Network Programming

In addition to our locally produced programming specifically designed to respond to the issues and problems of our viewing area, network programs often cover issues relating to our local problems and needs.

- ***FOX News Sunday***

FOX Network

Sundays 8am 60 min

Syndicated Programming

In addition to our locally produced news to respond to the issues and problems of our viewing area, syndicated programs often cover issues relating to our local problems and needs.

KXLT airs Children's E/I Programming Monday – Sunday 7am.

X-Ploration: Awesome Planet the host and experts explore the most spectacular places on earth and learn how it all came to be. Some of the places explored are bubbling volcanoes, rafting magnificent glacial lakes, hike canyons and dive in the oceans.

X-Ploration: Outer Limits the host collaborates with NASA to entertain and educate with stories such as floating in zero gravity, how to wash your hair in space, is there life beyond Earth?, and space weather.

X-Ploration: Earth 2050 tries to show where the world will be in the year 2050 by exploring advancements in science, technology, engineering and mathematics. From personal jet packs to self driving cars, the show explores these ideas and more with technology gurus, science fiction writers and creative thinkers.

Into the Outdoors is a show that is hosted by an adventure team of kids discovering the fun of exploring science and nature. This half-hour program takes viewers from the highs of flying over glacial features to the lows of exploring vast caverns underground, and whether it's probing active bear dens or diving under water with sturgeon, the show decodes some of nature's most curious mysteries using cutting-edge science. The show is also supported by an online educational network that delivers scores of serious science videos and lesson activities into the classroom where teachers and students can expand their hands-on learning. *Into the Outdoors* entertains and educates while helping excite our next generation of scientists and explorers.

Xploration FabLab brings the world of science, technology, and innovation to life. The series is designed to be fast paced and exciting, with each episode consisting of multiple, short-story segments based on a central topic. Featuring fun, young hosts that will keep the pace tight and energy high. Star power will be used to supercharge the storylines. Each episode will include a relevant celebrity with a science and tech background. All *Xploration FabLab* episodes will focus on a relevant global issue and what's being done to solve it. Using real-life examples, *FabLab* will illustrate how all the STEM disciplines work together to improve our lives and make the world better.

Daily Mail.TV - a syndicated show hosted by Jesse Palmer bringing the [DailyMail.com](https://www.dailymail.com) to life on television. With exclusive stories, breaking news, showbiz, politics, crime, health, science and technology.

Matter of Fact with Soledad O'Brein is a syndicated show hosted by Soledad O'Brien that offers a fresh take on political news, and covers emerging national issues.

Short Form Programming

KXLT demonstrates a strong commitment to our community by broadcasting public service announcements (PSA's) for many area non-profit organizations. The PSA's are listed below which aired during the quarter. Specific dates/times are not given here, but are available on request.
