

To whom it may concern,

The quarterly issues/programs list for the first quarter of 2018 was posted in this station's public inspection file at approximately 9:30pm, Pacific time, on April 10, 2018, in compliance with the FCC's rules. However, the date/time stamp on the FCC-hosted public inspection file for this station makes it appear as if the issues/programs list was uploaded on April 11. I just want to point out that the quarterly report was indeed uploaded before the FCC's deadline.

Sincerely,

A handwritten signature in black ink that reads "Robert Kay". The signature is written in a cursive style with a long horizontal flourish extending to the right.

Robert Kay
