The I-16/I-75 Interchange Improvement Project is now 25% complete. Georgia DOT crews have begun constructing a super-structure for the Riverside Drive bridge over I-75. They will continue working on footings for the Ocmulgee River bridge on I-16 westbound. They will also continue building retaining walls along I-75 both northbound and southbound. None of the construction in this region should require any adjustment to traffic or lane closures, as most of this work is being done at night.

The American Red Cross needs more than 13,000 blood donations a day to meet patient demands during October. If you donate blood between now and October 31, you'll be automatically entered to win one of five \$500 gift cards, redeemable at GiftCertificates.com There are Red Cross blood drives this week:

**Monday**-Hart's Mortuary in Gray from 2-7pm

**Tuesday**-Middle Georgia State University's Eastman campus from 2-7pm

**Wednesday**-Sacred Heart Catholic Church in Warner Robins from 2-7pm

**Friday**-Wellston Center in Warner Robins from 8am-1pm

It only takes about an hour to give blood, and you can save some time by downloading your rapid pass online at [redcrossblood.org](http://redcrossblood.org)

Macon-Bibb County Public Works is spraying for mosquitos **through mid-October**. This will help reduce the mosquito population and lower the risk of people catching a virus carried by mosquitos. To find out when the truck will be in your neighborhood, just go to [MaconBibb.us](http://MaconBibb.us) and click on the banner on the "News" tab. The interactive map will allow you to either click on a specific area or enter your address, to learn when the next spraying will be, as well as when the most recent one happened. Occasionally, weather will lead to the cancellation of spraying, and the map will be updated to reflect those changes. If you have questions about the mosquito spraying program, or do not wish the area in front of your house sprayed, contact the Public Works Department at 478-621-5888.
