RE: Incorrect Dates on EEO Reports

To Whom it may Concern,

During our first of the month review of our Online Public File it was noted that the EEO Report that was uploaded on September 15, 2023, was incorrectly labeled for the reporting period. The correct title should have been for the period of October 1, 2022, through September 30, 2023. In lieu of deleting it after the due date of September 30, 2023, we have elected to put this memo in the file. The report uploaded today, October 2, 2023, contains the correct dates on the file name.

Again, the current report was filed well in advance of the deadline of September 30, 2023, and was only mislabeled in its title. We are noting, with this this memo and changing the dates on the file to reflect the corrected dates and uploading again.

Regards

Randy McKone
