## KTXH EDUCATIONAL AND INFORMATIONAL PROGRAMS

Here is the list of educational and informational children's core programming targeted to children 13-16. Refer to Form 2100, Schedule H:

**"Animal Rescue"** features spectacular rescues of all types of animals and dedicated people around the world who help sick, injured or abused animals.

**"America's Heartland"** presents the importance of learning about farming and feeding the world.

**"X-Ploration: Nature Knows Best"** presents how technology all around us was inspired by nature and how modern innovators are continuing with this practice. This series helps kids understand how getting outside and taking a look around can help them make the next great discovery.

**"X-Ploration: 2<sup>nd</sup> Chance Pets"** Second Chance Pets inspires and educates anyone interested in animal science, engineering, and where the two intersect. Jim Alaimo, owner of My Pet's Brace in Pennsylvania, is one of the leading animal prosthetists in the world. Alaimo and his world renowned team have saved thousands of animals by creating one-of-a-kind prosthetics and braces that give them "*a new leash on life*." This heartwarming program covers the medical side of Alaimo's profession when dealing with different dog injuries. We follow the science and engineering side as well, with every brace and prosthetic posing unique challenges. Along with that, the show will shine a light on various dog breeds, teaching the audience about the unique and distinct features that make each dog different.
