Description: These days it's hard to imagine the world of pregnancy and mamas without ultrasound. The grainy images serve as birth announcements and early bonding opportunities for couples, especially dads, staring endlessly at their tiny heart-shaped images. But women less than a generation ago didn't always have these tokens and talismans. And as a result many women missed the truth of knowing that pregnancy = a new life, however small and undeveloped. Shari Richard says, "I was pro-choice once because I wasn't educated about the issues."
