Slug=IPHONE HACKING

TECHNOLOGY TODAY HAS MADE IT EASIER FOR HACKERS TO TAKE OVER YOUR GADGETS. BUT THE LATEST SECURITY BREACH IS HITTING I-PHONES AND THE HACKERS ARE LOOKING FOR CASH. THESE "HIJACKERS" ARE TAKING OVER I-PHONES USING THE CLOUD SERVICE CALLED "FIND-MY-IPHONE" AND LOGGING IN AS IF THEY WERE THE USER. THEY THEN LOCK THE PHONE THROUGH THAT SERVICE AND SEND YOU A MESSAGE ASKING FOR MONEY TO GET THE LOCK TAKEN OFF. RIGHT NOW THIS IS AN APPLE SPECIFIC ISSUE BUT IN AN INTERVIEW DURING THE NEWS AT 5 MARIA LEARNED THAT BREACHES LIKE THIS HAVE HAPPENED BEFORE WITH OTHER SYSTEMS.
