

3rd Quarter FCC Community Issues 2018

Community Issue- Make a Difference in a Child's Life Month: July was National Make a Difference in a Child's Life Month. Around the world, children are suffering. They are facing an extreme lack of healthcare, food, school supplies, and more. Some of them have never even experienced life without the daily struggle to survive. While we adults have a responsibility to care for children every day of every month, many times, some responsibilities go undone without supplying the extra nourishment and attention that children need for a positive well-being. July is a special time for recognizing both their immediate needs and future aspirations. We reached out to local after school programs and recreation centers to explain how they contribute to the overall well-being of our children.

Community Issue- Student Safety Awareness Month : When the school bells ring in August, we assume that our students are safe and sound, as we should, but the topic of safety should always be addressed regardless. Our children's safety is our #1 concern. From small drills and procedures like crossing the roads and avoiding strangers, to bigger issues like active shooter drills, our main concern was to educate and inform to keep our students safe at the start of the school year, and all year around. Our local police department, and fire department were able to assist us in informing our parents and youth with safety tips for student safety awareness.
