The results of a community inquiry into climate change and its impacts in Florida ----- The United States is seeing an average of more than 500,000 new cases of COVID-19 a day for the first time since the pandemic began ----- Adolescent mental health and the new wave of COVID-Omicron	Florida Exclusivo	The purpose of the study was to better understand how Hispanics in Florida perceive environmental issues and how they affect their communities. Survey and focus group questions were also about support for potential environmental legislation and how concerned they were about the environment compared to other issues affecting Latino communities. ----- The omicron variant has generated a significant increase in COVID-19 cases; therefore the "Depends on You" campaign offers to answer all questions about vaccines and booster doses ----- Experts in this field believe that a child's emotional well-being is just as important as her physical well-being. As the widespread wave of Omicron creates constant disruptions to school and other activities, children need the emotional support of their parents and caregivers.	Maria Revelles State Director of Chispa Florida ----- Dr. Eduardo Sanchez, American Heart Association Prevention Medical Director ----- Psychologist Dra. Regina Miranda, Spokesperson for the campaign EscuchandoSentimientos (Sound It Out)	01/23/2022 7:00 AM	1 hr.

<p>New facts and advice for older working Latino job seekers ----- What can you do if you can't afford your medication costs? ----- UCF scientist will be among first to access James Webb Space Telescope</p>	<p>Florida Exclusivo</p>	<p>The massive number of workers who quit their jobs in the recent past, at the national level, has generated a new dynamic in the labor market. An AARP survey reveals that 21% of respondents, including many Latinos, retired earlier than planned due to the pandemic. ----- Many people have difficulty paying for the cost of their prescription medications, particularly in the first quarter of a new year when out-of-pocket co-pays and deductibles often reset. There are resources and programs that can help if you know where to look, but most folks don't. ----- Launched on Christmas Day and expected to arrive at its destination later this month, the telescope is travelling 900,000 miles away from Earth and will soon begin taking never-before-possible images of space that will be invaluable to researchers like Pinilla-Alonso who are trying to understand our solar system and beyond.</p>	<p>Karina Flores-Hertz, AARP spokesperson ----- Anita Reynolds, Spanish spokesperson for Patient Advocate Foundation ----- Noemi Pinilla-Alonso, an astronomer at the Space Institute at the University of Central Florida</p>	<p>01/30/2022 7:00 AM</p>	<p>1 hr.</p>
<p>Health Alert for the presence of harmful blue-green algal toxins and February is Prevention of heart deceases ----- February is American Heart Month ----- Hispanic Women Cancer Awareness</p>	<p>Florida Exclusivo</p>	<p>Blue-green algae are a type of bacteria that is common in Florida's freshwater environments. What are blue-green algae? Is it harmful? ----- Since the onset of the COVID-19 pandemic, women have lost their rhythm, their flow. With so much on their plates, many have neglected their overall health, including their heart health: less than half of women in the U.S. have seen a general practitioner or internist within the past year, deaths from heart disease and stroke have risen significantly and women's blood pressure has spiked higher than ever, putting them at even greater risk of heart complications ----- A health campaign organized by major breast cancer charities every to increase awareness of the disease and to raise funds , diagnosis, treatment, and cure.</p>	<p>Mirna Chamorro Public Information Officer Florida Department of Health, Seminole County ----- Dr. Eduardo Sanchez American Heart Association ----- Esther Pagan Cancer Survival and artist</p>	<p>2/6/2022 7:00 AM</p>	<p>1 hr.</p>

------------------------	-------------------	---	--	----------------------	-------

<p>How caregivers can spot red flags and protect loved ones from scams and fraud</p> <p>-----</p> <p>Encourage testing and treatment options for people at high risk</p> <p>-----</p> <p>New score card gives each State a letter grade. How did your state grade?</p>	<p>Florida Exclusivo</p>	<p>The number of scams and fraud cases today reach unprecedented levels and millions of people lose billions of dollars every year at the hands of criminals. When older Latinos are exposed to fraud, they lose much more than their younger counterparts, precisely at a time in their lives when they are least able to recover financially.</p> <p>-----</p> <p>As more people contract COVID-19 from the highly contagious Omicron variant, it is important to be aware of available treatment options. Through a new comprehensive awareness campaign, The American Lung Association aims to educate older adults, people living with chronic lung disease, and others at high risk about the treatment options available for COVID-19</p> <p>-----</p> <p>The Giffords Law Center for Gun Violence Prevention has released its annual Gun Law Scorecard, which each year ranks all 50 states and assigns them a point total and a score based on the strictness of its laws against firearms.</p>	<p>Alex Juarez works with AARP staff and volunteers</p> <p>-----</p> <p>Dr. Juanita Mora of the American Lung Association</p> <p>-----</p> <p>Debbie Mucarsel-Powell, Senior Advisor to Giffords</p>	<p>3/6/2022 7:00 AM</p>	<p>1 hr.</p>
---	---------------------------------	---	---	------------------------------------	---------------------

<p>What would be a better way to move forward clean energy?</p> <p>-----</p> <p>How is climate change affecting Florida?</p> <p>-----</p> <p>Effect of war in the economy, and how the Pandemic affected the economy and the behavior of buying properties.</p>	<p>Florida Exclusivo</p>	<p>There is legislation that Florida lawmakers are considering that would make it much more difficult for families to put solar panels on their roofs. The legislation would eliminate a consumer policy called net metering that allows homes with solar panels to return excess energy to the utility provider in exchange for a credit on their bill. According to a recent poll, 84% of Floridians support net metering.</p> <p>-----</p> <p>The annual climate action conference in the US focused on driving innovative solutions to address climate change. This year's theme, Sustaining Food: Powered by Climate Smart Solutions, will explore food systems and agricultural processes that will not only feed next-generation populations, but also provide green solutions to our climate crisis. Participants will have the opportunity to hear from an exciting roster of industry experts, including scientists, researchers, farmers, home growers, and business leaders from the sectors</p> <p>-----</p> <p>Key findings of the report show that in most wars public debt, inflation, and tax rates increase, consumption and investment decrease, and military spending displaces more productive government investment in high-tech industries, education, or infrastructure—all of which severely affect long-term economic growth rates</p>	<p>Maria Revelles Director of the CHISPA Program</p> <p>-----</p> <p>VOLO SPOKESPERSON: Thais López Vogel, co-founder, and administrator</p> <p>-----</p> <p>Hector Reyes Economist & President of Money Tree Lending Group</p>	<p>3/13/2022 7:00 AM</p>	<p>1hr.</p>
