48 HOURS

03/05/05 48 HOURS MYSTERY: "Secrets Of The Well"- reports on two separate unsolved murders with strange similarities, both solved by Georgia criminal investigator Clay Bryant:

1) a report on the murder case of Gwendolyn Moore, a 30-year-old mother whose body was pulled from a well in August 1970.

Gwendolyn's husband, Marshall, immediately came under suspicion.

Moore, who passed a lie detector test, was not thoroughly investigated at the time because of connections to the local police department. After 30 years Bryant found enough evidence to charge Marshall Moore with the murder of his wife. He will go on trial on March 28, 2005.

2) In 1987, Fred Wilkerson, a small town fire chief and 49-year-old father, seemingly vanished. Bryant determined that the prime suspect was Wilkerson's ex-lover, Connie Quedans. At the time of the disappearance the estranged couple was involved in a property dispute. Bryant unearthed evidence and Wilkerson's body was found in Quedan's well. Connie Quedans was found guilty of murder and sentenced to life in prison. (C: Susan Spencer - Sr. P: Anthony Batson - P: Marc Goldbaum, Katherine Davis, Gayane Keshishyan)

03/12/05 48 HOURS MYSTERY: "Prime Suspect" followup to "Prime Suspect" (OAD: 04/07/04), a report on Marty Tankleff who, as a 17-year-old, was convicted of murdering his adoptive parents Seymour and Arlene Tankleff in their Belle Terre, Long Island home.

Tankleff's relatives believe that Marty, now 33, is innocent and hope that a new trial will set him free. Includes interview with several key witnesses and with Tankleff's investigator, New York City detective Jay Salpeter, who took the case on a pro bono basis; Assistant District Attorney Leonard Lato who is fighting to uphold Tankleff's conviction; and Richard Ofshe, an expert in interrogation tactics who feels that innocent people, including Marty Tankleff, can be persuaded to confess to crimes they did not commit. The judge in the case is expected to rule on Tankleff's request for a new trial this spring. (C: Erin Moriarty - Sr. P: Katie Boyle - P: Gail Abbott Zimmerman)

03/19/05 PACIFIC NET ONLY - 48 HOURS MYSTERY: "Driven To Extremes" - On Aug. 7, 2000, Mary Hill was driving three neighborhood teenagers, including her daughter, Amy, home from school. Less than two miles from their home in an Orlando, Florida suburb, the car crashed into a tree, claiming the lives of Amy and her best friend, Carrie Brown. The third teen, Zak Rockwell, suffered brain injuries. Hill claims she lost control of her BMW because it sped up on its own, but investigators say that Hill was driving recklessly. After an eight-month investigation by the Florida Highway Patrol, Hill was charged with vehicular homicide and manslaughter. Three and a half years after the accident she was tried and found guilty of two counts of vehicular homicide. Mary will remain in jail until her sentencing on May 10, 2004. The judge in the case has the option of proposing a treatment program instead of prison. 03/26/05 48 HOURS MYSTERY: "A Question Of Murder"- John Maloney, a Green Bay, Wisconsin police officer, was convicted of murdering his estranged wife, Sandy, in 1999. He has always maintained his innocence. After Maloney's conviction, the prosecutor in the case, Joe Paulus, pled guilty to accepting bribes to fix more than 20 cases. The question arises as to whether Maloney got a fair trial and whether he is entitled to be re-tried. Sheila Berry, part-time novelist, part-time investigator and part-time head of Truth In Justice, a non-profit group that tries to help people it considers wrongly imprisoned, has taken up Maloney's cause. Berry is convinced not only that Maloney is innocent, but that Sandy Maloney was not murdered but died of alcohol poisoning. John Maloney is appealing for a new trial and the state of Wisconsin is investigating whether prosecutorial misconduct could have influenced the outcome of his trial for murder. After Vest placed an ad in the newspaper offering a reward for information, he received a mysterious letter from an "M. Smith" claiming that Buddy Vest did not commit suicide, and suggesting that a former Gainesville police officer and his friends were responsible for Buddy's death. Herb's team of investigators have been examining the letter and searching for the author. Fifty-eight years later, the Cook County Justice of the Peace in Texas has ruled the case a homicide and is seeking "M. Smith" in an effort to finally bring the killers to justice. A taped conversation with Nissim Elmann, the judge's confederate, was enough evidence to have the Brooklyn District Attorney grant permission to place a hidden camera in Judge Garson's chambers. Prosecutors caught Judge Garson on videotape taking a gift for legal advice, giving a lawyer advice on how to write a legal memo on a case before him, and accepting a \$1,000 referral fee. Judge Garson will go on trial next fall; Nissim Elmann will be tried next week. Hanimov's case has led to the creation of a new commission to reform divorce court. 01/01/05 **48 HOURS MYSTERY: "Where Is Mrs. March?"**- on August 15, 1996, 33-year-old Janet Levine March, a wife and mother of two young children, disappeared. She had a flourishing career as an artist; a husband, Perry, a successful lawyer; and a beautiful home in Nashville, TN. However, one night, her husband claims that she left home, saying that she needed time alone, and was never heard from again. After Janet's disappearance, Perry March and Janet's parents searched for her for two weeks before filing a missing persons report with the police. Investigators found Janet's car parked a few miles away from her home with her belongings inside. Perry, the only suspect in case, moved with his children to Ajijic, Mexico where he remarried and began a new life. Janet's parents are convinced that Perry killed their daughter but, with no hard evidence that a crime was committed it is unlikely that Perry March will be brought back from Mexico to face trial. A lead singer in a popular local band called "The Gits," Zapata was about to start a national tour and was on the verge of signing a record contract. Police conducted an exhaustive investigation, but ultimately came up with few leads and little evidence. A decade later, Seattle's cold case squad, made up of detectives Richard Gagnon and Greg Mixsell, reopened the Zapata murder investigation and with new forensic technology were able to pinpoint the murderer, Jesus Mezquia, through DNA evidence found on Zapata's body. A jury convicted Mezquia of first-degree murder and he was sentenced to 37 years in prison. (C: Harold Dow - Sr. P: Peter Schweitzer - P: Paul F. Then, on Jan. 15, 1999, Miriam was fatally shot as she stood in front of her kitchen window. Because Miriam had filed for divorce from her husband, investigators theorized that Richard Illes was responsible. Eventually, the killer's gun and sneakers were found not far from where Dr. Illes had been on the night of the murder. Illes had married his assistant and moved to Spokane, Washington, where he was finally apprehended and arrested. Upon searching Illes' home in Spokane, police found an manuscript in his computer entitled "Heart Shot: Murder Of The Doctor's Wife." A jury found Illes guilty of murder in the first degree. The police began to search for the baby but, soon the investigation began to focus on the parents as authorities became convinced that they knew more about their baby's disappearance than they admitted. Sheriff's detectives planted secret recording devices in the Aisenberg's home. After listening to and recording thousands of hours of conversations, the federal government brought an indictment against the couple, charging them with conspiracy and lying to investigators: charges which, if proven true, could send the Aisenbergs to prison for 30 years. Eventually, a pair of judges reviewed the case and the charges against the Aisenbergs were dropped. The couple still believe that Sabrina will be found alive and returned to them. Includes interviews with Bill McGinty, reporter for WTSP, the CBS affiliate in Tampa; Graham Brink, a reporter for the St. Petersburg Times; and Barry Cohen, the Aisenbergs' attorney. Two days later, Camm was arrested for the murders. Eleven witnesses testified that Camm was playing basketball at the time of the murders; however, the examination of microscopic drops of blood found on his T-shirt and basketball shoes gave evidence to his involvement in the murders. A jury, who also suspected Camm of sexually abusing his young daughter, found him guilty of the murders. He was sentenced to 195 years in prison with no chance of parole. In Indiana, an appeal is automatic for a murder conviction. (C: Richard Schlesinger - Sr. P: Reid Collins, Jr., Suzanne Allen - P: Alec Sirkin, Laura Levin, David A.
