The Issues Programs Reports for Q4 2021 were submitted on time, but were not able to be uploaded to the FCC online Public Inspection File due to a problem with the FCC system. Each time the reports were submitted we received a message saying the FCC upload had failed. Please see the attached notifications and tracking number from the FCC Help Desk beginning January 5 as they worked to resolve this issue. It took them several weeks to resolve the problem and we continued to call and keep in touch with the FCC throughout the process. This explains the date of submission for these reports.
