(b)(iv) As required by section 73.2080(c)(5)(v), the total number of interviewees for each vacancy and the referral source for each interviewee for all the Unit's full-time vacancies filled during the period covered by the above-noted EEO Public File Reports.

See the EEO Public File Reports Attached at (b)(i) above.

(b)(v) Dated documentation demonstrating performance of the Unit's recruitment initiatives described in section 73.2080(c)(2) during the period covered by the above-noted EEO Public File Reports, such as participation in job fairs, events with educational institutions, and mentoring or training programs for staff. Specify the Unit personnel involved in each recruitment initiative. In addition, provide the Unit's total number of full-time employees and state whether the population of the market in which any of the Unit's stations operates is 250,000 or more. Based upon these two factors and as required by sections 73.2080(c)(2) and (e)(3) of the Commission's rules, state whether the Unit is required to perform two or four points worth of initiative activities within a two-year period (measured from the date the stations in the Unit file their renewal applications and the second, fourth, sixth and eighth anniversaries of that date). If the Unit performed more than the required number of initiative activities, it may provide documentation for only the required amount in its response, i.e., two or four points worth. If any documentation provided appears inadequate, e.g., it is not dated or does not clearly prove the Unit's participation, the Commission may ask for additional verification.

See attached.

The Unit currently has 148 full-time employees and operates in a market with a population size of more than 250,000. Accordingly, the Unit is required to perform four points worth of initiative activities within a two-year period.

CMG EDGEucate is an online learning resource available to all employees which provides opportunities for skills improvement, professional development and performance support. This is an ongoing program.

The attached documentation summarizes the employment unit personnel that participated in available classes for both the 2021-2022 and 2022-2023 reporting periods, fulfilling one point of outreach for each reporting period.

The content of the workshop is on "content deals." This is about all the variables that play into securing deals. This is whether it is syndication, network deals or streaming platform deals. I see this as being interesting to those who want to understand the business of production and programming.

It would also be helpful to know the content of the workshop.

Hello Professor Caputo,

It is good to know that the workshop is already set up.

I have a couple of questions:

1. How many (and which) students are in your class?
2. What is the capacity of FA 329?

It would be helpful to avoid duplication.

Best,

2022 Veteran Jobs Mission Coalition Virtual Workshop

Subject: Veteran Jobs Mission Coalition Meeting Summary

Paul,

Thank you for the opportunity to virtually attend the 2022 Veteran Jobs Mission Coalition Meeting. The Veteran Jobs Mission Coalition is represented by over 300 companies with a mission to assist current and former servicemembers and their spouses with a path to fulfilling careers after military service. The coalition recognized many companies wanted to assist veterans and their families but did not know how to make the connection. It began in 2011 as the 100,000 Jobs Mission, with 11 leading companies committed to hiring 100,000 veterans by 2020. Since then, the coalition has guided companies in their veteran hiring initiatives in virtually every industry of the U.S. economy. The coalition was renamed the Veteran Jobs Mission and has collectively hired about 750,000 veterans. <https://veteranjobsmission.com/>

Please allow me to share some of my observations from the Veteran Jobs Mission Coalition Meeting:

- J.P. Morgan's support of the Veteran Jobs Mission Coalition is not a new initiative. His dedication to hire veterans goes back to veterans of the 1st World War.
- Unemployment among veterans was twice the national average ten years ago.
- Many military families are supported by spouses and family members of a serving or transitioning veteran. High likelihood your employees are connected to and are supporting a military service member, spouse or children.
- The increased focus on DE&I after the civil rights events of 2020 shifted some focus away from veteran hiring initiatives. The coalition contends that both efforts can thrive together as the military is one of the most diverse working environments in the United States and issues and interests related to diversity are shared in the military.
- Coalition partners are challenged to look for unintended bias in hiring practices. Example – some positions have traditionally required a college degree which eliminates a huge candidate pool which may have relevant life or military experience.
- No matter their service branch, military life offers a sense of common experience among veterans.

Notable Quotes & Notes:

- "When bad things happen, the people in the lowest income group gets hit the hardest."
- Military Presenter, "I wish I could have a 'bring a civilian to work day' to help explain what the military work experience is like."
- "Deloitte makes employees who are also reservists financially whole by making up the salary difference when deployed or called to service."
- The United States has over 795,955 reservists across all service branches.
- Military standards are "On Time - All the Time; with standards for dress, fitness and conditioning"
- J.P. Morgan Employee Service Standards: Employee, Product and Community

Action Steps for CMG to Develop Veteran Hiring Initiative:

1. Employer Readiness
2. Talent Acquisition
3. Hiring & Onboarding
4. Talent Development
5. Talent Mobility

More Details: <https://www.veteransatwork.org/>

Summary:

Based upon my observations of the Veteran Jobs Mission Coalition Meeting, the Cox Media Group should review and adopt the prepared program templates and do the following additional steps:

- Create CMG Veterans Hiring Domain/Web landing page to drive searches
- Determine and attend local military career events for transitioning service members in all CMG markets
- Determine which military jobs (MIS) provide the needed job skills inside CMG for veterans (Public Affairs, IT, Cyber Security)
- Determine existing CMG veterans would could serve as mentors to veteran candidates and on-boarding
- Create CMG Veteran hiring digital and printed posters and trifolds

Thank you again for the opportunity to attend virtually and participate. Please let me know if I can assist in any other manner in support of CMG's efforts to support veteran hiring initiatives

Subject: Weather Summit Follow-up - ACTION REQUIRED

Hello everyone and happy New Year!

We so enjoyed hosting you all in Atlanta just before the holidays at the CMG Weather Summit, and I trust you all had some special time with friends and family since.

I hope you recall our session on weather research, where Magid's Dick Haynes and I challenged you to take the information back to your teams and find ways to execute. We said we would get back together virtually in January to share examples and feedback. Well, that time is now!

[By the end of the day, next Friday, January 20th, please send us as many examples as you'd like to share. The more, the better! You can simply upload them here:](#)

[Weather Examples. Then, on January 25th, we will host you all again virtually to share these examples and discuss. All our CMG NDs and CSDs will be in Atlanta at that time for a Summit, and of course, will participate. Please keep an eye out for your Teams invite to this session. It will come from Alex Prestel.](#)

As a reminder, here are a few top takeaways of that research:

Unique Value of Local TV Weathercasts: Reliable, Hyper-local and Meteorologists

Unique Value during severe weather: Tracking, Accuracy, LIVE

We must DEMONSTRATE transparency, process, knowledge, urgency and LIVE

Every platform has unique value based on what user is looking for: OVERTLY explain and reinforce value of apps, web, TV, etc.

We must battle our perceived weaknesses: Repetition, confusing, too much chit-chat and boring

Viewers are asking for more weather news stories

How can we create differentiation? Meteorologists live covering stories, more current conditions (Right now, but not just maps), climate's impact on extreme events, impact of climate on local weather.

Climate change: Interest is high among all groups. They're looking for unbiased expertise.

Viewers are open to new approaches in the weathercasts.

If you have any questions, please feel free to reach out. Excited to see what you've all come up with!

Best,

Tina,

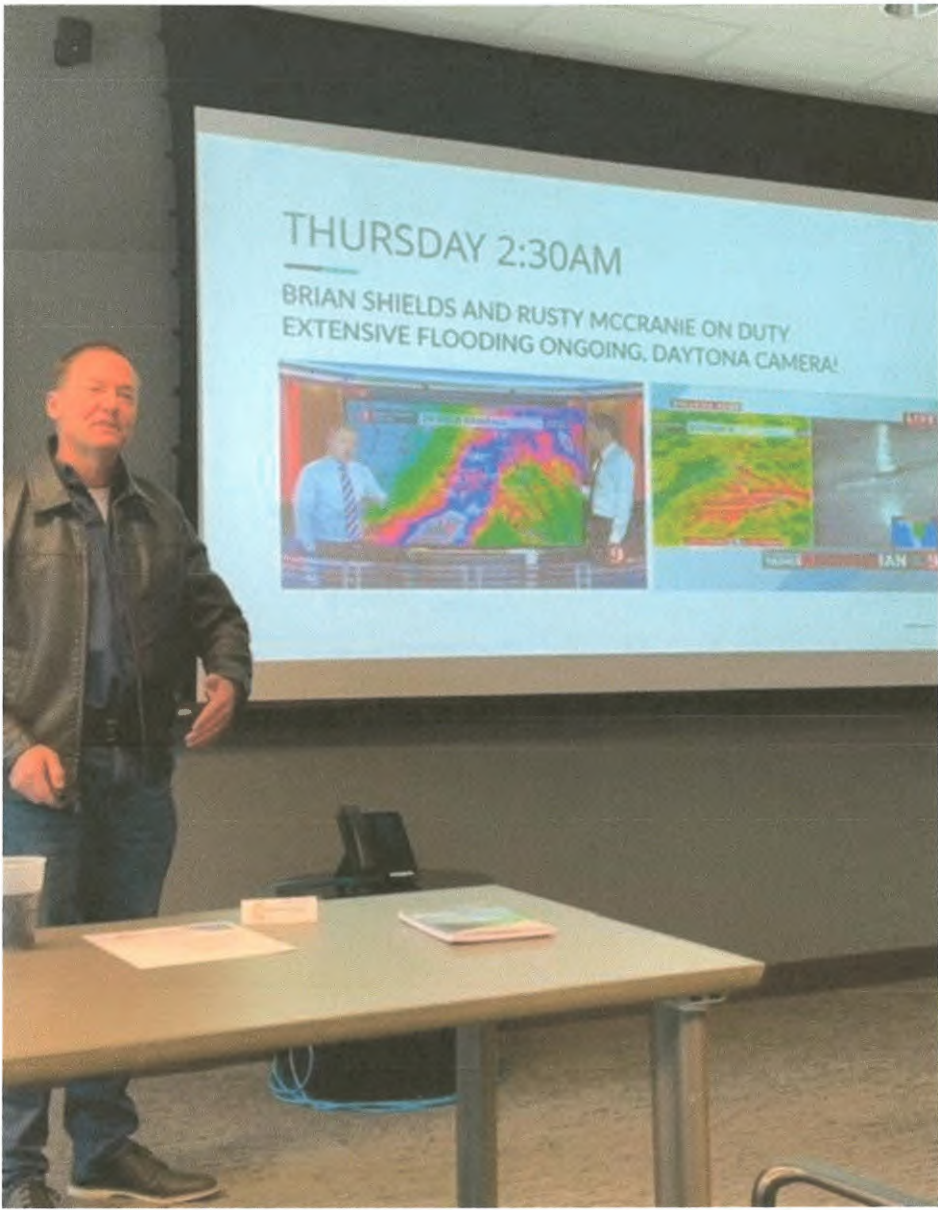

I just got the itinerary for our summit at WSB November 19-20th, and things get kicked off at 9am on that Saturday the 19th – which doesn't give me much time to get up there Saturday morning. If possible, I'd like to take Friday, November 18th off so I can get up to the ATL.

I'm also doing a presentation on our coverage of Hurricane Ian, and it's seemingly never-ending impacts. We'll have these disaster stories ongoing for a very long time!

I also need to book my flight and hotel, so I'm assuming I'll use that other link you gave me for expenses?

Happy Friday Tina,

Tammie Fields here from Central Florida Association of Black Journalists.

I would like to personally invite you to participate in our journalism boot camp set for Saturday, Feb. 18. It starts at 9 a.m.

During this event for Bethune-Cookman University students and University of Central Florida/NABJ student members we are asking news managers, news directors, and hiring managers to meet and greet students, tell them about what you do and talk about your news organization.

We would like you to talk about internship opportunities and any entry level jobs students might qualify for plus the the skills they need to have.

Though the boot camp is an all day event on the campus of Bethune-Cookman University in Daytona Beach this portion of the program kicks off the boot camp and will only take about an hour to an hour and a half commitment from you and we will serve breakfast too.

Thank you for your consideration Tina. I hope you can attend.

Hi Carolyn,

Attached is the flyer from my visit to Bethune on Friday. The date, time and title of the workshop are on the flyer. We went into a deep conversation on "numbers." We spoke on the elements of content that drive audience. Additionally, we spoke about the impact of audience on revenue, company valuations and we even spoke about company's market cap.

You can keep this email and flyer for your records [for our EEOC Report].

Thank you!

(b)(vi) Any pending or resolved complaints involving the Unit filed during the Unit's current license term(s) before any body having competent jurisdiction under federal, state, territorial or local law, alleging unlawful discrimination in the employment practices of the Unit on the basis of race, color, religion, national origin, or sex. For each such complaint, provide: (1) a brief description of the allegations and issues involved; (2) the names of the complainant and other persons involved; (3) the date the complaint was filed; (4) the court or agency before which it is pending or by which it was resolved; (5) the file or case number; and (6) the disposition and date thereof or current status.

None.

(b)(vii) In accordance with section 73.2080(b), during the Unit's current license term(s) (or since acquisition of the Unit (if during that period)), a description of the responsibilities of each level of Unit management responsible for implementing Unit EEO policies and how the Unit has informed employees and job applicants of its EEO policies and program.

CMG Orlando TV confirms that the FCC's EEO requirements are an important part of our hiring process. CMG Orlando's hiring managers are fully aware of the FCC's and of CMG's EEO policies. They are reminded of those policies throughout the year by CMG literature on the company intranet portal, during Human Resources Business virtual Microsoft Teams meetings, and via training guided by CMG's Legal department.

CMG Orlando TV VP/General Manager reinforces all policies by discussing them with our hiring managers in his department head meetings and enforcing our policies as needed with the support of our Human Resources Business Partner. CMG Orlando hiring managers are trained using a variety of programs that cover the proper way to recruit and hire candidates into our organization.

All candidates offered employment are provided with CMG's policies, including the EEO policy, at the time of employment acceptance via our onboarding systems. Our onboarding system is hosted by our CMG HR Operations team. All candidates who are onboarding must attest and acknowledge to these policies to include our Code of Ethics, which presents the way we operate our business. The direct manager then follows up with the newly onboarded hire within the first few days of starting employment to discuss the policies and allow opportunities for questions.

(b)(viii) In accordance with section 73.2080(c)(3), during the Unit's current license term(s)(or since acquisition of the Unit (if during that period)), a description of the Unit's efforts to analyze its EEO recruitment program to ensure that it is effective and to address any problems found as a result of such analysis.

CMG and CMG Orlando TV place a priority on fostering a diverse, equitable and inclusive environment when it comes to identifying and growing talent. Because of this belief, we regularly look for innovative ways to recruit and retain our employees. The following lists ways we actively recruit for top talent.

EEO Recruitment Outreach Notification

CMG has an HR team that partners with all CMG stations on FCC EEO compliance. CMG Orlando TV partners with the CMG HR Ops team and our recruiters to ensure that all our positions are posted on CMG's career site and shared with additional EEO recruitment sources. The HR Ops team partners with Circa, a diversity recruiting site, which shares our job postings to various community organizations and institutions.

Job/Career Fairs

CMG Orlando TV always looks to partner with local college and community organizations to participate in recruiting events, job, and career fairs. At these events, we personally recruit for current local open positions, as well as look for potential candidates for possible future vacancies.

Internal Postings

Recruitment from within by promoting or allowing existing employees to further advance their careers is highly encouraged. Our employees know to visit our "CMG Hub" Careers link or visit careers.cmg.com. We also send emails to staff alerting them of specific job openings. Employee development conversations and career planning takes place during regular on-going performance management meetings with managers throughout the year.

(b)(ix) As required by section 73.2080(c)(4), during the Unit's current license term(s) (or since the acquisition of the Unit (if during that period)), a description of the Unit's efforts to analyze periodically its measures taken to examine pay, benefits, seniority practices, promotions, and selection techniques and tests to ensure that they provide equal opportunity and do not have a discriminatory effect. If the Unit has one or more union agreements, describe how the Unit cooperates with each union to ensure EEO policies are followed for the Unit's union-member employees and job applicants.

The CMG Corporate Human Resources team has a compensation department designed to examine and review compensation across all divisions in and outside the markets. This department determines an appropriate salary range for each position. Our market then takes the determined guidance and reviews internally for equitable treatment. Our market participates in an annual performance management process and proposed merit increase that is submitted by the direct manager according to the performance progress of each employee. The VP/General Manager, Director of Finance and HR Business Partner all review the submitted proposed performance merit increase to ensure equitable and fair treatment.

Internal existing employees (candidates) seeking advancement or promotion to a new job submit their interest through our "CMG Hub" careers link. Internal applicants are reviewed and interviewed. The strongest candidate with the best skill sets for the job opening is promoted.

Internal existing candidates that do not receive the promotion are then met with individually for the hiring manager to discuss why they did not receive the promotion. A development plan is then created to help the employee work towards filling the gap to achieve the skill sets needed for future advancement of their career interest.

We do not have any union agreements.
