Good day to you folks at WION.

I'm another of those who found your station via the Shango video, and I must say I really appreciate what you do. The great selection of tunes, relatively few ads, and great sound engineering make it a great station to listen to. I wish we had a station like yours around here, but alas it's all formulaic corporate packaging now. Just awful.

The folks of Ionia and area are lucky to have such a station.

Thanks again,

Doug Grisack
