This locally produced program focuses on the people and communities of the San Francisco Bay Area, including Oakland and San Jose. The show features local and national guests and encourages audiences to effect positive change in their lives and communities. Transformative guests, thoughtful topics, and an inspirational approach earned this program an Emmy Award. Hosted by Debra Fraser.

The Counsel of Women

For women, life is multi-layered and intense, filled with activities, careers, budgeting, child-care and aging parent responsibilities. TLN responded with a new original and exclusive series to address the needs of women in three areas of life – spiritual, emotional and physical. Specially selected co-hosts deal with issues and answers centered around the family, finances, health, education, fears and more.

Significant Insights

Significant Insights is a weekly call-in program, hosted by Jerry Rose, touching on a broad range of compelling, Christian topics, including interviews with extraordinary people of Faith. Significant Insights is not just an interview program, but an interactive show where callers have a chance to express their views or ask questions on topics like parenting issues, evolution vs. intelligent design, status of race relations in the American church, freedom from sexual addictions, the assault on Christmas in the public square, mistakes couples make, where America is heading, understanding Islam, living a life of integrity, coping with depression, death and loss.

Aspiring Women

Aspiring Women is an Emmy award winning TLN original program that features captivating stories, honest talk, and practical insights on the common, challenging issues women face. Through the adaptation of on-location features, dramatic storytelling and lively interviews, *Aspiring Women* gives viewers something to think about, talk about and share with others. With a refreshing mixture of friendship, humor and attitude, Shirley Rose, Valerie Burton and Chonda Pierce form a dynamic hosting team that leaves no stone unturned as they observe life through their own unique lenses.

Episode descriptions, topics, dates, and times of broadcast are attached for each program.
