

Issues and Program list

Quarter 3 July 1st – September 30th 2011

1. Children and Youth Needs/Family:

Eastern Nebraska has their share of abused, missing, and runaway children. Youth feel the need to be part of a family. They seek for that feeling in other places rather than with their own families. We hope to provide programming for parents as well as children to let them know that there is hope and help to fill those needs that will strengthen and build up rather than kill, steal and destroy their lives.

2. Marriage/Dating/Mens & Womens Issues:

Eastern Nebraska also has its share of marital problems and spouse abuse. We want to help in any way we can. We will encourage listeners to take part in classes or support groups that can help with these issues.

3. Economy:

We want to encourage the communities to make wise investments and have a good financial standing, as well as promoting economic development in the listening area.

4. Crime and Crime Prevention:

There is so much crime, even in the rural areas. We try to keep our listening communities informed of news ways to prevent further crime.

5. Local, State and National Education:

Because of our being in a rural setting and the amount of high school, college and city wide sports and the opportunity for educational advancement for both beginning and advanced students, we found it necessary to keep the public informed of the opportunities they have to never stop learning.

6. Terrorism:

With the changes that have and are taking place since 9/11 there is an interest in any subject dealing with terrorism/fear and how this affects our lives. We have programming to help with what we need to know to make changes in our lives that can bring comfort and security into our lives, communities and families.

Program Descriptions
