Martha's Vineyard, with its beautiful shoreline and farm land, has long been a summer destination, but most visitors know little about the history of the Wampanoag people. A group on the island is reviving that history by educating children and adults about the Native culture and traditions while also aiming to protect our increasingly challenged planet. Charlayne Hunter-Gault reports.

Segment Length: 00:00:00

In August 1955, a 14-year-old black boy from Chicago whistled at a white woman in a grocery store in Money, Mississippi. Emmett Till didn't understand that he had broken the unwritten laws of the Jim Crow South. Three days later, two white men dragged him from his bed in the dead of night, beat him brutally and shot him. Although his killers were arrested and charged with murder, they were both quickly acquitted by an all-white, all-male jury. Soon after, the defendants sold their story, including a detailed account of how they murdered Till, to a journalist. The murder and the trial horrified the nation and the world. Till's death was a spark that helped mobilize the civil rights movement. Three months after his body was pulled from the Tallahatchie River, the Montgomery Bus Boycott began.
