Re: Grant of Petition for Reconsideration
FRN: 0029883329

The license(s) or license component(s) listed below were granted with a construction deadline for the system, location, or frequency. Our records indicated, however, that we did not receive the Required Notification of Construction or a Request for an Extension of Time for the license(s) or license component(s) in a timely manner. As a result, the Commission's Universal Licensing System (ULS) placed the license(s) or license component(s) in "Termination Pending" status and a Weekly Termination Pending Public Notice was issued on April 17, 2024 listing the license(s) or license component(s) in termination pending status.

On April 24, 2024, we received a petition for reconsideration demonstrating that the license(s) or license component(s) listed below were timely constructed. Accordingly, pursuant to Sections 4(i) and 405 of the Communications Act, as amended, 47 U.S.C. §§ 154(i), 405, and Sections 0.331 and 1.106 of the Commission's rules, 47 C.F.R. §§ 0.331, 1.106, we grant the petition filed by Shake Broadcasting, LLC on April 24, 2024. By grant of this petition, the "Termination Pending" status for the license(s) or license component(s) listed below will be removed and returned to "Active" status and the associated construction notification dates will be updated in ULS.
