September came and went... and with it, a record you may not have noticed. on record birth rates here in west Texas ... and you probably won't have to wait long to see those records broken again. July through October are typically the highest birth months in the country.... but in September of this year... the hospital medical center broke its record for the most births in a month. 212... surpassing the 209 in august 2019. hospital officials say they are surprised ... considering that this year's august? typically the highest of the year? was one of the lowest on record. September's record is unlikely to stand for long. as of yesterday, the hospital had registered 113 babies in December.... at a rate of more than 230 for the month.
