us a bit about who GPAC serves and why do we have an arts council in this region?
- 2) We might tend to think of the arts in terms of artists and self-expression - a painter, dancer, or someone writing on a novel – you know, the artist in their studio, working away. Aside from this stereotype, which does have some truth to it, what can you tell us about the arts scene here? How do we stack up against other cities like us?
- 3) Do other regions have a GPAC? Who does GPAC work with to deliver the arts to theater lovers and museum goers?
- 4) In this economy, everything is under scrutiny. How are arts funded in PA, in the county, and in the city? How are the arts an economic driver in our region? What roles do patrons, the public sector, and the private sector play in helping support the arts?
- 5) Aren't the arts a matter of private taste? Do the arts have enough public value that would justify public subsidy?
- 6) What are the strengths and challenges of our area's arts community? Are there special opportunities on the horizon for Pittsburgh and how might GPAC address these?

Shelley: Welcome back to Our Issues Pittsburgh. Mitch thanks for joining me today. To learn more about the Greater Pittsburgh Arts Council, go to [PittsburghArtsCouncil.org](http://PittsburghArtsCouncil.org). And if you have a suggestion or a topic you'd like to see explored on Our Issues Pittsburgh email us at [OurIssuesPittsburgh@wpgh.com](mailto:OurIssuesPittsburgh@wpgh.com) and your issue could be discussed on a future show. ## Mitch Swain bio

Mitch Swain is CEO of the Greater Pittsburgh Arts Council, first taking the helm in 2006 when GPAC emerged from a successful merger. Greater Pittsburgh Arts Council, the voice of Pittsburgh's broad arts and cultural community, is a membership organization of approximately 270 non-profits and artists who comprise the arts and culture sector across Southwestern PA. As the region's primary advocacy and service organization for the arts, GPAC offers expert programs, resources and research that strengthen and ensure a thriving arts community. GPAC is a partner in regional development, positioning the arts and culture community as an economic driver in the redevelopment of our communities and the attraction of cultural tourism.

Working with leaders across the state, Mitch currently spearheads advocacy efforts for national and state funding and policy as Chair of Citizens for the Arts in Pennsylvania, resulting in a statewide coalition and a first-ever bicameral, bi-partisan Arts & Cultural Legislative Caucus. Working with the Pittsburgh Foundation and the Heinz Endowments, Mitch led efforts to establish the Arts Day of Giving campaign in May of 2011, raising nearly \$1.9 million in 24 hours for arts and culture organizations in the region. As a leader promoting the value of our region's vast arts and cultural community, Mitch serves as an executive committee member of the United States Urban Arts Federation at Americans for the Arts, also chairing the host committee for the successful 2013 Americans for the Arts national convention for Pittsburgh.

Mitch is formerly Director of Shared Services for the Pittsburgh Cultural Trust, and for nine years served with the Jazz Arts Group/Columbus Jazz Orchestra of Columbus, Ohio, including as executive director. Formerly the general manager of Columbus Pro Percussion, Mitch has professionally played drums for many years. ## Our Issues Pittsburgh

National Aviary

Episode #26

WPMY, Sunday, June 29, 2014

630am

Hello and welcome to Our Issues Pittsburgh. I'm your host, Shelley Duffy. Our Issues Pittsburgh examines the important issues facing our viewers in the Pittsburgh area - looking at topics and events here in the tri-state area and talking about how they affect us and our daily lives. We will be inviting guests from around the region to explore these issues and ideas and give feedback about how they are addressing the needs and challenges of people here in Pittsburgh and the surrounding areas.

Today I'd like to welcome Dr. Pilar Fish, Director of Veterinary Medicine, and Cathy Schlott, Curator of Behavioral Management at the National Aviary here in Pittsburgh.

Welcome!

### TOPIC:

National Aviary is "more than meets the eye" – what happens "behind the scenes" and the difference the National Aviary makes in the areas of: global conservation, avian medicine, captive breeding programs, and environmental education.

**What can people expect to see and do when they come to the National Aviary?**

- 500 birds, 150 species (Pilar)
- Some favorites: flamingos, penguins, eagles (Pilar)
- Up-close interactions (explain feedings, etc) (Pilar)
- Introduce BIRD (Cathy)
- Shows: (Cathy)
  - Talons! (birds of prey indoors, music, lights, video)
  - SkyDeck (birds of prey outdoors, hunting demonstrations)
  - Taking Flight (outdoors with a variety of species)

**Tell us more about Taking Flight**

First time since 2009 that we've flown birds in the Rose Garden (cathy)

All our shows have a conservation message

**What kinds of conservation messages is the National Aviary sharing and why is it important? (Cathy)**

- Explain some examples from shows: (Cathy)
  - global garden
  - vultures' important role and population decline
- We also are sharing conservation messages in a more prominent way with our new exhibit, Canary's Call (Cathy)

**Why is the exhibit called Canary's Call? (Pilar)**

- Canary in the coal mine
  - Beautiful custom built canary cage
  - Compelling photos of last canary taken into a mine as recently as 1987
- Birds as indicators of changes in our natural environment – are we listening?
- If we are, what can we do?

**What are some of the Canary's Call highlights?**

- Exhibit examples (Pilar)
  - Bats
  - Guam rails and kingfishers
  - Guam rails – 23 released into reintroduction program since 1984
    - (National Aviary was one of the first zoos to get guam rails when the program started).
    - 3 out of the last 4 years we have sent birds to be reintroduced.
  -
- Other exhibit highlights: (Cathy)
  - Photography
  - Interactive game

**What are some things people can do to help answer the "Canary's Call"**

- National Aviary's first interpretive exhibit (Pilar)
- Many take home messages – different for everyone (Cathy)
  - Seafood watch

\*\*\*

What else might people not know about the National Aviary?

- Exhibits tie into what we are doing globally and behind the scenes to help advance the conservation of birds and their habitats. (Pilar)

You have an avian medicine program – tell us about why that's so important. (Pilar)

Avian medicine program that develops cutting edge treatments and protocols that are used by wildlife centers, veterinarians, and other zoos.

- Avian Care Center window, meet a patient programs, and prescheduled hospital tours are all things people can do at the Aviary to see our medicine at work.
  - If no penguin, insert milo here

What are examples of some of the treatments you've developed for birds? (Pilar)

- Nebulization (if we have a penguin – use it here)
- Avoiding anesthesia on even the biggest birds
- Saving our condor with blood transfusions / blood bank
- Protecting long legged shore birds
- Geriatric programs

I heard that you operate a teaching hospital, what does that mean? (Pilar)

- Interns, mentoring (50 pre-vet students, hands-on caring for patients, & assisting in procedures) Training the next generation of vets.
- Tours and education

People love baby birds. What are some highlights of birds hatched at the National Aviary recently? (Cathy)

- Charismatic birds, endangered status, and breeding importance
  - Lories
  - African Penguins (could use penguin here)
  - Eurasian Eagle Owls (could use EEO here)

\*\*\*If needed for extra time, insert this:

**So from a conservation perspective, you are doing work all around the world? (Pilar)**

Dept of Conservation and field research, PhD, working with (Pilar)

- Andean Condors
- Water quality Louisiana Waterthrush received monitors to track migration, etc (see flightpaths)
- Ornithologist on staff who is a wealth of information about local birds, and his goal is to help connect people to the birds in their backyards

Welcome back to Our Issues Pittsburgh. I'd like to say thank you to Cathy and Dr. Fish and Thank you for joining us today. (Say goodbyes).
