48 HOURS: "Who Wanted Nicki Lenway Dead?" – a report on the attempted murder of Nicole "Nicki" Lenway and the ensuing police investigation, which resulted in the arrest and conviction of Tim Amacher and Colleen Larson. On April 20th, 2022, Nicki, a crime scene investigator for the Minneapolis Police Department, was shot in broad daylight and left for dead in a parking lot by a single assailant, as she went to pick up her son from FamilyWise, a parenting center. The shooting was caught on surveillance video, but the suspect could not be easily identified; Nicki was certain the shooter was a woman and that Tim, her ex-boyfriend and son's father, was somehow involved. Tim, who was inside the parenting center on his scheduled weekly visit at the time of the crime, appeared to have an air-tight alibi. Nicki had sole and legal custody of their son, awarded in the fall of 2020, after Tim spent years abusing the legal system by filing multiple false accusations against her and boyfriend Donovan Ford. Investigators soon discovered Tim lied about owning a black Dodge Ram truck, the vehicle used by the shooter to flee the scene of the crime. Police questioned Colleen Larson, Tim's longtime taekwondo student and girlfriend, who had access to the truck. Cell phone records, the truck's digital trail and the evidence found during a raid of the couple's house, resulted in Colleen's arrest on April 28th, 2022. She confessed and implicated Tim, who continued to deny involvement. Tim's trial began on November 3rd, 2022; he was found guilty of premeditated attempted murder and aiding his accomplice and sentenced to 18 years in prison. Colleen pleaded guilty and was sentenced to 16 ½ years in prison, doing what prosecutors say was Tim's bidding. Nicki and Donovan are now married and expecting a baby. No on-screen text graphic for this broadcast. (Broadcast contains an on-screen in memoriam card: In Memory of John Yacobian). Interviewed: Nicole Lenway (aka Nicki), victim, forensic scientist, Minneapolis Police Department (her first television interview); Jacob Fischmann, assistant Hennepin County attorney; Patrick Lofton, assistant Hennepin County attorney; Emilie Clancy, witness, assisted Nikki until paramedics

arrived; Pat Zellmer, Tim's former friend; Claire Zellmer, Tim's former friend; Donovan Ford, Nicole's then-boyfriend, Minneapolis, MN police officer; Charlie Dettloff, Tim's neighbor; Richard Fennern, FBI special agent, technology specialist; Matthew Troiano, defense attorney, 48 HOURS consultant, reviewed the case; and Woman #1, Tim's former girlfriend, asked not to be identified. 48 HOURS: "Jade Janks and the Secret Photos" – a report on the murder of 64-year-old Tom Merriman of Solana Beach, CA, and the case against his stepdaughter, Jade Janks, for his death. On December 31st, 2020, Jade, a 37-year-old interior decorator, picked Tom up after he had spent more than two weeks in the hospital and a rehab center after a bad fall; he also had heart and liver problems. On January 1st, 2021, the San Diego Sheriff's Department received a call from a man who claimed his friend, Jade Janks, confessed to drugging, suffocating and strangling her stepfather, Tom Merriman. The call triggered a police search for Tom and police questioned Jade, who denied knowledge of his whereabouts. Police searched Tom's apartment and when in his driveway, removed a trash bag from a pile of trash and saw the silhouette of a man; it was Tom Merriman, still in his hospital pajamas. On January 2nd, 2021, Jade was arrested and charged with his murder, but claimed innocence and that Tom, just released from the hospital, was in poor health and fell asleep in her car. She maintained she found Tom dead in her car the next morning, panicked and tried to hide his body. The autopsy supported Jade's account because prosecutors were looking for evidence of strangulation and not a prescription drug overdose of Ambien, what Tom actually died of. Investigators learned that on December 23rd, 2020, Jade discovered hundreds of explicit photos of herself on Tom's computer while cleaning his apartment. Jade's cellphone contained text messages, which prosecutors described as "suspicious" and "incriminating", to a man she wanted to help her in getting rid of Tom. In December 2022, Jade went on trial for Tom's murder. Evidence included Jade's DNA on the outside of a plastic bag prosecutors believed she used to suffocate him, with Tom's DNA found on the inside, as well as her DNA on the pill packs. Jade testified at her trial and the defense emphasized the perceived weaknesses of the case. The jury found Jade guilty of first-degree murder and she was sentenced in March 2023 to 25 years to life in prison. Tom's hard drive was never recovered, but prosecutors believe that the nude photos on Tom's computer existed. On-screen text graphic: Jade Janks will be eligible for parole in 2038. She is appealing her conviction. Interviewed: Ramona and George Hamilton, Tom's neighbors, saw Tom on December 31st, 2020, in Jade's SUV in the driveway; Pat Flanagan, Tom's friend and business partner at the butterfly farm; Heather Pearce, grew up next door to Jade in San Diego County; Marc Carlos, Jade Janks' attorney; Jorge Del Portillo, deputy district attorney, San Diego County, CA; and Teresa Pham, assistant district attorney, San Diego County, CA. William Reece, a sex offender who had been released from prison six months before the murders began and was working in Friendswood, was named a suspect. Investigators found evidence that tied him to Laura Smither's murder but were unable to make an arrest. While police continued to investigate, he remained free. In April 1998, William Reece went on trial for the kidnapping of Sandra Sapaugh in Texas; he was convicted and sentenced to 60 years in prison. Eventually identified by DNA, William Reece agreed to talk to investigators about the cases in 2016. In May 2021, he went on trial for the murder of Tiffany Johnston in Oklahoma and was found guilty and sentenced to death. In Texas, William Reece agreed to plead guilty to murdering Laura Smither, Kelli Cox, and Jessica Cain; in exchange, he received three life sentences. 10/21/23

48 HOURS: "Unmasking the Zombie Hunter" (10:00 - 11:00p) – a report on the case of the Phoenix Canal Murders in Arizona and how the crime was eventually solved. In November 1992, Angela Brosso, a tech worker who had recently moved to Phoenix, went out for her evening bike ride along the Phoenix canal. The next morning, her torso was found in a field next to the trail she had been riding on; 10 days later, her head was found stuck on a grate in the canal. With no leads, the case went quiet until September 1993, when 17-year-old Melanie Bernas went missing after she went for a bicycle ride along the canal. Her body was found in the canal the next day. Detectives suspected the same assailant; knife wounds were in the exact same position on the back of each victim and both were sexually assaulted. DNA testing linked both murders and confirmed their suspicions. The case went cold until 2014, when thanks to DNA and genetic genealogy, police were able to zero in on 42-year-old Bryan Patrick Miller, a divorced father raising his teenage daughter. Miller had a police record and spent time in juvenile detention until he was 18 for stabbing a woman in the back. He also had an alter ego; Miller was a local celebrity known for participating in parades and festivals as the "Zombie Hunter", a zombie-slaying comic book hero. In January 2015, Detective Clark Schwartzkopf met Miller at a local Chili's restaurant under the guise of filling out a job application for a security position. DNA from his water glass linked him to the crimes and he was arrested and charged with first-degree murder in both Angela Brosso and Melanie Bernas' deaths. Miller's trial began in October 2022. His defense admitted he was the killer but was not guilty by reason of insanity and that Miller was tortured and beaten, both physically and mentally, by his mother Ellen when he was a child. His ex-wife testified for the prosecution about his violent behavior. The judge found him guilty. Miller's defense requested life in prison and though the judge believed his abuse as a child was proven, sentenced him to death. On-screen text graphic: Under Arizona law, Bryan Miller's death sentence will be automatically appealed. Interviewed: Briana Whitney, true-crime reporter, KPHO-TV, CBS affiliate, Phoenix, AZ; Morgan Loew, investigative reporter, KPHO-TV, CBS affiliate, Phoenix, AZ, 48 HOURS consultant; Rachel Schepemaker, Melanie Bernas' childhood friend; Clark Schwartzkopf, detective, Cold Case Squad, Phoenix Police Department; Charlotte Pottle, local resident who telephoned police in 1993, after she rode through a puddle of blood while biking along the Phoenix canal; Colleen Fitzpatrick, forensic genealogist, founder, Identifiers International, matched the crime scene DNA in 2014; Celeste Bentley, victim, stabbed by Bryan Miller in May 1989; Eric Braverman, Bryan Miller's friend; and Kristin Dennis, sister of Brandy Myers, who disappeared on May 26th, 1992 in Phoenix, and who investigators believe was killed by Bryan Miller, though he denies involvement. 48 HOURS: "Melissa Turner's Closing Act" (9:00 – 10:00p) - a report on the investigation into the death of Matthew Trussler, who lived with his fiancée, Melissa Turner, in

Riverview, FL, a suburb of Tampa. On October 18th, 2019, Turner called 911, saying she had discovered Trussler lying unresponsive near their swimming pool. He was pronounced dead at the scene and an autopsy later revealed he had died from stab wounds. Turner initially told detectives that the couple had been drinking the night before and could remember few details. Investigators located a security camera above a neighbor's garage door that recorded audio of screaming and yelling and when confronted, Turner's story changed. She then claimed to have acted in self-defense and stabbed Trussler when he tried to choke her. Turner was eventually arrested and charged with second degree murder with a weapon. Turner, who had been out on bail since her 2019 arrest, went on trial on February 14th, 2022; prosecutors used the audio from the neighbor's camera, as well as video from inside the couple's home. The trial wrapped on February 18th, 2022; after seven hours of deliberation, the jury found Turner guilty of murder in the second degree. On March 18th, 2022, Melissa Turner was sentenced to 20.5 years in the Florida State Prison. On-screen text graphic: Prosecutors say Matthew Trussler was a victim of domestic violence. 48 HOURS: "Murder by Clown" (10:00 – 11:00p) – an update to 48 HOURS: "The Clown Did It" (OAD: 04/21/18; Rebroadcast: 01/12/19), a report on the May 26th, 1990, shooting of Marlene Warren, and the decades long hunt for her killer: a clown bearing balloons, flowers and a gun. Her son, Joe Ahrens, witnessed his mother being shot; Marlene died two days later, after being removed from life support. At the time, the case rocked the Florida neighborhood where Warren lived and has haunted family members ever since. Hours after the shooting, police received an anonymous tip from a caller telling them to look at Marlene's husband Mike Warren, but he had a solid alibi. The caller also told police about Sheila Keen, an employee of Mike's. Police learned Keen fit the description of a woman who bought a costume, flowers and balloons. There were also rumors that Mike Warren and Sheila Keen were lovers. No arrest was ever made. Keen guit her job and moved away. Mike Warren battled with Marlene's son Joe Ahrens over her estate. Warren was investigated, convicted and sentenced on 43 fraud charges and served four years in prison. In 2012, Warren and Keen were married. They settled in Tennessee and operated a burger joint called Purple Cow; rumors about Keen's past persisted among their employees. They sold their business and retired to their vacation home in Virginia. In 2017, investigators say they finally developed DNA evidence to make their case and Sheila Keen-Warren was subsequently arrested and charged with Marlene Warren's murder, but there was not enough evidence to prosecute Mike Warren. 10/28/23 Update: In February 2020, after a reevaluation of

Sheila Keen-Warren's case, prosecutors announced they would no longer seek the death penalty. Her trial was postponed six times and by 2022, Keen-Warren had spent five years in jail. Over the years, mistakes in how the evidence was handled and the delays caused problems for both the prosecution and defense. On April 25th, 2023, two weeks before Sheila Keen-Warren's trial for the murder of Marlene Warren was to begin, a plea deal was reached: she agreed to plead guilty to second-degree murder and be sentenced to 12 years in prison, thereby avoiding a possible life sentence. Under sentencing guidelines for time served, she is expected to be released in 2025, perhaps sooner. Sheila and Mike both continue to maintain her innocence. Joe Ahrens approved the plea deal. On-screen text graphic: Marlene Warren's mother Shirley Twing died in March 2023, before Sheila Keen-Warren pleaded guilty to Marlene's murder. 48 HOURS: "The Death of an Officer's Wife" (9:01 - 10:00p) - a report on the events leading up to the day Seth Perrault reported his wife, Amanda Perrault, dead. Five days after Amanda made allegations of abuse against Seth, an Eatonton, GA police officer, he reported that she took her life by shooting herself on February 3rd, 2020. Investigators immediately doubted Seth's story, based in part on the crime scene, including the position of her body in the couple's bed, the way the Smith and Wesson .380 was found lying next to her body with its magazine ejected, other forensic evidence and allegations of abuse. Two days after Amanda's shooting, Seth was arrested, but the COVID pandemic shut down the courts and Seth remained in jail. During that time, the medical examiner released the autopsy report, which declared Amanda's death a suicide. In November 2020, the grand jury decided that the case should go to trial; Seth was charged with malice murder, felony murder and aggravated assault. At his February 2022 trial, Seth decided not to testify; prosecutors included evidence found on Amanda's cell phone. Seth Perrault was found guilty of murder and sentenced to life, without the possibility of parole. 48 HOURS: "The Hunt for Sarah Yarborough's Killer" (10:00-11:00p) – a report on the December 14th, 1991 murder of 16-year-old Sarah Yarborough, who was on her way to drill team practice at Federal Way High School, in Federal Way, WA, outside of Seattle. Sarah was found murdered on school grounds by 13-year-old Drew Miller and a friend. Both boys noticed a man in the bushes and, after he walked away, discovered Sarah's body. Drew noticed the man was still staring at them; they raced home and called the police. Though Sarah was not raped, investigators believed it was a sexually motivated murder; there was semen on her underwear and jacket, which gave detectives a full male DNA profile. By the early 2000s, investigators had received over 3,000 leads and advances in technology made them hopeful. In 2011, they reached out to Colleen Fitzpatrick, who began to work on Sarah's case. In September 2019, the team came up with two possible suspects: brothers Edward and Patrick Nicholas. Edward Nicholas was a registered sex offender and his DNA was in the CODIS system, but he was not a match. Patrick Nicholas was known to police and had a record for prior sexual assaults. In late September 2019, undercover detectives surreptitiously procured a sample of Patrick's DNA; it was a match and he was arrested days later. In early 2023, more than 30 years after Sarah Yarborough's murder, the 59-year-old suspect went on trial. The defense challenged how forensic genetic genealogy was used to first identify him; it was the first time that kind of defense had been used in Washington State. The jury found Patrick Nicholas not guilty of the crime of murder in the first degree, premeditated, but found him guilty of first-degree murder and second-degree murder and ruled both had been committed with a sexual motivation. Two weeks later, he was sentenced to almost 46 years in prison. Although forensic genetic genealogy helped solve Sarah's case, familial DNA searches are not allowed in Washington State, which could have solved her case earlier. Prosecutors and Sarah's family both feel that it's time to get that law changed. On-screen text graphic: Investigators have not linked Patrick Nicholas to any additional crimes, but his DNA is now in the CODIS database. Interviewed: Celia Lee and Mary Barbosa, King County deputy prosecuting attorneys; John Free, detective, King County Sheriff's Office, Major Crimes Unit; Laura and Tom Yarborough, Sarah's parents; Andrew Yarborough, Sarah's youngest brother; Amy Parodi, Shannon Grant, Liberty Barnes, Kristi Gutierrez, and Mary Beth Thome, Sarah Yarborough's friends; Drew Miller, discovered Sarah's body on school grounds and helped police draw a sketch of the suspect; Scott Strathy, former detective (retired), King County Sheriff's Office; Bill Fuller, Yarborough family friend, discovered during the DNA investigation to be a distant cousin of brothers Edward and Patrick Nicholas; Colleen Fitzpatrick, forensic genetic genealogist, worked on the Sarah Yarborough case; Anne Croney, escaped from attack by Patrick Nicholas in June 1983 and spoke at his 2023 sentencing; and David Montes, Patrick Nicholas' public defender. 11/25/23

48 HOURS: "Stephen Smith - A Death in Murdaugh Country" – a report on the death of Stephen Smith, a 19-year-old gay man, whose body was found on a South Carolina country road on July 8th, 2015. Before Hampton County, SC, legal scion Alex Murdaugh was convicted for the murders of his wife and son in 2023, this was one of the other mysteries in the Murdaugh orbit. The supervisor called to the scene where Smith's body was found didn't see any signs of a hit and run and suspected the scene was "staged" and that Smith's body had been placed there. The medical examiner ruled it a hit and run, but for years, his mother Sandy Smith wanted a second opinion. Rumors that the Murdaughs were somehow involved persisted and the Murdaugh name comes up dozens of times in the case file. With the investigation stalled and no suspects named in Smith's death, in late 2016, the case went cold. It reignited in June 2021 after the murders of Paul and Maggie Murdaugh. During that investigation, the South Carolina Law Enforcement Division (SLED) announced a new lead in Smith's death and took over the case; it has not said what that evidence is. In March 2023, after Alex Murdaugh was found guilty in the murders of his wife and son, Sandy Smith gained a high-power legal team; Eric Bland and Ronnie Richter, who are representing her pro bono and have pursued their own investigation. Richter and Bland had Smith's body exhumed and assembled a team of experts: Dr. Michelle Dupre and Dr. Kenny Kinsey. In April 2023, Dr. Dupre oversaw the examination of Smith's body and said it confirms he died from a single blow to his forehead and that, oddly for a hit and run, there were no injuries to his body that would indicate he'd been hit head-on by a vehicle. Both experts say they believe Smith died on the road where his body was found; the independent investigative team has turned over all its findings to SLED. Sandy Smith has established a college scholarship in her son's name. This broadcast also includes an update on the ongoing local and state charges against Alex Murdaugh, including his November 17th, 2023 plea deal agreement encompassing all of the state financial charges he faced for defrauding and stealing millions from clients and law partners, as well as his legal team's September 2023 announcement of a motion for a new trial. On-screen text graphic: If you have information about the Stephen Smith case, please email tips@sled.sc.gov. Interviewed: Sandy Smith, Stephen's mother; Michael Dewitt, editor, Hampton County Guardian, reported on Stephen Smith's death in 2015, author, "The Fall of the House of Murdaugh"; Ronnie Richter and Eric Bland, attorneys representing Sandy Smith; Liz Farrell, writer and podcast co-host, "Murdaugh Murders"; Thomas Moore, retired lieutenant, South Carolina Highway Patrol, supervisor called to the scene where Smith's body was found in 2015; Dr. Michelle Dupre, former investigator and forensic pathologist; Dr. Kenny Kinsey, retired chief deputy, Orangeburg County Sheriff's Office, star prosecution witness in the Murdaugh murder trial; and Alania Spohn, detective, Lexington County Sheriff's Office and Hannah Plyer. Both sisters survived a 2005 car crash due to a faulty tire that killed their mother and brother; Alex Murdaugh was their attorney and both he and conservator Russell Laffitte defrauded the sisters. 48 HOURS: "Death At The Door: Who Shot Heidi Firkus?" – a report on the death of Heidi Firkus, who was shot and killed while on the phone with 911, at 6:30 a.m. on April 25th, 2010, after her husband, Nick Firkus, said an intruder was breaking into their home in Saint Paul, MN. Nick told investigators he and Heidi attempted to leave the home and his gun discharged when he struggled with the intruder, who burst through the front door. Heidi was struck in the back as she attempted to flee towards the kitchen and died

instantly; Nick was shot in the leg. Police found Nick's demeanor and story odd, as the evidence at the scene did not match Nick's account: by the front door where the alleged struggle occurred there was a vase, some receipts, a beer bottle and none of that was knocked over and there were no signs of forced entry. Nick claimed he and Heidi were scheduled to move the day after Heidi was shot, due to foreclosure and eviction, but investigators saw no evidence at the home which indicated an impending move. Nick soon began a friendship with Rachel Sanchez, the sister of one of Heidi's friends, and they began dating in the spring of 2011. After Nick and Rachel married, they soon were the parents of three children. Nick Firkus went free for more than a decade until investigator Nichole Sipes took over the case and determined Heidi was unaware of the couple's financial difficulties at the time of her death. As part of the new investigation, she reached out to Rachel Firkus, who had divorced Nick after she discovered he lied about their finances during their marriage. Rachel later gave the investigator a recording she made of an incriminating conversation she had with Nick. On May 19th, 2021, Nick was arrested and charged with second degree murder; a grand jury ultimately indicted him on first and second degree murder charges. After remaining free on bail, Nick's trial began on January 27th, 2023; prosecutors were not allowed to call Rachel to testify or use her taped conversation with Nick. Closing arguments were presented on February 10th, 2023; the jury received the case the same day. Five hours later, Nick was found guilty on two counts of murder, premeditated and intentional. On April 13th, 2023, Nick was sentenced to life without parole and refused to admit guilt. On-screen text graphic: Nick Firkus is appealing his conviction. Interviewed: Marcus and Katina Sarazin, mentored Heidi at Calvary Church; Nichole Sipes, sergeant, Saint Paul Police Department; Branden O'Connor, housesitting next door to the Firkus residence, heard a voice the morning of Heidi's death; Jim Gray, sergeant, Saint Paul Police Department; Emily and Andrew Erickson, Nick's friends; Joe Friedberg, Nick's criminal defense attorney; Robert Richman, Nick's attorney; Rachel Firkus, Nick's second wife, since divorced; Rachel Kraker, prosecutor; Elizabeth Lamin, prosecutor; and Natalie Michael, juror. 48 HOURS: "Andreen McDonald: A Millionaire Vanishes" – a report on Andreen McDonald, a 29-year-old millionaire and resident of San Antonio, TX, who was reported missing on March 1st, 2019, by her mother Maureen Smith. Andreen grew up in Portland, Jamaica and in 2019, met Andre McDonald, also a native of Jamaica and at the time, a captain in the U.S. Air Force. They decided she would move to America and married that July; they soon had a daughter, Alayna. Andreen started Starlight Homes, an assisted living business out of their home, and transformed it into a multi-million dollar business in just seven years; Andreen was a major and cyber warfare analyst for the U.S. Air Force. When police arrived at their home in an upscale gated community, they discovered blood and hair on the wall and a random burn pile in the landscaped

backyard. Andre told investigators the last time he had seen his wife was the night before. The day after Andreen was reported missing, investigators discovered newly purchased items inside one of the McDonalds' cars that were not there during their initial search, including a shovel and ax and, in a trash can, a claw hammer and some clothing that appeared to be Andre's with blood on the pocket of the jeans. The DNA on the claw hammer was later identified as Andreen's. Investigators learned they had a troubled and tumultuous marriage and although they had suspicions about Andre, without a body, none of the evidence collected proved that a murder had occurred. Law enforcement, along with volunteers, family and friends, searched for Andreen over the course of the ensuing months before the search ended in July 2019, when a local farmer discovered a human skull and other skeletal remains in his field. Andre, who had already been arrested for tampering with evidence in 2019, and was released from jail on bond, was arrested again and charged with Andreen's murder; he pleaded not guilty to the charge. Days before his trial was set to begin in January 2023, Andre began to talk and told his mother and Andreen's family that her death was an accident. During the trial, Andre's attorneys claimed self-defense and that he was in fear during their final argument. The jury was deadlocked after 11 hours of deliberation, unable to decide between murder, manslaughter or not guilty by self-defense. The judge invoked an Allen Charge and the jury found Andre McDonald guilty of manslaughter. The business Andreen created is now closed; her mother and sister are raising Alayna, now 12-yearsold. On-screen text graphic: Andre McDonald was sentenced to 20 years in prison. He is appealing his conviction. Interviewed: Frank Stubbs, lead investigator; Mandy Hall, Andreen childhood friend; Sheriff Javier Salazar, Bexar County Sheriff's Office; Maureen Smith, Andreen's mother; Jackie Horne, Andreen's mother-in-law; Andrew Russell, Andreen's friend; Clifton Klabunde, local farmer who discovered Andreen's remains in his field; Cindy Johnson, Andreen's sister; Lauren Scott, assistant district attorney, Bexar County; Steven Speir, assistant district attorney, Bexar County; Zoe Russell, Andre's defense attorney; John Hunter, Andre's defense attorney; John Convery, Andre's defense attorney; Brandon Medellin, juror; and Rudy Ruiz, juror. 48 HOURS: "The Journals of Maria Muñoz" (10:26 – 11:25p) – a report on the death of 31-year-old Maria Muñoz. In the early morning of September 22nd, 2020, police responded to a call at a home in Laredo, TX. Upstairs, Joel Pellot, a nurse anesthetist and Maria's husband, was performing CPR. Paramedics and police took over, but less than three hours later, Maria was declared dead inside of the home that Joel had moved out of five months prior to live with his girlfriend. Joel told the 911 operator and police his wife may have taken pills; at the scene, he showed police a bottle of clonazepam, a drug often used to treat anxiety, but it was prescribed to Joel, not Maria. Investigators also discovered a syringe wrapper on the floor, a needle catheter on the stairs, syringes and I.V. equipment in a medical bag inside the home. Joel's behavior was suspicious to police: he was sweating, appeared to be under the influence of drugs and resisted answering questions, citing privacy concerns. The medical examiner ruled Maria died of a combination of drugs in her system but could not determine how they got there. Additionally, there was no clonazepam pill residue in Maria's stomach and she had a pinprick mark on her right elbow crease. An anesthesiologist and Joel's former boss learned of the autopsy results and urged the lead detective on the case to order a detailed toxicology screening. Nearly four months after Maria's death, police received the toxicology report: there was "zero clonazepam" found in her body, but the presence of seven other drugs - morphine, Demerol, Versed, propofol, ketamine, lidocaine and Narcan - most of which are typically used during surgery; propofol can only be administered with an I.V. Joel was arrested and charged with her murder. Maria, a mother to two young sons and former nurse, met Joel in Puerto Rico; they moved to Texas a few years after they were married. In 2018, around the same time Maria gave birth to the couple's second son, Joel began an affair with a surgical nurse he met at work, Janet Arredondo. Maria was treated for depression and anxiety. She chronicled her recovery in journals, discovered in her home by investigators. The journals assisted the medical examiner, who ruled out suicide and were valuable to prosecutors because they painted a powerful picture of the marriage, but also of a woman who had accepted the end of the relationship and was hopeful for her and her children's future. Police questioned Janet twice, the second time after she accepted an immunity deal; she finally admitted Joel brought drugs to her home, including propofol. She also stated that Joel admitted to injecting Maria the night she died, but only to calm her down and that he disposed of some of the medical equipment used that night before first responders arrived. Joel, who was out on bail, was arrested again and charged with tampering with evidence; he made bail and wore an ankle monitor. The trial began two-and-a-half years after Maria's death: Joel's defense admitted he injected Maria, but claimed it was accident; prosecutors argued the motive was money. After eight days of testimony, the jury found Joel guilty of murder and evidence tampering; he was sentenced to life in prison. On-screen text graphic: Maria and Joel's children are living with his mother. Interviewed: Gregorio De La Cruz, police officer, Laredo Police Department, first officer on the scene; Luis Mata, sergeant, lead detective on the case, Laredo Police

Department; Isidro Alaniz, district attorney; Marisela Jacaman, chief assistant district attorney; Cristal Calderon, assistant district attorney; Yazmin Martinez, Maria's friend; Tina Dores, certified registered nurse anesthetist (CRNA), worked with Joel at Doctors Hospital in Laredo, TX; Angela Montoya, Maria's friend, Luis Yala's wife; Dr. John Huntsinger, anesthesiologist, Joel's former boss, urged Sgt. Mata to order a detailed toxicology screening to determine which drugs killed Maria; Luis Ayala, Joel's coworker and friend, Angela Montoya's husband; Karina Rios, assistant district attorney; and Ana Karen Garza Gutierrez, then-chief assistant district attorney. 48 HOURS: "What Ever Happened to Mary Day?" - a report on the search to find a young girl who was last seen in 1981. In 2002, Sherrie Calgaro filed a police report about her sister Mary Day, who went missing in 1981 at the age of thirteen. Sherrie had been adopted by a foster family, while Mary and their middle sister Kathy, returned to their mother Charlotte and her new husband, William Houle. Mary was last seen at the Houle home in Seaside, California. William accused Mary of poisoning his dog, which led to a physical altercation. Charlotte and William claimed that Mary ran away, but they never filed a police report -- allegedly so they could continue claiming the Social Security checks Mary was receiving because of her deceased father. In March 2003, authorities canvassed the former Houles home with cadaver dogs, all of which focused on one spot in the backyard. After digging, police found the decaying sneaker of a young girl, but no body. A month later, Detective Joe Bertaina interviewed Charlotte and William after locating them in Kansas. William recalled the altercation with Mary and admitted to striking her. He claimed he could not have killed her, but admitted to feeling "possessed" at the time and that the "demon" inside him could have. Detective Bertaina and Police Chief Steve Cercone took this as a confession, but the district attorney was not ready to bring charges. In November of that year, a routine traffic stop in Phoenix, Arizona, turned up a woman claiming to be Mary Day. Authorities performed a DNA test on "Phoenix Mary" and confirmed she was Charlotte Houle's daughter. The police closed the case and Sherrie invited Mary to move in with her, but she soon began to question if this woman was her sister. Sherrie noticed Mary often went by the name "Monica Devereaux" and had a peculiar accent. Mary also sent an email to Detective Bertaina saying she had been lying about who she was. Despite this, the case remained closed. However, in 2008 Chief Cercone was informed that an unrelated investigation at Fort Ord had resulted in cadaver dogs focusing on a second home the Houles had lived in. Once again, police were unable to find a body. Chief Cercone hired private investigator Mark Clark to look into the case. Clark's theory was that the Houles murdered Mary in 1981 and that "Phoenix Mary" was a previously unknown daughter of Charlotte's that they enticed to impersonate Mary with the promise of money. In 2017, acting Police Chief Judy Veloz had further testing conducted that showed "Phoenix Mary's" DNA matched Charlotte as well as the birth father. She further concluded that gaps in Mary's memory were due to a traumatic life and alcoholism. Her report closed the investigation. On-screen text graphic: Mary Day died nine days after Judy Veloz

interviewed her. There was no funeral. Interviewed: Detective Joe Bertaina, police officer; Steve Cercone, former police chief; Sherrie Calgaro, Mary's sister; Kathy Pires, Mary's sister; Mark Clark, private investigator; Judy Veloz, acting police chief; Shaun Moore, CEO, Trueface. 48 HOURS: "The Search for Christie Wilson" (9:00 - 10:00p) - an update on the case of Christie Wilson, a 27-year-old from Sacramento, CA, who disappeared in October 2005. She was last seen at the Thunder Valley Casino in the company of Mario Garcia, a 53year-old married father of two. A lengthy investigation revealed that Mario had a prior criminal record including charges of rape and assault with a deadly weapon and spousal abuse. That information, as well as DNA evidence linking him to Christie, resulted in his arrest. His trial lasted two months and the jury deliberated for just three days. Despite the absence of a murder weapon and physical evidence to prove that Christie Wilson was dead, Mario Garcia was sentenced in January 2007 to a term of 25 years to life. Based on a serious prior conviction and other charges, his sentence was raised to 59 years. The search for Christie's remains continued as he filed appeals from prison. In 2017, after Mario saw a television interview with Christie's mother Debbie Boyd, he reached out and attempted to use the location of Christie's remains as a bargaining chip. Instead, investigators re-interviewed Mario's family regarding the days before his arrest and learned about extensive landscaping he did on his property at the time. In August 2020, ground penetrating radar revealed pockets around the property. Excavating these pockets turned up human remains, which were confirmed to be Christie Wilson. Debbie and Christie's father Dennis had Christie's remains cremated. In October 2020, to mark the anniversary of her death, Debbie visited the pier in Capitola where the family placed a plaque many years ago. On-screen text graphic: Mario Garcia died of pneumonia on December 24, 2020. He died without ever admitting guilt. 48 HOURS: "Lori Vallow Daybell: Guilty" (10:00 – 11:00p) - an update on the case against Lori Vallow Daybell, who was found guilty on Friday, May 12th, 2023, by a Boise, ID jury for murdering her two children, JJ Vallow and Tylee Ryan, and conspiring in the murder of her husband's ex-wife, Tammy Daybell. Lori's husband, Chad Daybell, a former gravedigger-turned-doomsday novelist and podcaster, will be tried later. Chad and Lori were charged in May 2021 with murdering her children, 7-year-old JJ Vallow and 16-year-old Tylee Ryan, who disappeared in September 2019, shortly after the family moved to Idaho, from Arizona. Tylee was last seen in Yellowstone National Park with her family on September 8th, 2019; JJ vanished on September 23rd, 2019. In June 2020, their bodies were found in shallow graves on Chad Daybell's property, just outside of Rexburg, ID. The Daybells pleaded not guilty to the murder charges. During the trial, prosecutors argued that Lori's true motive was money; the defense claimed she did not commit the murders and suggested that Chad manipulated Lori. After 60 witnesses and four weeks of testimony, the prosecution rested its case; the defense declined to call any witnesses. The jury deliberated for seven hours over the course of two days; Lori appeared emotionless as the guilty verdicts were read. She will be sentenced at a later date. Original on-screen text graphic: Chad Daybell may stand trial as early as June 2024. He has pled not guilty. Lori Vallow Daybell may also face trial in Arizona in connection with the death of her former husband, Charles Vallow. On-screen text graphic for the 12/30/23 rebroadcast: Lori Vallow Daybell was extradited to Arizona where she faces two murder conspiracy charges. She pleaded not guilty.
