## **ISSUE: The Bay Area's Newest Nobel Laureate Unpacks the Science of Touch**

### **KCBS In Depth**

October 10, 2021

6:30am

30 Minutes

On this edition of KCBS In Depth we speak with David Julius, a professor of physiology at UC San Francisco, who got the news earlier this week that his work, examining the molecular basis of heat and touch, has earned this year's Nobel Prize in Physiology or Medicine. The key discoveries he helped uncover more than two decades ago set off a flurry of further research, aiming to find better treatments for pain. But it turns out the story of touch has more than its share of twists and turns. Hosted by KCBS' Keith Menconi.

## **ISSUE: Learning to Live with Medical Uncertainty**

### **KCBS In Depth**

October 17, 2021

6:30am

30 Minutes

We're living through an age of dramatic advancements in medical technology, but as prominent vaccine expert Paul Offit points out, the history of medical innovation is often marked by tragic missteps, the costs of which are measured out in human lives. He joins this edition of KCBS In Depth to discuss his new book unpacking that history, "You Bet Your Life: From Blood Transfusions to Mass Vaccination, the Long and Risky History of Medical Innovation." We discuss the many risks of new medical technology, and why he believes such innovations are still bets worth taking. Guest: Paul Offit, professor of vaccinology and pediatrics at the University of Pennsylvania School of Medicine | member, FDA Covid Vaccine Advisory Panel Hosted by KCBS' Keith

Mencon

## **ISSUE: The Covid Vaccine and Younger Children**

### **KCBS In Depth**

October 24, 2021

6:30am

30 Minutes

It's a whole new phase in the vaccine rollout with the federal government now poised to approve Covid-19 shots for younger children aged between five and 11 in the coming weeks. But even as the White House prepares to get those shots distributed, vaccine skepticism and resistance to vaccine mandates remains fierce. On this edition of KCBS In Depth we hear a response to the opposition, and also dig into what the science has to say about the Pfizer vaccine's safety and efficacy when it comes to younger children. Guest: Dr. Jenna Holmen, pediatric infectious disease specialist, UCSF Benioff Children's Hospital Richard Pan, state senator representing Sacramento Hosted by KCBS' Keith Menconi.

## **ISSUE: Judge LaDoris Cordell discusses what's broken in the criminal justice system**

### **KCBS In Depth**

October 31, 2021

6:30am

30 Minutes

LaDoris Cordell has racked up quite a few firsts in her decades-spanning legal career: In 1982 she became the first black woman judge to serve on any court in Northern California. Then six years later after a successful election bid she became the first black superior court judge in Santa Clara County's history. But these firsts are more than mere historical footnotes: As Cordell recounts in her newly released memoir, the background and life experience that she brought to the bench equipped her to spot failings in the criminal justice system that many others had left unaddressed. On this edition of KCBS In Depth, we discuss that memoir -- "Her Honor: My Life on the Bench...What Works, What's Broken, and How to Change It" -- and we also consider what reform work is still left to be done. Hosted by KCBS' Keith Menconi.

## **ISSUE: What California brought to the Climate Summit**

### **KCBS In Depth**

November 7, 2021

6:30am

30 Minutes

The whole world is watching as leaders from all over the globe meet in Glasgow for a two-week global summit on climate change. Of course though it just wouldn't be a climate summit without a sizable delegation from California, and sure enough, the Golden State is indeed well represented this go round. So on this edition of KCBS In Depth, we discuss what California is bringing to the international climate table and what new inspiration it might take back home once the summit wraps up.

Guests: Ken Alex, director, Project Climate at UC Berkeley | advisor on climate and environment under former Gov. Jerry Brown Daniel Kammen, professor of Energy, UC Berkeley | advisor, US Agency for International Development Ellie Cohen, CEO, The Climate Center. Hosted by KCBS' Keith Menconi.

**ISSUE: What would it take to end the Bay Area's homelessness crisis?**

**KCBS In Depth**

November 14, 2021

6:30am

30 Minutes

Since the pandemic began California has been ramping up its efforts to address its homelessness crisis, and there's been no shortage of new programs and grand pronouncements. But while a lot is changing -- and a lot more people are getting help -- thousands upon thousands remain on the street desperate for a home. On this edition of KCBS In Depth, we check in on one place where the pace of change on the homelessness front has been particularly fast recently: Santa Clara County. Guests: Consuelo Hernandez, director, Santa Clara County's Office of Supportive Housing Jennifer Loving, CEO, Destination: Home Richard Scott, homeless advocate | board member, Grace Solutions. Hosted by KCBS' Keith Menconi.

**ISSUE: Updating Covid safety best practices as the holiday season begins**

**KCBS In Depth**

November 21, 2021

6:30am

30 Minutes

We're now entering our second holiday season amid a global pandemic, but while Covid-19 is still very much with us, an awful lot has changed over the past twelve months. So on this edition of KCBS In Depth we discuss what we all need to know this year to keep our holiday tables Covid safe. Then later on in the program we also consider another important Covid safety measure that health officials are urging just about everybody to take now: getting the booster shot. Guest: Dr. Robert Wachter, chair, Department of Medicine at UC San Francisco Dr. Marm Kilpatrick, infectious diseases researcher, UC Santa Cruz's Department of Ecology and Evolutionary Biology. Hosted by KCBS' Keith Menconi.

**ISSUE: Dr. Anna Lembke on why this age of abundance is wracked with addiction**

**KCBS In Depth**

November 28, 2021

6:30am

30 Minutes

We live in a world of constant convenience, where just about any material need can be met with a simple click of a button or a swipe on a phone screen. But what if this relentless pursuit of momentary pleasures is actually becoming the source of some of our greatest pains? On this edition of KCBS In Depth, we speak with Dr. Anna Lembke, the medical director of Stanford Addiction Medicine. Her new book is "Dopamine Nation: Finding Balance in the Age of Indulgence," in which she turns to brain science and the science of addiction to explore the root cause of both pleasure and pain and why it is that this time of instant gratification seems to have thrown our dopamine systems so out of whack. Hosted by KCBS' Keith Menconi.

**ISSUE: What happens if California's snow just stops falling?**

**KCBS In Depth**

December 12, 2021

6:30 a.m.

30Minutes

With climate change gathering force the Sierra Nevada and other California mountain ranges could be facing a nearly snowless future in only a few decades. That's the jarring prediction laid out in a recent study led by researchers at the Lawrence Berkeley National Laboratory. On this edition of KCBS In Depth, we check in with the authors to hear how they reached this unnerving conclusion and what could be done to prepare. Hosted by KCBS Keith Menconi.

## **ISSUE: Bay Area rethinking criminal justice reform?**

### **KCBS In Depth**

December 19, 2021

6:30am

30 Minutes

Last May the murder of George Floyd tipped off a wave of national protests that reenergized the criminal justice reform movement and launched the “defund the police” slogan right to the center of the national conversation. But now a year-and-a-half later amid a wave of worsening violent crime Bay Area leaders are beginning to strike a different tone as they signal support for stepped up law enforcement resources. On this edition of KCBS In Depth, we dig into the Bay Area’s crime trends to try to find out what’s driving them and what this could all mean for the future of reform. Hosted by KCBS’ Keith Menconi.
