

**Statement Regarding Consolidated EEO Public File Report Filing Date for  
Station WWSI, Atlantic City, NJ (Facility ID No. 23142)**

On July 1, 2013, the license of Station WWSI, Atlantic City, NJ, was assigned to NBC Telemundo License LLC pursuant to prior Commission consent. WWSI is co-located and commonly owned with Station WCAU, Philadelphia, PA. Both stations are assigned to the Philadelphia Designated Market Area and comprise an employment unit for purposes of the FCC's EEO rules. EEO public file reports for stations located in New Jersey are required to be posted on the stations' websites and uploaded to their online public inspection files annually on February 1, while EEO public file reports for stations located in Pennsylvania are required to be filed annually by April 1. This serves as notice that, as long as WWSI and WCAU comprise a single employment unit, the annual EEO public file report for WWSI will be posted and uploaded on April 1, rather than February 1.
