

Weekly Public Affairs Program

Call Letters: WPIN-AM

QUARTERLY ISSUES REPORT, JANUARY-MARCH, 2024

Show # 2024-01

Date aired: 1/7/24 **Time Aired:** 8AM

Steve Elek, Senior Automotive Data Analyst at Consumer Reports

Mr. Elek shared results of Consumer Reports' newly-released annual car reliability survey, which found that electric vehicle owners continue to report far more problems with their vehicles than owners of conventional cars or hybrids. He said that on average, EVs from the past three model years had 79 percent more problems than cars powered by internal combustion engines. He outlined the most common problems cited by EV owners, and the potential reasons behind this trend.

Issues covered:
Electric Vehicles
Consumer Matters

Length: 8:44

Mariah M. Kalmin, PhD, epidemiologist, Health Policy Researcher at RAND, a nonprofit research organization

Dr. Kalmin was the lead author of a Rand study that found that spending on mental health services for children and adolescents has risen by more than one-quarter since the beginning of the COVID-19 pandemic, continuing to rise even as the use of telehealth services plateaued. She explained why telehealth care for mental health filled a critical need for pediatric patients, but added that it may not be appropriate in some cases.

Issues covered:
Mental Health
Telehealth
Youth Issues

Length: 8:41

Annie Korzen, social media personality, humorist, actor, author of "*The Book of Annie: Humor, Heart, and Chutzpah from an Accidental Influencer*"

Ms. Korzen explained how she accidentally became a viral star on Tik Tok in her 80s, why she enjoys interacting with younger people, and how she uses humor to cope with aging. She explained why she thinks younger people are starting to look to older women for wisdom and life instructions.

Issues covered:
Aging
Social Media

Length: 5:08

Show # 2024-02

Date aired: 1/14/24 **Time Aired:** 8AM

Annie Grace, recovering alcoholic, author of “*This Naked Mind*,” founder of the This Naked Mind community

Ms. Grace shared her personal experience of overcoming alcohol addiction by asking herself why she drank so much and doing research on the effects of alcohol. She explained how alcohol affects the body and the brain, and how quitting alcohol can restore the natural pleasure system. She also advised people who want to quit alcohol to be compassionate with themselves, and to treat drinking as a habit that can be changed with the right approach.

Issues covered:
Alcoholism

Length: 8:48

Nusrat Jung, D.Sc., Assistant Professor of Civil Engineering in the Lyles School of Civil Engineering at Purdue University

Prof. Jung led a study of Americans’ typical morning grooming routines and found that several volatile chemicals are released when common hair care products are heated with flat irons or hair dryers. She said the chemicals linger in the air after use and may have dangerous effects on health. She recommends the use of a bathroom exhaust fan when using hair care products, and using the products less frequently.

Issues covered:
Personal Health
Environment
Consumer Matters

Length: 8:39

Eric Gehrie, MD, Executive Medical Director of the American Red Cross

The Red Cross announced this week that they are experiencing an emergency blood shortage, with blood inventory at critically low levels. Dr. Gehrie explained the reasons behind the current shortage and how listeners to sign up to make a blood donation.

Issues covered:
Blood Donations
Public Health

Length: 5:03

Show # 2024-03

Date aired: 7/21/24 **Time Aired:** 8AM

Jared Walczak, Vice President of State Projects, Tax Foundation

More and more homeowners are struggling as property values across the nation are rising rapidly, and property taxes are following suit. Mr. Walczak said typical property valuations have risen 30% to 40% over the past three years. He explained that at least some homeowners who are already grappling with high inflation may get a brief reprieve, because property taxes typically take one to three years to catch up to home prices.

Issues covered:
Property Taxes
Inflation
Home Ownership

Length: 8:54

Satchin Panda, PhD, Professor in the Regulatory Biology Laboratory at the Salk Institute for Biological Studies

When and what we eat for dinner makes a significant difference in how we sleep. Prof. Panda explained how to determine the optimal time to have dinner. He said the most important factor in the dinnertime calculus is melatonin, the hormone that signals it's time to sleep. He also talked about the effect that highly processed food and carbohydrates have on sleep quality.

Issues covered:
Personal Health
Nutrition

Length: 8:29

Jas Booth, veteran, Founder of Final Salute, Inc, a non-profit organization that assists female veterans and their children who are struggling with homelessness

Ms. Booth shared her personal story of struggling with homelessness after her military career ended. She said her experience caused her to start Final Salute to help other women vets, especially those with children. She said her organization has helped more than 5,000 women veterans who are homeless or in domestic violence situations.

Issues covered:
Homelessness
Veterans' Concerns
Domestic Violence

Length: 4:43

Show # 2024-04

Date aired: 1/28/24 Time Aired: 8AM

Vijay Boyapati, Bitcoin expert, author of "*The Bullish Case for Bitcoin*"

Mr. Boyapati explained the basics of what bitcoin is and why many investors have an interest in it. He explained the recent government approval that allows ordinary investors to purchase bitcoin through spot bitcoin exchange traded funds and why it will expose bitcoin to a much bigger retail audience. He also outlined the most common misconceptions about the digital currency.

Issues covered:
Digital Currencies
Personal Finance

Length: 8:58

Laura Stack, founder of Johnny's Ambassadors, a Colorado-based organization that aims to educate teens, parents, and communities about the dangers of today's high-THC marijuana

Mrs. Stack why she founded Johnny's Ambassadors, after her 19-year-old son Johnny died by suicide after he became psychotic from using dabs, which are a potent marijuana concentrate. She explained how today's marijuana and THC products are drastically different than that of years ago. She says parents need to cast aside what they think they know about the drug and recognize that marijuana causes brain damage and mental health issues in ways that other substances do not.

Issues covered:
Substance Abuse
Parenting

Length: 8:15

Penelope Larsen, researcher and PhD candidate in the School of Exercise Science, Sport & Health at Charles Sturt University, Bathurst, New South Wales, Australia

Hitting the gym at night won't keep you tossing and turning all night, contrary to popular belief. Ms. Larsen led a recent study that found that evening high-intensity cycling didn't ruin sleep and may even reduce appetite. She said study participants also seemed to have more energy when exercise occurred later in the day, which could also debunk the belief that working out first thing in the morning is the optimal time.

Issues covered:
Personal Health

Length: 5:01

Show # 2024-05

Date aired: 2/4/24 Time Aired: 8AM

Rachel Slade, author of "*Making It in America: The Almost Impossible Quest to Manufacture in the U.S.A. (And How It Got That Way)*"

The US has fallen from the top spot, to now the 10th largest manufacturing economy in the world. Ms. Slade discussed how America can revive manufacturing and why is it so important. She explained why manufacturing is vital for the country's independence, economy and innovation. She also talked about the impact of the great resignation, the resurging role of unions, and the new priority for a work-life balance among workers.

Issues covered:
Manufacturing
Economy
Government

Length: 8:43

Gary Taubes, journalist, author of "*Rethinking Diabetes: What Science Reveals About Diet, Insulin, and Successful Treatments*"

Diabetes affects one out of every nine Americans. Mr. Taubes believes that treatment approaches to diabetes need to change, with renewed focus on diet—particularly, fewer carbohydrates and more fat—over a reliance on insulin. He also criticized the role of the food industry in promoting unhealthy foods and influencing diabetes research. He said that the current diabetes epidemic is driven by overeating and obesity, and that the best way to prevent and treat diabetes is to avoid the poison, not take the antidote.

Issues covered:
Personal Health
Science

Length: 8:37

James Royal, analyst at Bankrate.com

Mr. Royal explained why Chat GPT and other artificial intelligences are very useful tools for financial planning and management. He outlined benefits and drawbacks of using AI for various tasks, like paying down debt, saving money, building a budget, and investing in the stock market. He noted that the key to using AI effectively is to ask the right questions and to understand how the AI's recommendations fit one's own financial goals and circumstances.

Issues covered:
Personal Finance
Artificial Intelligence

Length: 5:04

Show # 2024-06

Date aired: 2/11/24 **Time Aired:** 8AM

Mariel Buqué, PhD, psychologist, author of *“Break the Cycle: A Guide to Healing Intergenerational Trauma”*

Many Americans are living with the effects of trauma and long-term stress. Dr. Buqué discussed scientific research that suggests that if trauma is not addressed, it can be genetically passed down from generation to generation, and even be transmitted to entire communities. She said most forms of abuse typically begin in childhood. She talked about therapeutic practices than can pass down strength instead of pain, thereby breaking the cycle.

Issues covered:

Length: 8:41

Mental Health

Child Abuse

Greg Hammer, PhD, recently retired professor at Stanford University School of Medicine, pediatric intensive care physician, pediatric anesthesiologist, author of *“GAIN Without Pain”*

Despite the pandemic, US life expectancy has increased slightly in the past 20 years. Dr. Hammer discussed what he terms the tripod of health: sleep, exercise and nutrition, and the latest science behind all three. He also talked about recent research into the longevity effects of intermittent fasting, dietary supplements and mindfulness and meditation.

Issues covered:

Length: 8:35

Personal Health

Longevity

Andreas Groehn, Director of the Berkeley Research Group

America’s roads are in bad shape and getting more wear than ever. Mr. Groehn discussed ways that road repairs and improvements may be paid for in the future, as a growing number of electric vehicle owners sidestep the gasoline taxes that currently finance road maintenance.

Issues covered:

Length: 5:00

Taxes

Transportation Infrastructure

Show # 2024-07

Date aired: 2/18/24 **Time Aired:** 8AM

Bridget Freisthler, PhD, Professor in the College of Social Work at Ohio State University

Child abuse and neglect cases have been on the rise since the pandemic and its aftermath. Prof. Freisthler led a study of an alcohol control project in Sacramento. The program’s purpose was to reduce alcohol-related problems in two neighborhoods in the city, but it discovered an unexpected byproduct: in one of the neighborhoods, total entries into foster care were reduced by nearly 12%. She discussed factors behind child abuse and why she believes additional research is needed before trying to duplicate the program elsewhere.

Issues covered:

Length: 9:27

Child Abuse & Neglect

Alcohol Abuse

Foster Care

Megan Henly, PhD, Research Assistant Professor in the Institute on Disability at the University of New Hampshire

Older Americans, low-income workers, and people with disabilities are over-represented in rural parts of the US. But enrollment in federal and state programs in these regions tends to be low. Prof. Henly discussed the numerous barriers to getting information about, and enrolling in, programs like Social Security disability and retirement benefits, the Supplemental Nutrition Assistance Program and the Medicaid health insurance program, and what can be done to reduce the problem.

Issues covered:

Length: 7:46

**Government Assistance
Disabilities
Rural Concerns
Aging**

Jared W. Magnani, MD, cardiologist at the University of Pittsburgh Medical Center, Associate Professor of Medicine at the University of Pittsburgh

Formal education typically occurs in early life, and yet it appears to influence cardiovascular health for decades, according to a study led by Dr. Magnani. He found that that on average, cardiovascular disease strikes later in life for individuals with progressively higher education levels. He discussed results of his study and the potential reasons behind them.

Issues covered:

Length: 5:10

**Personal Health
Education**

Show # 2024-08

Date aired: 2/25/24 Time Aired: 8AM

Jeremy Nobel, MD, MPH, founder of the nonprofit Foundation for Art & Healing, author of “*Project UnLonely: Healing Our Crisis of Disconnection*”

Dr. Nobel said loneliness has increased dramatically since the pandemic. He outlined the three types of loneliness. He also discussed the negative health consequences—both mental and physical—of loneliness or isolation. He said the answer to loneliness is connection through activities like creative expression and serving other people. He believes it all begins with being aware of loneliness and having the courage to address it.

Issues covered:

Length: 9:33

**Mental Health
Personal Health**

Elizabeth Comen, MD, Medical Oncologist specializing in breast cancer at Memorial Sloan Kettering Cancer Center, Assistant Professor of Medicine at Weill Cornell Medical College, author of “*All in Her Head: The Truth and Lies Early Medicine Taught Us About Women's Bodies and Why It Matters Today*”

Dr. Comen said centuries of medical care often dismissed women's health problems as hysteria, but it is now often termed anxiety. She said 80% of autoimmune diseases are found in women but the illnesses are often not properly diagnosed, and research in the area is woefully lacking. She also said concussions or even strangulations are often not recognized as domestic abuse by emergency room physicians. She offered three tips for women to advocate for themselves.

Issues covered:
Women's Health
Domestic Abuse
Mental Health

Length: 7:47

Stephanie L. Bonne, MD, Assistant Professor of Surgery, Director of the Hospital Violence Intervention Program at Rutgers New Jersey Medical School

Dr. Bonne led a study of injuries caused by glass-topped tables. She said the furniture causes thousands of injuries each year, many requiring significant surgeries and long hospital stays. She said the U.S. Consumer Product Safety Commission requires tempered glass for products like doors and car windshields but it is voluntary for horizontal surfaces.

Issues covered:
Home Safety
Government Regulation
Consumer Matters

Length: 5:01

Show # 2024-09

Date aired: 3/3/24 Time Aired: 8AM

James E. Rogers, PhD, Director of Food Safety Research and Testing, Acting Head of Product Safety Testing at Consumer Reports

Plasticizers--used to make plastic more flexible and more durable--are so widely used that today, they show up inside almost every American's body. Dr. Rogers talked about Consumer Reports' recent tests, which found that nearly all foods contain phthalates and bisphenols, often at very high levels. He talked about the potential health consequences, and offered steps for consumers to try to reduce their exposure.

Issues covered:
Food Safety
Personal Health
Consumer Matters

Length: 8:14

Harvey Miller, PhD, Professor of Geography at Ohio State University

Prof. Miller led a recent study that examined the circumstances behind who is found at fault when cars hit pedestrians in an urban area. He found that pedestrians were more likely to be blamed when they were crossing busy highways where crosswalks were few and far between. In congested downtown areas, where there were more marked intersections with pedestrian crossings, drivers were more likely to be found at fault. He believes that street and highway designs should be re-imagined, to put a greater emphasis pedestrian safety.

Issues covered:
Traffic Fatalities
Government

Length: 8:54

Marilyn Horta, PhD, Research Scientist in the Social-Cognitive and Affective Development Lab in the Department of Psychology at the University of Florida

Each year, older adults lose more than \$28 billion to financial scams targeting the elderly. Nearly three-quarters of that money is stolen by people the elderly adult knows – people they trust. Prof. Horta shared results of her study that found that older adults have a harder time overcoming their first impressions of people's trustworthiness when that trust is violated, potentially leaving them more open

to deception and scams. She offered suggestions for seniors to recognize changes in behavior in relatives or friends who may not have their best interests at heart.

Issues covered:
Scams/Crime
Senior Citizens

Length: 5:03

Show # 2024-10

Date aired: 3/10/24 Time Aired: 8AM

Angela Fagerlin, Ph.D., Chair of Population Health Sciences at University of Utah Health, Research Scientist with the VA Salt Lake City Health System's Informatics Decision-Enhancement and Analytic Sciences (IDEAS) Center for Innovation

Dr. Fagerlin was the senior author of a study that found that 60 to 80 percent of people surveyed are not honest with their doctors about information that could be relevant to their health. She explained why people are sometimes reluctant to be truthful with their doctors, and why that can be a dangerous practice.

Issues covered:
Personal Health

Length: 7:29

Teresa Gil, PhD, psychotherapist, author of "*Women Who Were Sexually Abused As Children: Mothering, Resilience and Protecting the Next Generation*"

Dr. Gil estimates that there are approximately 21 million mothers in America who experienced childhood sexual abuse. She discussed how that trauma may affect their own parenting. She talked about the value of strong mother-daughter relationships, spiritual beliefs, and therapy in coping.

Issues covered:
Sexual Abuse
Parenting
Mental Health

Length: 9:40

Jennifer Emond, PhD, member of the Cancer Control Research Program at Dartmouth College's Norris Cotton Cancer Center, Assistant Professor in the Department of Biomedical Data Science, Geisel School of Medicine

Advertising works, and Dr. Emond's study found that kids who were exposed to TV ads for high-sugar cereals were more likely to subsequently eat the cereals they had seen advertised. She talked about the effect this may have on diet quality and childhood obesity, and offered suggestions to parents on how to maintain control of TV watching, particularly for small children.

Issues covered:
Parenting
Obesity
Consumer Matters

Length: 4:51

Show # 2024-11

Date aired: 3/17/24 **Time Aired:** 8AM

David Rein, PhD, Senior Fellow at the National Opinion Research Center at the University of Chicago

Dr. Rein led a recent study of hearing loss rates, and found that where a person lives and their occupation have a surprising impact. He found that the occupations most associated with hearing loss besides mining were in retail and restaurant settings. Rates of hearing loss are higher among men, non-Hispanic whites, and residents of rural areas, and increases significantly starting at age 35. He talked about the reasons behind the study's findings, along with the societal stigma of wearing hearing aids.

Issues covered:

**Personal Health
Aging**

Length: 8:50

Christy Faith, author of "*Homeschool Rising: Shattering Myths, Finding Courage, and Opting Out of the School System*"

Ms. Faith is a work-from-home mom who also homeschools her children. She discussed the rapid growth of homeschooling in the aftermath of the pandemic, and the reasons families choose to do it. She talked about the wide array of private and public resources available to homeschoolers, and the biggest challenges families face. She also addressed concerns about socialization for children who are homeschooled.

Issues covered:

**Education
Parenting**

Length: 8:31

Marceé White, MD, Board-Certified Pediatrician, Medical Advisor for Safe Kids Worldwide, Medical Director of the Children's National Mobile Health Program

Accidental medicine poisoning sends a child under 6 to the emergency room every nine minutes, and every 12 days, a child dies. Dr. White outlined most common poisoning scenarios and the steps that parents of small children must take to avoid a tragedy.

Issues covered:

**Child Safety
Parenting**

Length: 5:04

Show # 2024-12

Date aired: 3/24/24 **Time Aired:** 8AM

Michael Redlener, MD, Associate Professor of Emergency Medicine at the Icahn School of Medicine of Mount Sinai

Dr. Redlener led a study that found that emergency medical service (EMS) systems are not consistently providing optimal care, based on new national standards of quality, for patients who call 911. He explained the significant differences in EMS care he found in comparing urban, suburban, and rural services. He explained why the unnecessary use of lights and sirens, which he found is common in rural areas, is a dangerous practice.

Issues covered:

**Emergency Services
Public Health**

Length: 8:12

Chelsey Goodan, academic tutor and mentor, author of “*Underestimated: The Wisdom and Power of Teenage Girls*”

Teenage girls struggle with a wide variety of issues. Ms. Goodan outlined the most common things that concern teenage girls, and why they are reluctant to share them with their parents. She offered advice to parents to improve dialogue with their daughters, through listening and asking non-judgmental questions. She also talked about the value of sports in helping girls find their voices and power.

Issues covered:
Teenager Concerns
Parenting
Mental Health

Length: 9:12

Jeff Ostrowski, Analyst at Bankrate.com

A recent legal settlement may change how Americans buy and sell homes. Mr. Ostrowski explained how the changes may affect commission expenses and home prices. He said the changes will take effect in July 2024, and while there may be a learning curve for consumers, the end result will be greater transparency, and the ability to negotiate with real estate agents to reduce commission costs.

Issues covered:
Home Ownership
Consumer Matters
Legal Issues

Length: 4:58

Show # 2024-13

Date aired: 3/31/24 **Time Aired:** 8AM

Charles L. Marohn Jr, land-use planner, municipal engineer, author of “*Escaping the Housing Trap: The Strong Towns Response to the Housing Crisis*”

Housing costs have risen dramatically in the past few years. Mr. Marohn talked about the tension between housing as a financial product versus basic shelter. He advocated for a new approach that can rapidly produce housing on a local scale in response to local needs. He said that regulations, financial incentives, and cultural expectations often undermine organic efforts of urban renewal, and that approaches should be changed to allow neighborhoods to undergo incremental change over time.

Issues covered:
Housing
Community Development
Government

Length: 8:53

Sanja Jelic, MD, critical care medicine specialist and sleep researcher at Columbia University Vagelos College of Physicians and Surgeons

Obstructive sleep apnea affects about 25% of adults, and it often goes untreated. Dr. Jelic discussed the condition and the most common treatment, CPAP machines. She has led several studies that have determined that, contrary to long-held medical beliefs, the machines do not lower a patient’s risk of heart disease, which is about two to three times higher than average. She said obesity is by far the biggest risk factor for sleep apnea. She noted that a recent study said the worldwide estimate of those with sleep apnea totals roughly 1 billion, compared to 1.2 billion with high blood pressure.

Issues covered:
Personal Health

Length: 8:30

Pam Mueller, graduate student, Department of Psychology, Princeton University

Laptops, tablets and other electronic devices are commonplace in today's classrooms. But Ms. Mueller co-authored a study that found that taking notes by typing, rather than writing, interferes with students' ability to process and remember information. Her research indicated that students who take notes with pen and paper recall more material and perform significantly better in class.

Issues covered:
Education

Length: 4:51

Program 24-01

Air Week: 1/7/2024

Air Time: 8:30am

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: BEING A GOOD PATIENT TAKES WORK: HOW TO FEEL EMPOWERED AT THE HOSPITAL

Time: 1:50

Duration: 12:59

Synopsis: We, as patients, are making more decisions about our health than ever before. From which brand of medicine we want to which supplements we take, a lot of the choices depend on being a smart consumer. Our expert reveals why this is a double-edged sword and how you can feel empowered walking into your next doctor's appointment.

Host: Elizabeth Westfield

Producer: Libby Foster

Guests: Dr. Talya Miron-Shatz, Visiting Researcher, University of Cambridge, Author, Your Life Depends On It

Compliance issues: Health Care, Medicine, Patient Safety, Social Media, Vulnerable Populations, Confirmation Bias, Medical Knowledge, Scientific Terminology, Telehealth

Links for more info:

[Talya Miron-Shatz, PhD - Visiting Researcher - University of Cambridge | LinkedIn](#)

SEGMENT 2: DOES A GOOD BEDSIDE MANNER SAVE LIVES?

Time: 15:50

Duration: 7:02

Synopsis: Dr. Wes Ely, an intensive care specialist, says the early days of his career were spent more worried about the beeps and buzzers rather than the patients that the machines were monitoring. He gives us a unique look into how physicians can humanize patients in the ICU and, in turn, save more lives.

Host: Greg Johnson

Producer: Polly Hansen

Guests: Dr. Wes Ely, Professor of Medicine, Associate Director of Aging Research, Vanderbilt University, Author, Every Deep-Drawn Breath

Compliance issues: Burnout, Consumerism, Covid-19, Empathy, Health Care, Healthcare, Pandemic, Patient Safety, Public Health, Vaccination, Bedside Manner, Intensive Care Unit

Program 24-02

Air Week: 1/14/2024

Air Time: 8:30am

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: 3D PRINTING ORGANS AND AI SURGERIES: THE FUTURE OF MEDICINE

Time: 1:48

Duration: 11:52

Synopsis: Dr. Thomas Kolon is using 3D-printed models to successfully operate on cases thought to be inoperable. Another physician brings AI into his surgeries to give patients the most accurate hip replacements possible. This is the future of medicine and our experts are here to explain it all.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Dr. George Haidukewych, Director of Orthopedic Trauma & Chief of Complex Joint Replacement, Orlando Health Jewett Orthopedic Institute; Dr. Thomas Kolon, Expert in Pediatric Disorders, Chief of Urology, Children's Hospital of Philadelphia

Compliance issues: 3D Printing, Artificial Intelligence, Cancer, Children At Risk, Consumerism, Medical Technology, Vulnerable Populations, Cancer Prevention, Childhood Cancers, Kidney

SEGMENT 2: NERVOUS NAIL-BITER? IT HARMS MORE THAN JUST AESTHETICS

Time: 14:42

Duration: 7:50

Synopsis: So many of us have experienced the compulsion to bite our nails. Even though it's a detriment to our wellbeing, we still do it – so why? Is it a product of our genetics or evolution? Our experts discuss where this impulse stems from and all the ways it harms our health.

Host: Greg Johnson

Producer: Morgan Kelly

Guests: Dr. Dana Stern, Assistant Clinical Professor of Dermatology, Mount Sinai Medical Center; Dr. Fred Penzel, Psychologist & Executive Director of Western Suffolk Psychological Services

Compliance issues: Bacteria, Consumerism, Evolution, Genetics, Public Health, Trauma, Bacterial Infection, Compulsions, Cuticles, Ecosystems, Habits, Hemorrhage, Nails, Oral Health

Program 24-03

Air Week: 1/21/2024

Air Time: 8:30am

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: MENTALLY ILL INMATES: SAFETY AND JUSTICE OR SUFFERING AND VENGEANCE?

Time: 1:47

Duration: 12:28

Synopsis: American prisons are full of people with mental illness, but does the system actually fulfill its promise of reform for these inmates? Dr. Christine Montross, a psychiatrist, says many of them aren't getting the correct help that will make a difference in their lives – and make our society a safer place when they're released. She breaks down the prison system and offers alternative programs to solve this crisis.

Host: Elizabeth Westfield

Producer: Reed Pence

Guests: Christine Montross, Associate Professor of Psychiatry and Human Behavior, Brown University

Compliance issues: Consumerism, Health Care, Healthcare, Incarceration, Mental Illness, Public Health, Public Policy, Public Safety, Community Care, Criminals, Health Policy, Jail, Mental Institutions, Prison, Psychosis

SEGMENT 2: DO YOU SUPPORT GIVING CHILDREN MENTAL HEALTH DAYS OFF OF SCHOOL?

Time: 15:17

Duration: 7:43

Synopsis: We're quick to pull our kids out of school when they're running a fever or throwing up, but what about when they've become burnt out or severely stressed? Just because we can't see the physical symptoms doesn't mean there isn't a problem. Dr. Andrea Bonior explains the benefits of giving your children mental health days and how to prepare them for future obstacles.

Host: Greg Johnson

Producer: Kristen Farrah

Guests: Dr. Andrea Bonior, Licensed Clinical Psychologist, Author

Compliance issues: Anxiety, Children At Risk, Consumerism, Coping Strategies, Depression, Mental Health, Public Health, Vulnerable Populations, Emotions, Sick Days, Stress

Production Manager: Jason Dickey

SEGMENT 1: EATING INVASIVE SPECIES: DOES YOUR DIET HELP THE ENVIRONMENT?

Time: 1:49

Duration: 10:53

Synopsis: Many people choose their diet based on what tastes good, but what if you could have great food while helping your local environment? Dr. Joe Roman, a conservation biologist, explains the dangers of invasive species and how we can do our part in saving the environment by strapping on an apron.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Dr. Joe Roman, Conservation Biologist, University of Vermont; Dr. Cindy Tam, Biological Threats and Invasive Species Research Program Coordinator, US Geological Survey

Compliance issues: Agriculture, Consumerism, Diet, Disease, Environment, Infrastructure, Invasive Species, Public Health, Public Safety, Virus, Farming, Habitats, Native Animals, Population Control

SEGMENT 2: MENTAL HEALTH IN THE MILITARY: STIGMAS, RESOURCES, AND ROADBLOCKS

Time: 13:44

Duration: 8:39

Synopsis: As a psychologist, Dr. Chuck Weber helped a lot of soldiers during his time in the military. However, limited resources held him back from being able to fully help the families of active-duty soldiers. He explains why this is such an important area of service and how he fought to prioritize mental health services.

Host: Greg Johnson

Producer: Kristen Farrah

Guests: Dr. Chuck Weber, Psychologist, Chief Medical Officer and Founder, Family Care Center

Compliance issues: Health Care, Healthcare, Mental Health, Military, PTSD, Psychology, Public Health, Public Safety, Veterans, Vulnerable Populations, Family Medicine, Military Families

**SEGMENT 1: WHAT IS A WOMAN WORTH? NEEDLESS DEATHS FROM A PREVENTABLE
CANCER**

Time: 1:48

Duration: 12:10

Synopsis: Cervical cancer is almost completely preventable, so why does it continue to kill thousands of women each year? Dr. Linda Eckert, an expert in cervical cancer prevention, believes the answer involves gender inequalities and sexual stigmas. She discusses these issues and offers life-saving prevention methods for women.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Dr. Linda Eckert, Professor of Obstetrics and Gynecology, University of Washington Department of Obstetrics and Gynecology and Global Health, Author, Enough

Compliance issues: Cancer, Consumerism, Gender Issues, Prevention, Vaccination, Vulnerable Populations, Cervical Cancer, Pre-cancer, Sexually Transmitted Infections, Women's Issues

**SEGMENT 2: BLACK ANGELS: THE BLACK NURSES INVOLVED IN THE FIGHT AGAINST
TUBERCULOSIS**

Time: 15:00

Duration: 7:59

Synopsis: Dr. Herbert Fox helped discover a cure for tuberculosis, but his work wouldn't have been possible without the help of the black nurses who monitored and cared for each patient. When all of the white nurses refused to work, these women stepped up. Our expert details their bravery that's gone largely unrecognized in society.

Host: Greg Johnson

Producer: Polly Hansen

Guests: Maria Smilios, Author, The Black Angels

Compliance issues: African American Issues, Consumerism, Health Care, Healthcare, Infectious Disease, Medical History, Mental Health, Patient Safety, Public Health, Black History Month, Vaccine

SEGMENT 1: “EAT TO SURVIVE”: WHY AMERICANS LACK PROPER EDUCATION ABOUT NUTRITION

Time: 1:48

Duration: 10:35

Synopsis: Many children in America are taught about nutrition through the USDA’s balanced food plate known as MyPlate. Unfortunately, these graphics don't accurately portray a proper (and realistic) diet, which leaves many people feeling confused and frustrated. Loni Love, a comedian, explains the obstacles she’s faced during her journey towards a healthier lifestyle.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Loni Love, Comedian, Television Host, Spokesperson, Metamucil; Dr. Christopher Gardner, Rehnborg Farquhar Professor of Medicine, Stanford University

Compliance issues: Cancer, Chronic Disease, Diabetes, Diet, Gut Microbiome, Immunity, Nutrition, Obesity, Public Health, Supplements, Fiber, Healthy Lifestyle, Heart Disease, Illness

SEGMENT 1: THERAPY FOR TWINS: THE MYTH OF THE 'PERFECT' TWIN CONNECTION

Time: 1:48

Duration: 11:28

Synopsis: Twins are thought to have a special bond – a built-in friend. But this idea can lead to resentment and harmful codependence if the two siblings never experience individuality. Dr. Joan A. Friedman, a twin expert, explains how parents can help foster a healthy relationship and treat their twins as separate children.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Dr. Joan A. Friedman, Psychotherapist & Twin Expert

Compliance issues: Education, Family Issues, Housing, Pregnancy, Psychology, Public Health, Public Safety, Relationships, Therapy, Individuality, Offspring, Self-esteem, Siblings, Twins

SEGMENT 2: WHY SCIENCE SAYS KIDS SHOULD STILL LEARN TO WRITE IN CURSIVE

Time: 14:18

Duration: 7:59

Synopsis: In the age of cell phones and laptops, is handwriting obsolete? Our experts say that there's still a great benefit for students to write their notes down with pen and paper. Even cursive has its benefits. They discuss the research that shows why elementary students should still know how to use pens and pencils.

Host: Greg Johnson

Producer: Libby Foster

Guests: Dr. Danny Oppenheimer, Professor of Decision Sciences, Carnegie Mellon University; Dr. Virginia Wise Berninger, Professor Emerita, University of Washington

Compliance issues: Education, Learning, Psychology, Public Health, Student Safety, Brain Imaging, Elementary School, Handwriting, Motor Movement, Productivity, Visual Stimuli

SEGMENT 1: HOW TO COMBAT MEDICAL IGNORANCE OF RARE DISEASES

Time: 1:48

Duration: 11:12

Synopsis: Having a rare disease means that not all doctors will know how to treat you. For Christyn Taylor's daughter, who was diagnosed with pediatric pancreatitis at age 7, this meant countless physicians who either didn't believe she had the condition or knew nothing about it – factors that continually worsened her illness. To help other families in similar situations, Taylor created a document that gives patients with rare diseases a credible back-up of medical history and current treatment plans when dealing with stubborn physicians.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Christyn Taylor, CEO, Rebecca's Wish; Lisa Morgan, Parent of Patient

Compliance issues: Chronic Conditions, Education, Healthcare, Patient Safety, Surgery, Vulnerable Populations, Hospitalization, Pain, Pancreatitis, Pediatric Illness, Rare Disease

SEGMENT 2: THE FEMALE GENIUSES THROUGHOUT HISTORY YOU NEED TO KNOW ABOUT

Time: 14:02

Duration: 9:04

Synopsis: If you're asked to name a genius, who do you think of? Albert Einstein or Galileo may come to mind, but there's a good chance you're forgetting the brilliant women who deserve a spot at this table. In honor of Women's History Month this March, our expert tells the stories of a few female geniuses whose accomplishments deserve greater recognition.

Host: Greg Johnson

Producer: Polly Hansen

Guests: Janice Kaplan, Author, The Genius of Women; Catherine Whitlock, Author, Ten Women Who Changed Science and the World

Compliance issues: Consumerism, Education, Gender Issues, History, Medical History, Politics, Public Health, Vulnerable Populations, Equality, Genius, Patriarchy, Women's History

SEGMENT 1: CULTURAL COMPETENCE: ADDRESSING RACIAL DISPARITIES IN HEALTHCARE

Time: 1:48

Duration: 13:01

Synopsis: Racial disparities have existed in medicine throughout history. Research is finally starting to not only recognize these inequalities but create actionable plans to close the gaps. Our guests discuss sectors of healthcare and disease where racial disparities continue to block minority populations from quality care.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Dr. Ladson Hinton, Professor and Director of Geriatric Psychiatry, University of California Davis School of Medicine; Dr. Toyin Nwafor, Infectious Disease Physician, Senior Medical Director for HIV Prevention, ViiV Healthcare

Compliance issues: Alzheimer's Disease, Discrimination, HIV, Infectious Disease, Patient Safety, Psychology, Public Health, Dementia, Minority Populations, Racial Disparities, Stigma

SEGMENT 2: GOT FOOT PROBLEMS? IT MAY BE A RARE BLOOD CANCER

Time: 15:51

Duration: 7:04

Synopsis: Gary Lenahan was diagnosed with polycythemia vera after nearly a decade of symptoms. It's a rare blood cancer that can sneak up on anyone – especially as we age. Dr. Brandi Reeves, a hematologist, explains the subtle warning signs and reveals treatment options that can help slow the disease progression.

Host: Greg Johnson

Producer: Kristen Farrah

Guests: Dr. Brandi Reeves, Hematologist, Assistant Professor of Medicine, University of North Carolina, Chapel Hill; Gary Lenahan, Patient

Compliance issues: Aging, Cancer, Chemotherapy, Consumerism, Geriatrics, Patient Safety, Public Health, Blood, Foot Health, Hiking, Medical Intervention, Skin Condition

SEGMENT 1: “THIS IS MEDIEVAL” – THE 24-YEAR-OLD WHO’S REINVENTING MEDICAL DEVICES

Time: 1:48

Duration: 11:12

Synopsis: During emergency bedside situations in the ICU, neurosurgeons often use manual cranial drills to break through a patient’s skull. It’s been the standard for years – but it’s not the best option. Casey Qadir, CEO of Hubly Surgical, has created a safer, more efficient drill for these operations. She explains the advantages of this new device and her experience as a female entrepreneur in a male-dominated space.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Dr. Matthew Potts, Neurosurgeon & Associate Professor of Neurological Surgery, Northwestern Feinberg School of Medicine; Casey Qadir, Co-Founder & CEO, Hubly Surgical

SEGMENT 2: KNOCKING ON DEATH’S DOOR: THE AT-HOME MEDICAL DEVICE THAT COULD SAVE LIVES

Time: 14:02

Duration: 8:23

Synopsis: Mark Opauszky knows exactly how important access to medical devices can be - even something as simple as a thermometer. After a near-death experience, Opauszky entered the medical technology industry to help give the public access to helpful tools at home. He discusses how his new phone application, Stethophone, can help patients be an active part of their own care team and stay on top of their health.

Host: Greg Johnson

Producer: Kristen Farrah

Guests: Mark Opauszky, CEO, Sparrow BioAcoustics

Compliance issues: Amputations, Infection, Medical Technology, Patient Safety, Preventive Medicine, Public Health, Technology, Trauma, Medical Applications, Medical Devices, Organ Failure, Septic Shock, Stethoscope

SEGMENT 2: KETAMINE REGULATIONS -- "WE DON'T WANT TO REPRODUCE THIS OPIOID PROBLEM"

Time: 13:59

Duration: 8:32

Synopsis: Ketamine is FDA-approved as an anesthetic, but it's now being used as a therapy to treat pain, depression, and addiction. However, many worry the rise of psychedelics will bring about a second iteration of the opioid crisis. Our expert shares the history of ketamine and how he believes it should be regulated to lessen the risk of addiction.

Host: Greg Johnson

Producer: Kristen Farrah

Guests: Dr. Howard Kornfeld, Pain Management & Addiction Specialist, Founder & Medical Director, Recovery Without Walls

Compliance issues: Ketamine, Opioids, Addiction, Patient Safety, Public Safety, Pain Management, Opioid Crisis, Psychedelics, Therapy, Hallucinations, Consumerism, Federal Drug Regulations
