October 1 – December 31, 2021

Section 1. - Issues

A. COVID-19.

COVID-19 has had a major impact on local communities in our region, impacting everything from children attending schools to people vacationing at casinos. Two key elements to battling the global pandemic are to stay as healthy as possible and to stay informed with the latest news and information.

B. Poverty.

In the shadows of the glitz and glamour of Atlantic City's casinos is a poverty problem that has existed for decades. Understanding how people get stuck in a cycle of poverty in a flashy society is key to changing the mindset of those in our region.

C. Food insecurity.

Atlantic City has been a "food desert" for a number of years. Within the past several weeks, ground has been broken on a new full-service supermarket in the city, which will greatly increase the availability of fresh foods in the city.

D. Housing costs.

The cost of housing and rent in and around the Atlantic City area has skyrocketed over the past few months. For those with low or middle incomes, keeping a roof over their heads is becoming more and more difficult.

E. Employment.

Tens of thousands of people are needed to fill jobs every day in a region that is driven by tourism, entertainment, and hospitality. Without those people, our economy will suffer. As “the great resignation” continues, countless jobs remain unfilled in and around Atlantic City.
