

Division of General Pediatrics

Dear WRHU

I would like to take this opportunity to express my deepest thanks to everyone at WRHU, Radio Hofstra who have been so instrumental in making 8 Anti Bullying conferences so successful and meaningful to the community. The topic is timely and necessary and we hope has opened the door for these students who participated to pay it forward and help create a new culture of caring, empathy and acceptance. I could not have done this without Bruce Avery, John Mullen and the Hofstra volunteers.

I am looking forward to working with Hofstra and WRHU on more conferences and to reaching out to the community in a meaningful way,

Sincerely

Mark Welles, M.D., F.A.A.P.
