Caving is an extreme sport that's both physically and mentally challenging. It requires a keen grasp of survivor skills and a willingness to accept strengths and weaknesses. Caving involves a lot of walking, climbing, squeezing and crawling. Met Grotto is the NYC chapter of the National Speleological Society, an organization dedicated to the exploration, study and conservation of caves. Peter Wells, an expert caver, explains tips for staying safe. Andrew Ford, the organization's chairman, leads a meetup once a month for cavers.

### **START YOUR DRONE**

It's a sport of the future, but could it be over in the United States before it even takes off? Participants describe drone racing like NASCAR but with flying robots equipped with cameras. Pilots fly the drones around a course using a remote control. Typically, racers wear large goggles, broadcasting live standard definition video from a camera mounted on the drone. Races take place in large open fields. However, experts say that could soon change as the sport grows in popularity. Race organizers are already considering conducting races in abandoned buildings and forests. Meanwhile, the airline industry fears the safety implications of the sport. That's why the Federal Aviation Administration has created a drone task force. New rules require drone users to register their device with the FAA, similar to the way it's done in Canada. But, could that impact drone racing? According to experts, the sport isn't going anywhere.

### **KIRBY'S IS CLOSING**

Chuck Kirby let the pigeon feed supply run out, but there wasn't much point in restocking anymore. On Thursday, 140 years after the Kirby Brothers of Medford went into business with a feed mill, they shut them for good. Chuck Kirby said he feels like he let his great-grandfather down. A number of factors led up to Kirby Brothers' demise, according to Chuck,

including competition from big-box stores and fewer farms with less livestock. Chuck renovated the place 15 years ago, to adapt to a changing customer base with fewer farmers and more pet owners. But it was a tough row to hoe, and the cold weather Kirby's counts on to sell more feed didn't come this year. That was the last straw.

#### **WHERE IS JOHN?**

Kelly Fernandez of Middletown, New Jersey describes the last three weeks for her family as her 19-year old brother, John, left the house the morning of Dec. 13. He hasn't been heard from since. Kelly said John, a Seton Hall University student, had been a bit depressed about money and his future prospects. The family's been searching high and low, and found John's phone near Natco Lake in Hazlet. The Fernandez's have set up a command post of sorts in their laundry room with a map on the wall. It runs down the places they've searched all across the north end of Monmouth County as well as the dates. And Kelly says Middletown Police have been very helpful, searching the lake with scuba teams and the trails with police dogs, ATVs and a helicopter. Even strangers are pitching in.

#### **OPEN YOUR MAIL**

Shuffling through a large pile of mail mistakenly sent to him at his mother's address, Newark Mayor Ras Baraka made a chilling discovery New Year's weekend: threats allegedly directed at him and city facilities. The Mayor spoke about finding the two letters, which he said were hand-delivered to his mother's Newark home where he used to live during a City Hall news conference called to address separate public safety issues. Baraka said he was not concerned about threats against himself but the fact they were sent to his family.

Newark police are investigating the potential source of the threats, but Baraka said police had told him not to give up details. During the news conference, Baraka named the next police chief, who will take over when current Chief Anthony Campos retires sometime this spring or summer. Baraka also announced he would make the head of the police department's Internal Affairs bureau a civilian who has experience as a lawyer.

### **SHOREHENGE MUST DIE**

No good deed goes unpunished, especially when Garden State bureaucracy is involved. A massive concrete Hurricane Sandy monument in Highlands Borough, known as Shorehenge must come down according to Borough attorney Bruce

Padula. Padula's letter to Tilt-Up Concrete Association said the monument was erected without proper permitting. Tilt-Up managing director Mitch Bloomquist calls it a shame. Padula's letter states that the monument was put up without a Coastal Area Facilities Review Act permit, under state DEP mandate. Highlands Borough Administrator Tim Hill said the permit had to do with a gazebo that had been in the space before the monument was built. The monument was dedicated in October and designed by world-renowned architects Tod Williams and Billy Tsien. Bloomquist says he can't understand why it's doomed, since he says all guidelines were followed and the town was coordinated with every step of the way.

### **TRACKING THE EASTBOUND KILLER**

In December 2015, Chasing News and retired Trenton homicide detective Gary Britton went on the trail of the Eastbound Strangler: a serial killer who murdered four prostitutes in Atlantic City in 2006 and left their bodies in a shallow ditch behind a motel. Britton had questions about a suspect he had encountered during an illegal gun investigation in the area he conducted as part of a federal task force: Dennis Gaskill. Gaskill killed himself in a Kokomo, Indiana jail in 2010, just before he was set to be extradited to New Jersey. It's still an open question whether Gaskill could be the Eastbound Strangler: much more investigation is required. Kelly's company STALK, Inc. - System to Apprehend Lethal Killers - is offering a \$25,000 reward for information leading to the arrest and conviction of a person in any one of the killings. With an order of removal from their Barrington apartment officially delivered, Kristi Tustin, her mother Donna Mahan and their dogs have just days before their eviction becomes final and they are out on the street. Tustin's finances spun out of control at the end of the summer when major spinal surgery and ongoing pain meant she could not immediately return to work as a limo dispatcher in Atlantic City. So she went on New Jersey's temporary disability program, which is available to all wage earners facing a long, unpaid absence from work. But the payments did not all come on time, Tustin fell behind on her rent, and the eviction procedure was started. Their last-ditch chance to get some time to go somewhere else meant Tustin had to go into Camden County court, and by herself file a notice asking for hearing in front of a judge. Chasing News came with her to get a firsthand look at the mechanics of eviction and how it affects people.

Lose something at Newark Liberty International Airport during your holiday travels? You might want to head to Union NJ. It's home to the lost and found operated by Newark Airport's TSA. Just a 15-minute drive from the airport, the office holds every item left in a TSA bin over the past 30 days. TSA delivers items daily to this office, amounting to more than 3,000 lost possessions since November, including nearly 300 laptops. TSA spokeswoman Lisa Farbstein suggested putting a business card on your laptop to make it easier to find. If the items are unclaimed after 30 days, they're sent to Pennsylvania, where the state operates a sort of thrift shop out of Harrisburg. TSA says it doesn't make a profit from those sales, but the department does make a pretty penny from uncollected loose change: more than \$600,000 in 2011.

**WHERE IS THE LOVE IN LOVE PARK?**

A formerly homeless couple had both of their young children taken away and placed in foster care after police found one of the children wandering in Love Park in Philadelphia in the middle of the night. A faith-based organization called Chosen 300 raised money to give the family a home for a year and hopefully get their children back. According to the family, stipulations followed the organization's once-philanthropic gesture. Now they are being threatened to be evicted meaning they won't have a stable home for their kids to live and may not get them back at all.

**DOLPHIN COVER-UP?**

What killed Old Bridge's South River dolphin? That's what reporter Carly Sitrin wanted to find out after the dolphin died in August. Sitrin filed an open public records request with the state Department of Agriculture for the animal's necropsy results. Shockingly, DOA denied her request six months later out of respect to "the individual privacy of the dolphin." What kind of legal privacy does a dolphin deserve? Sitrin was especially baffled, as the state has released other necropsy reports. J. Patrick Brown of MuckRock.com, an online public records resource and investigative journalism site, said New Jersey has a growing record of problematic OPRA denials in the last year. But according to Bob Schoelkopf of the Marine Mammal Stranding Center in Brigantine, the organization that rescued the dolphin, this is a big misunderstanding. He says the MMSC commissioned the state to conduct the necropsy, so the test results belong to him, not the state. Schoelkopf said the Department of Agriculture should simply have redirected Sitrin to his organization instead of denying her request outright.

Seidle's attorney, Edward Bertucio, entered not guilty pleas on all charges. Last time we saw Seidle was June. He was melting down on an Asbury Park street. The sergeant was in a standoff with cops, his gun to his head and his ex-wife, Tamara, dead from gunshot wounds in a nearby car. Tamara Seidle's shooting is said by authorities to have been

witnessed by a number of law enforcement officials, the first of which came from an unconnected nearby traffic stop. The Seidles' divorce proceedings detailed an unhappy marriage that lasted two decades and bore nine children.

It's not every day that a cow goes bolting down NYC streets. It's also not every day that a cow gets saved from its fate at a slaughterhouse. Yet, somehow, Freddie Mercury the cow has done the unthinkable. Freddie Mercury became a viral sensation in mid-January when a video captured his great escape from a Queens slaughterhouse. Onlookers were shocked when they saw the nearly 600-pound cow running down a NYC street. Workers from the halal slaughterhouse captured him quickly, but not before the incident caught the attention of one very dedicated animal activist. Freddie Mercury is now adjusting well to his new home, where he shares space with a number of other animals rescued from similar situations.

Dry salt therapy, or halotherapy, is said to help with symptoms of asthma, allergies, skin issues and more. To learn more about this, Chaser Allison headed to Breathe Salt Room in New York City. On the salt room's floor is 6 inches of pink Himalayan salt imported from Pakistan. It has a similar feeling to walking on sand. After he or she is seated, a machine is turned on and micro particles of medical grade salt are dispersed in the air. As a result those affected by asthma, allergies and skin issues, like eczema, can benefit. The inhaled salt is said to reduce respiratory inflammation, dry out mucus and eliminate allergens.

Justice for George and Lola prevailed in Howell NJ. The woman charged after rescuing two baby squirrels that were abandoned by their mother in the summer had charges dismissed Wednesday. Maria Vaccarella took off from her home with Chaser Ashley Johnson around 9 a.m. On the car ride Vaccarella said she was a little nervous but she knew in her heart she did the right thing. That was confirmed by supporters who joined Vaccarella with signs saying "you did the right thing" and "saving a life." A little after 10 a.m., Vaccarella appeared before a judge, joined by her attorney Doris Lin who is also an animal rights activist. After a short period of a lot of legal jargon and the NJ Division of Fish & Wildlife putting up a bit of an argument, the judge dismissed the charge of unauthorized possession of wildlife.

### **WHAT THE HECK IS THAT ON THE CEILING?**

Rutgers senior Sara Rosen was just coming back from the gym in January when she noticed a swastika sign over her door made out of duct tape at the Livingston Apartments on Rutgers campus in Piscataway. She's no longer living where it happened. Sara is Jewish and says it was a flat out attack and the culprits are her former roommates, who we tried to track down. She was so upset she called campus police. She said there were a few things that led up to this ordeal: a dispute over dirty dishes and one roommate posted on Facebook a picture of Hitler's book. Sara shared the police report in which the roommates told police it was a Buddhist peace symbol. Buddhists reached out to Sara on Facebook saying the symbol was misused and not used in context to their religion. Sara is even more furious with how Rutgers has handled this situation.

### **THE MARINE WHO MEANT WELL**

With Governor Christie back from his failed presidential campaign, there's new hope for a pardon for Cody Donovan, an honorably discharged marine police officer who rushed to Garden State Plaza mall in 2013 when he heard that there was an active shooter. Fear and panic overtook shoppers during the busy holiday shopping season when a man walked around the mall with a gun, randomly firing shots. Shoppers were running for their lives, others hiding inside. Cody, 22 at the time rushed to the scene and that decision ruined his life. He was simply directing traffic but was carrying a loaded gun without a license to carry and he was dressed like the shooter. He was charged with a second degree felony and pled guilty. He now hopes to get a pardon from the Governor.

What happened to Shannan Gilbert the night of May 1, 2010? A driver Shannan was using dropped her off at the Long Island home of a man who hired her for a night of sex off Craigslist. Around 3 a.m., something went wrong. Shannan went flying down the stairs, phone to her ear dialing 911 for help out of the place, and onto the winding streets of the neighborhood. Eighteen months ago, her body was discovered on the other side of the marsh near Ocean Parkway. Lawyer John Ray thinks Shannan did not go into the marsh willingly, or alive. He's filed a wrongful death suit against the man he believes is Shannan's killer. Reporter Alex Zdan and retired homicide detective Gary Britton met Ray to trace the last steps of Shannan Gilbert's life and listen to Ray's theory on who the killer is. Philip Seidle, the suspended Neptune police sergeant who gunned down his ex-wife Tamara on an Asbury Park street last June, pleaded guilty to the crime in court Thursday. Seidle was facing life in prison if he was found guilty at trial. The plea deal helps him avoid a life sentence, but the 30 years he is still facing will keep Seidle in prison until he is nearly 80. Philip Seidle pleaded guilty to endangering the welfare of a child as part of his plea. The first-degree murder charge was downgraded to aggravated manslaughter.

#### **PAPA DON'T PARK**

Madonna is causing quite the controversy on Manhattan's Upper East Side. The pop icon put her no parking signage in front of her 12,000 square foot townhouse without permission from the city. The D.O.T. and Neighbors on 81st street have asked her to remove her self-imposed parking regulations. Madonna is on her Rebel Heart tour, meantime Chasing News staked out her townhouse to see what this was all about.

## **EASTER BUNNY MADNESS**

Barnyard Sanctuary in Columbia, NJ takes in discarded and neglected animals and cares for them. When your kooky Aunt Gertie buys your daughter a baby bunny for Easter, Tamala gets to deal with the fallout. The nonprofit has over 700 animals, all rescues from bad situations, from emus to sheep to donkeys to ducks. Volunteers do great work, but there are costs: tons of feed, a veterinarian to look after the animals, spay and neuter them to keep them from multiplying. At the Easter holiday, she says the best solution to a problem is not to create one in the first place.

### **ARE YOU ACTUALLY FOR REAL WITH THIS?**

Coverage from Chasing News Students in Elmwood Park is offended and outraged by Facebook posts allegedly written by a Board of Education member. A post on Gladys Gyskiewicz's page states: "We cannot allow Islam to take over. No one will come out alive from the situation. Stay in your desert and follow your religion in your own countries." Hamza Yousuf, Elmwood Park High School student body president, said the comments are derogatory and is calling for her resignation. Yousuf, who was born in Queens, says "I go to school here and to know that a board of education member is voting against me just because of how I look the color of my skin, my religion, I just can't be quiet."

### **MURDER ON THE BOARDWALK**

Atlantic City is dying! The place that was a vacation paradise for generations has lost huge amounts of revenue as casinos close and visitors go elsewhere. The Governor is planning a takeover but a dispute over Union collective bargaining rights with the State Assembly Speaker has put the plan on hold. And the city will run out of money and furlough nonessential workers starting April 8. How did it get this bad? Was it changing vacation plans, technology, and corruption? Who killed Atlantic City?

### **ROAD WARRIOR: HELL IN HELL'S KITCHEN**

The Port Authority of New York and New Jersey announced plans last week to build a new bus terminal in Manhattan, but where could they possibly put it? There's speculation that it could be built on land the Port Authority already owns between 9th and 11th avenue, but the Manhattan Institute's Nicole Gelinas believes getting a final location will be easier said than done. Sibille designed her own version of the new Port Authority bus terminal with Legos, though it is unclear if the Port Authority will take her plan under consideration.
