(October 1 through December 31)

ISSUE: AUTISM

InfoTrak

October 31

6:00am / 15 Minutes

Guest(s): Eric Garcia, journalist, author of "We're Not Broken: Changing the Autism Conversation"

Mr. Garcia shared his story of living with autism, to explain the social and policy gaps that often fail to help Americans across the autism spectrum. He said society has not listened to the needs of the autistic community. He outlined several misconceptions, including the belief that there is an autism epidemic, because diagnostic criteria were expanded in the 1990s.

Issues of Concern: Autism; Government Policies

Spotlight on Maryland

November 28

6:30am / 30 Minutes

Guest: Pathfinders for Autism, (PFA), Program Director, Neal Lichter

Neal talked about their ongoing programs and upcoming events like Sweetheart Soiree 2022 at Boordy Vineyards and their Golf Tournament May 16, 2022, as well as the most recent Autism Spectrum Disorder, (ASD), stats nationally and in Maryland. Pathfinders for Autism works to support and improve the lives of individuals affected by autism through expansive, customized programming, and by providing resources, training, information and activities free of charge. PFA served almost 22,000 people across Maryland last year. Pathfinders for Autism was established as a 501 (c) (3) nonprofit organization in February 2000 by parents of children with autism, including Baltimore Orioles Hall of Famer William "B.J." Surhoff and his wife Polly Winde Surhoff.

Issues of Concern: Autism; Personal Health; Education

(October 1 through December 31)

ISSUE: CAREER

InfoTrak

November 7

6:15am / 15 Minutes

Guest(s): Patty Alper, President of the Alper Portfolio Group, author of "Teach to Work: How a Mentor, a Mentee, and a Project Can Close the Skills Gap in America"

Millions of Americans are looking for new jobs right now, largely because they're simply not satisfied with where they are. Ms. Alper explained why mentors are important for the success of both employees and a company overall. She also outlined the questions an applicant can ask to determine the accessibility to mentors throughout a company. She also discussed her work in recruiting CEOs to mentor inner-city youth.

Issues of Concern: Career; Mentoring

Most Significant Issue-Responsive Programming
4th Quarter 2021
(October 1 through December 31)

ISSUE: CONSUMER MATTERS

InfoTrak

November 21, 2021

6:00am / 15 Minutes

Guest(s): Hua Cai, PhD, Associate Professor of Environmental and Ecological Engineering, and Industrial Engineering at Purdue University

Most consumers want to make food purchases that are smart for their wallets, their health and the environment. Prof. Cai led a study that examined grocery purchase records of over 57,000 U.S. households, finding that 71% of homes surveyed could decrease their food carbon footprint, via three simple changes in their shopping habits.

Issues of Concern: Consumer Matters; Climate Change

InfoTrak

December 12

6:15am / 15 Minutes

Guest: Grant Donnelly, PhD, Assistant Professor of Marketing at The Ohio State University's Fisher College of Business

Several US cities have instituted taxes on drinks with added sugar, in order to reduce consumption. Prof. Donnelly led a study that examined whether price tags that specifically mentioned the tax would change consumers' buying decisions. He said the tax falls harder on low-income consumers.

4th Quarter 2021
(October 1 through December 31)

ISSUE: CONSUMER MATTERS (continued)

InfoTrak

December 26

6:00am / 15 Minutes

Guest: Scott Galloway, PhD, Professor of Marketing in the Stern School of Business, New York University, author of "The Four: The Hidden DNA of Amazon, Apple, Facebook, and Google"

Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Dr. Galloway discussed the concerns in allowing individual companies to have such dominance over American consumers and whether these companies are playing by the rules applied to other businesses.

Issues of Concern: Consumer Matters; Government Regulations; Economy

Most Significant Issue-Responsive Programming
4th Quarter 2021
(October 1 through December 31)

ISSUE: CRIME

InfoTrak

December 19

6:00am / 15 Minutes

Guest(s): Tim Larkin, self defense expert, author of "When Violence Is the Answer: Learning How to Do What It Takes When Your Life Is at Stake"

Mr. Larkin discussed the use of violence in self-defensive situations. He discussed ways to prevent, prepare for, and survive violent encounters with criminals. He said that violence is a tool equally effective in the hands of the "bad guy" or the "good guy" and that that the person who acts first, fastest and with the full force of their body is the one who typically survives a violent incident.

Issues of Concern: Crime; Personal Defense

Most Significant Issue-Responsive Programming
4th Quarter 2021
(October 1 through December 31)

ISSUE: DOMESTIC VIOLENCE

InfoTrak

December 26

6:15am / 15 Minutes

Guest(s): Katreena Scott, PhD, Associate Professor in the Department of Applied Psychology and Human Development, University of Toronto

Dr. Scott led a study that examined how the workplace is affected by an employee who is involved in domestic violence. She said not only does it result in lowered productivity, but a third of the men reported that they used workplace time and resources to continue to engage in emotionally abusive behavior. She explained how employers can offer assistance for employees with domestic violence issues.

4th Quarter 2021
(October 1 through December 31)

ISSUE: EDUCATION

InfoTrak
October 31
6:15am / 15 Minutes
Guest(s): Sarah Foster, Bankrate.com analyst

Higher education is one of the most important financial decisions most young people make, and Bankrate.com recently completed a study that ranked the most and least valuable college majors. Ms. Foster shared the rankings, as well as what crucial factors college students should consider when deciding on a major.

Issues of Concern: Education; Career

InfoTrak
November 28
6:00am / 15 Minutes
Guest(s): Suzanne Bouffard, PhD, expert in child development and education, author of "The Most Important Year: Pre-Kindergarten and the Future of Our Children"

Dr. Bouffard discussed the critical importance of pre-school programs. She noted that children who attend quality pre-K programs have a host of positive outcomes including better language, literacy, problem-solving and math skills later in school. She said also they have a leg up on the most essential skill: self-control. She offered advice for parents on how to choose a quality pre-school.

Issues of Concern: Education; Parenting

Most Significant Issue-Responsive Programming
4th Quarter 2021
(October 1 through December 31)

ISSUE: EDUCATION (continued)

Spotlight on Maryland

December 5

6:30am / 30 Minutes

Guest(s): Tracy Broccolino, Director of Early Childhood Education at the Community Action Council of Howard County, (CAC)

Tracy talked about their newest early education program, The Bauder Education Center at Long Reach Village Center in Columbia, Maryland. The new location has approximately 5,332 square feet, allowing Head Start to increase its capacity from 38 to 79 children. CAC serves low-income Howard County residents through four core program areas: food assistance, energy and weatherization assistance, housing assistance and early childhood education. CAC also operates the Howard County Food Bank.

Issues of Concern: Education; Poverty; Community

Most Significant Issue-Responsive Programming
4th Quarter 2021
(October 1 through December 31)

ISSUE: EMERGENCY PREPAREDNESS

InfoTrak

October 24

6:00am / 15 Minutes

Guest(s): Manny Centeno, Program Manager of the Integrated Public Alert and Warning System, part of the Federal Emergency Management Agency

Mr. Centeno outlined what the public needs to know about the Emergency Alert System, and provided real-life examples to illustrate why EAS is so important to public safety. He also discussed the purpose of "Primary Entry Point" radio stations and details of the all-hazards upgrades at those 77 stations, to add special air scrubbing for chemical, biological and radiological protection, EMP resistance and emergency power generation. He also mentioned the role played by satellite, cable systems and the internet via desktop and mobile phone alerts.

Issues of Concern: Emergency Preparedness; Public Safety; Government

InfoTrak

December 5

6:00am / 15 Minutes

Guest(s): Elliott Haut, MD, FACS, Associate Professor of Surgery and Anesthesiology & Critical Care Medicine, Johns Hopkins University School of Medicine

Dr. Haut led a study that found that victims of gunshots or stabbings taken to a trauma center by private vehicle were 62% less likely to die compared to victims transported by an ambulance or EMS vehicle. He talked about the possible reasons behind this finding. He also explained why it is so important for the average person to be taught how to use direct pressure to stop bleeding.

Issues of Concern: Emergency Preparedness; First Aid; Personal Health

Most Significant Issue-Responsive Programming
4th Quarter 2021
(October 1 through December 31)

ISSUE: MENTAL HEALTH

InfoTrak

November 7

6:00am / 15 Minutes

Guest(s): Jen Fisher, US Chief Well-being Officer at Deloitte, a multinational professional services network, author of "Work Better Together: How to Cultivate Strong Relationships to Maximize Well-Being and Boost Bottom Lines"

One in four adults struggle with mental health challenges, and those suffering often hide it at work for fear of discrimination from peers or bosses. Ms. Fisher explained how companies can encourage open and honest conversations to remove the stigma surrounding mental health. She also said companies need to redefine the concept of sick days, to improve mental as well as physical health.

Issues of Concern: Mental Health; Workplace Matters

InfoTrak

November 14

6:15am / 15 Minutes

Guest(s): Carl Hanson, PhD, Professor of Public Health, Brigham Young University

Researchers from Brigham Young University, Johns Hopkins and Harvard have created an algorithm that can predict suicidal thoughts and behavior among adolescents with 91% accuracy. Prof. Hanson was one of the co-authors of the study, and he said the two primary risk factors related to personal connections: family relationships, and friendships with peers.

ISSUE: PERSONAL FINANCE

InfoTrak

November 14

6:00am / 15 Minutes

Guest(s): Gary Zimmerman, founder and CEO of the web site

MaxMyInterest.com

Today, the average US savings account pays 0.06 percent interest annually, an annual return of just \$6 in interest on a \$10,000 nest egg. Mr. Zimmerman's company aims to help consumers holding high amounts of cash automatically find the best available interest rate. He talked about reasons behind rising inflation and the current economic conditions. He explained why banks are paying such low rates, and when the trend may change.

InfoTrak

October 3

6:15am / 15 Minutes

Guest(s): Dale Bredesen, MD, NIH Postdoctoral Fellow at the University of California, San Francisco, author of "The End of Alzheimer's: The First Program to Prevent and Reverse Cognitive Decline"

Dr. Bredesen said his research has determined that Alzheimer's disease is not a single condition, but three similar ones--each with a different cause. He said new research is giving hope that the disease can be prevented and, under certain circumstances, even reversed. He said every American should get a cognitive and genetic test at age 45, to determine their likelihood of developing Alzheimer's.

Issues of Concern: Personal Health; Alzheimer's Disease; Aging

Spotlight on Maryland

October 3

6:30am / 30 Minutes

Guest(s): Jan Martin, Executive Director, Red Devils

The Baltimore-based Red Devils' mission is to fund services that improve the quality of life for breast cancer patients and their families through 3 key program services: transportation, family support needs, and medical costs and treatment related expenses. Liz Spoke with the Red Devils' Executive Director Jan Martin during Breast Cancer Awareness Month about their new signature event "The Good Life," October 8-10, 2021, designed to enlighten, entertain, engage and empower featuring 50 curated content presentations of virtual and in-person experiences from experts in the culinary arts, performing arts, health and beauty, home and hearth and relaxation and recreation.

ISSUE: PERSONAL HEALTH (continued)

InfoTrak

October 10

6:00am / 15 Minutes

Guest(s): Roby Greenwald, PhD, Assistant Professor from the School of Public Health, Georgia State University

Traffic pollution research has traditionally been conducted with outdoor roadside sensors. Dr. Greenwald led a study with sensors mounted inside the passenger compartments of cars, and found that interior pollution levels were twice as high as previously thought. He talked about the various forms of pollution he found and their potential health effects.

Issues of Concern: Personal Health; Pollution

InfoTrak

October 10

6:15am / 15 Minutes

Guest(s): Rebekah H. Nagler, PhD, Assistant Professor in the Hubbard School of Journalism & Mass Communication, University of Minnesota

Dr. Nagler led a study that found that most American women aren't aware of the risks of over-diagnosis and overtreatment in regards to breast cancer screening. She discussed the challenges of educating women about these risks so they can make informed decisions about mammograms and breast cancer screening.

October 17

6:30am / 30 Minutes

Guest(s): Attia Taylor, Founder of Womanly Magazine

Womanly Magazine was founded in 2017 and is a 501 (c) (3) fiscally sponsored by the Brooklyn Arts Council. Womanly Magazine provides accessible health information to black and brown communities and women and non-binary people through visual and literary art. The publication is available in clinics, health centers and community centers and online at womanlymag.com. Attia talked about their latest special issue that focuses on high blood pressure in the City of Baltimore. According to the Baltimore City Health Department, heart disease is the number one cause of death and stroke is the third, both of which can be consequences of high blood pressure. Womanly Magazine also partnered with the Maryland Institute College of Art, (MICA), to create art and visual aids for the issue..

Issues of Concern: Personal Health; Minority Concerns; Art

InfoTrak

October 24

6:15am / 15 Minutes

Guest(s): Amanda Paluch, PhD, Physical Activity Epidemiologist at the University of Massachusetts, Amherst

Prof. Paluch led a study that found that walking at least 7,000 steps a day--about 3-4 miles-- reduced middle-aged people's risk of premature death from all causes by 50% to 70%, compared to those who took fewer daily steps. She found that 7000-10,000 steps range was the "sweet spot," because walking more than 10,000 steps per day, or walking faster, did not further reduce the risk.

Spotlight on Maryland

November 14

6:30am / 30 Minutes

Guest(s): Suzanne Green, Executive Director of Community Development for the Y in Central Maryland

Suzanne talked about their upcoming Y Turkey Trot Charity 5K, a Maryland Thanksgiving family tradition for 27 years in Towson, 26 in Bel Air, 11 in Westminster, 9 in Ellicott City and Baltimore City, and 8 in Arnold! This year the Y Turkey Trot will take place in person at 6 locations across Central Maryland, (Arnold, Baltimore City, Bel Air, Ellicott City, Towson and Westminster) on Thanksgiving morning. There's also a virtual option available. Proceeds help send children to camp, give seniors the chance to connect and provide meaningful mentoring opportunities to young people. Participants are also encouraged to help stock the Y community food pantries by donating non-perishable and canned food to families and individuals who are food insecure. Goods can be donated at Y Family Centers from November 19-25, 2021.

Issues of Concern: Poverty; Community; Youth Concerns

Spotlight on Maryland

December 26

6:30am / 30 Minutes

Guest(s): Bill McCarthy, Executive Director, Catholic Charities of Baltimore

Every day, Catholic Charities of Baltimore provides care and services to improve the lives of Marylanders in need with over 80 programs in 200+ locations throughout Maryland including Head Start and Safe Street programs, food pantries, employment programs, Senior Care and community housing, training and behavioral health. Catholic Charities serves children and families, individuals with intellectual disabilities, people living in poverty and seniors. Bill talked about Comfort and Joy 2021, a free, 31-day virtual series, now in its 2nd year, designed to gift neighbors with a little holiday cheer every day. Hosted at comfortandjoy2021.org, it provides a variety of glad tidings for the whole family.

(October 1 through December 31)

ISSUE: YOUTH CONCERNS (continued)

Spotlight on Maryland

October 31

6:30am / 30 Minutes

Guest(s): Rob Scheer, Founder, Comfort Cases

In 2013, Rob's family and their community founded Comfort Cases and set out on a mission to eliminate trash bags from the foster care system. For 10 years now, the Rockville, Maryland-based non-profit has been inspiring communities to bring dignity and hope to youth in foster care. November is National Adoption Awareness Month and Rob talked about how during the month of November people can go to [Briggs & Riley](#) to donate \$10 that provides a child entering foster care with a Comfort XL, a large duffel bag where they can store their belongings and not experience the indignity of living out of a trash bag.

Issues of Concern: Youth Concerns; Foster Care
