About a week ago, a man started giving her attention and it felt nice to feel special again. She cheated. She said by cheating with this man she realized how bad her relationship was. She said she doesn't know how to get out, it will be like a divorce and she lives with him. Dawson said it's not going to be easy. It is like going through a divorce but your relationship is already dead. You cheated on him to get your needs met but also out of anger. You need to tell him that the relationship is over.</p>
