Explanation of Delay in Upload of 1Q 2020 Public File

Prepared by Patrick Monaghan, KZUM Program Director

Upon receiving the announcement in March that the first quarter's deadline for uploading Public File updates was extended to July 10th, I was advised to include this explanation with the upload.

In response to the COVID-19 pandemic's arrival in our state, our local government began to enforce guidelines on our community. These included but were not limited to working remotely from home, if possible and a plethora of social distancing guidelines, event cancellations and business closures. Our organization, like so many had to adapt to the situation with little notice in order to protect ourselves and the members of the community in which we serve and work with on a regular basis.

KZUM's business office has been temporarily closed and our small staff has been working from home as much as possible in an effort to do our part to slow the spread of the dangerous COVID-19 virus. This has forced us to face a handful logistical and technical challenges to continue consistently providing quality programming to our audience. Some unforeseeable circumstances related to technical/software issues and catastrophic equipment failure during this time contributed to my inability to upload the Public File update by the original deadline of April 10<sup>th</sup>, 2020. These issues needed to be addressed immediately and were prioritized higher due to the FCC's prior announcement of the Public File update's deadline extension.

We have an obligation to provide pertinent information on the pandemic and local relief efforts to our community. We are proud of our ability to do so even in the face of this adversity. As a community radio station this has remained a top priority throughout this entire public health crisis. Though our operations have been extremely limited we are still striving to serve our community the best we can given the circumstances. We are still making every effort to observe the restrictions and guidelines set for us by medical professionals and our local, state and federal governments.

If any part of this explanation is insufficient, please do not hesitate to reach out. My contact information is below. Thank you.

Regards,

Patrick Monaghan, KZUM Program Director, D.C.O.
