Re: IHM Licenses, LLC (IHM)  
WNDE(AM), Indianapolis, IN  
Fac. ID No.: 59591  
Special Temporary Authority (STA)  
LMS File No.: 0000243923

Dear Mr. Langham:

This is in reference to the request filed on April 25, 2024. IHM requests a further extension of the STA granted on April 6, 2021, to continue ND operation at night with reduced power to allow time to complete all remaining repairs to the nighttime antenna system.<sup>1</sup> In support of the request, IHM stated that another failed component has been identified and should be replaced in the upcoming weeks in order to move forward towards restoration of licensed operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is **HEREBY GRANTED**, and IHM may continue to operate ND at night with a maximum of 1.25 kW using the daytime tower, with no change to the licensed daytime 5 kW operation. IHM must reduce the nighttime power level or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. IHM must file an electronic Restoration of Licensed Operations notice in LMS to certify the date the station resumed licensed operations per BZ-

---

<sup>1</sup> WNDE(AM) is licensed for operation on 1260 kHz with 5 kW daytime (ND) and nighttime (DA).

20020726ABZ with negligible changes, or file a 302-AM application to update all engineering parameters to verify the station is operating properly.

This authority expires on **November 2, 2024.**<sup>2</sup>

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large loop at the beginning and a long tail at the end.

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau

---

<sup>2</sup>Periods of operation pursuant to this STA shall be recorded in the station's records (see 47 CFR § 73.1820). The records shall include start/stop dates and times of such operation. These log entries must be maintained for a minimum of two years as specified in 47 CFR § 73.1840(a), unless a longer retention period is requested by the staff. Periods of operation may be subject to independent verification that they in fact occurred.
