House Denver/AD COUNCIL-HUNGER PREVENT	PSA	July/Aug	84	:30	The new Child Hunger PSAs highlight how food banks work collaboratively with their communities to bring surplus food to children and families in need, including working with farmers, grocery workers, food bank employees and volunteers. The new campaign, which includes television, radio, print, outdoor and digital PSAs, is an extension of the Hunger Prevention campaign, first launched in 2008. Additionally, a supportive PSA effort promotes the Summer Food Service Program, a service administered by many Feeding America food banks across the country, which provides children who rely on subsidized meals during the school year with free and nutritious meals over the summer. The campaign draws attention to the fact that, "summer isn't fun when you're hungry" and encourages parents to visit feedingamerica.org/summer meals to find free meals for their children through their local Feeding America food bank.
Colorado Broadcasters Assoc/Colorado Broadcasters Assoc	PSA	July	10	:30	This year's "Hire for Colorado" campaign sends a powerful message about Colorado's workforce. Workforce Centers provide a variety of free services to assist employers and job seekers alike. Services include job listings, career counseling & training, recruitment of workers, pre-screening and referral services and tax credits and training reimbursement for employers to name a few.
House Denver/AD COUNCIL-NATURE	PSA	July/Aug/Sept	17	:30	While more than 245 million Americans live within 100 miles of a national forest or grassland, research shows there is a lack of connection between people and nature, particularly with children. This decline is especially prevalent among Hispanics, given that only 50% of Hispanic youth participate in outdoor recreation, compared to 62% of youth overall. The Discovering Nature campaign's Spanish language segment features real Hispanic families as they escape from the stress of their daily lives in a journey to the forest. The call-to-action directs audiences to visit DescubreElBosque.org where they can find a nearby forest, and activities to do once they get there.

In fact, only 34.5 percent of the 251 million tons of trash Americans generated that year was recycled or composted. In an Ad Council survey, 62 percent of Americans admitted they were not avid recyclers. To improve these rates, the Ad Council teamed up with Keep America Beautiful and San Francisco-based ad agency Pereira & O'Dell to launch the I Want To Be Recycled campaign. This playful and powerful campaign personifies everyday recyclable objects, allowing plastic bottles, steel cans and more to share their dreams of a different life.
