Facility Number: 41212

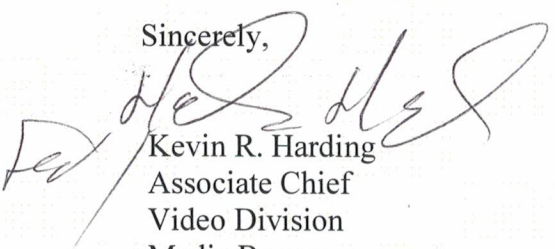

Dear Licensee:

This refers to your request dated November 21, 2018, requesting special temporary authority (STA) to operate at variance. You indicate that the purpose of this STA application is to allow the KASN-DT facility to operate at reduced power on its post-transition channel (34) using a side-mounted directional interim antenna (TUA-P4-4/10U-1 SM) while the new post-transition main antenna is installed. You mentioned that the proposed KASN temporary facility at reduced operation will completely encompass its community of license and will not exceed its licensed pre-transition protected noise limited contour in any azimuthal direction.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on May 27, 2019.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding
