Education	Closer Look	7/25/21	7:00pm	15min	'Dare To Dream' School Assemblies Ignite Hope In Tweens, Teens If you're committed to helping kids grab their God-given potential, Randy Rich says first you have to find them. "And where do kids meet in the largest numbers in a mandatory setting? School!" Randy is a former NFL defensive back and vice president of Air1's Dare To Dream. "And guess what? Schools are required to have a certain amount of assemblies during the course of a year to encourage their students!" The D2D motivational program does visit high schools but sees greatest success among kids slightly younger. "By the time a student reaches 8th grade a little over 80% of their value system in place – meaning the way they look at morality, sexuality, integrity – so where are we focusing our intention with Dare to Dream? Middle School." Various artists, musicians and pro-athletes take the mic to share their own struggles to believe and achieve. Kids hear Christian music artists like Lauren Daigle and Toby Mac on videos to kick off each session. The assemblies are not evangelistic, but principals and teachers are fully aware that Dare To Dream is sponsored by Christian radio network Air1. Air1 - Worship Now is owned by Educational Media Foundation (EMF) and is a sister to the K-LOVE Radio Network.

Technology – Childhood Safety	Closer Look	7/25/21	7:15pm	15min	<p>Young Children Give Out Phone Numbers, Chat with Strangers Online</p> <p>“Technology scares us most of the time,” admits Patrick Craven, director of the Center for Cyber Safety and Education, “and our kids are involved in it.” The Center focuses on building awareness of ever-present threats like identity theft and online predators. Surveys of youth and their online habits are alarming. “I gotta tell you,” says Craven. “It was pretty shocking – just frightening.” The realities of internet missteps by younger and younger children exposes an urgent need to teach kids how to spot and report suspicious activity. “A child gets a phone now on average by 10-yrs-old. We can’t wait till they’re in middle school or high school.” The shift to distance-learning during the COVID-19 pandemic added a new dimension to the risk, as kids were mandated to spend even more unsupervised time online. Increased cyber connection with your child’s school also increased family exposure to ID thieves and potential financial ruin as emails that appear to be from teachers could actually be phishing scams. “Schools for a long time didn’t really think they were susceptible to that because they didn’t feel like they had anything anybody wanted – but they have a lot – they have lots of personal information on those children.” Savvy criminals have turned to setting up fake credit card accounts using a child’s social security number because they know it will be literally years before the theft is even discovered. “There’s been lots of cases where children have had bankruptcy because where loans were taken out in their name.” Protective apps, strong passwords, discretion on social media posts and direct parental supervision remain crucial to preventing such events, but Craven says there is no substitute talking to kids about how to protect themselves from digital threats.</p>

Mental Health	KLOVE's Positive People News Podcast with on-air 60sec promo for podcast	July 2021	4 per wk, 16 total	60sec Podcast 13.57min	<p>Could Sharing A Pizza Prevent A Suicide?</p> <p>Physician Matthew Sleeth has seen most every situation that requires an emergency room visit, including people who have tried to take their own lives. He believes that we are now experiencing a "culture of suicide," explaining, "Over the next year, 10-million Americans will seriously struggle with whether or not to end their lives. Of those 10-million, 1.5-million will actually end up in emergency departments being treated for depression or suicide attempts. And we lose one person about every ten minutes in the United States to that." Besides churches coming alongside, Dr. Sleeth believes individual Christians can also make a definite difference in the life of someone struggling with dark thoughts and hopelessness. You know, you can go to a church and feel isolated, but when somebody says, 'Hey, how about coming with me to get pizza or coming to my house for a meal,' that's a very powerful invitation." In his book, "Hope Always: How to Be a Force for Life in a Culture of Suicide," Dr. Sleeth writes. "Note that the root of "hospitality" and "hospital" are the same; hospitality heals!"</p>
Domestic Violence – Special Needs	KLOVE's Positive People News Podcast with on-air 60sec promo for podcast	July 2021	4 per wk, 16 total	60sec Podcast 12.58min	<p>Not Discouraged by Her Blindness, Hannah Intends to Help People Facing Domestic Violence</p> <p>Hannah Abel's inability to do certain things independently leads her to "want to help others ... and I love just working with people and helping them get to a better spot than the one they're in." That's why, although she's legally blind, Hannah refuses to allow her eyesight to stop her from pursuing her goal of becoming a licensed social worker, with a focus on domestic violence. In one of her first classes at Cedarville University, she went to a domestic violence shelter and saw the sensitive ministry taking place, "and I just learned about abuse in general and it really laid heavy on my heart." Once she graduates, Hannah knows prayer will be an essential part of every workday. "I could not see myself going in to work at a domestic violence shelter - even a day - without just praying through the entire day because it takes a lot of endurance and I'm going to see some very hard things and I'm going to have to learn how to handle them – and I think just going to the Lord in prayer is going to be so helpful and encouraging," she shares. Concerning her vision, at age 9 Hannah was diagnosed with Stargardt macular degeneration. When I asked, "So you've not let this hold you back?" Hannah's answer was quick and direct. "No," and then she added, "I don't see the point in letting it hold me back ... It's not debilitating. Like, I can still live my life. It just takes adjustment. Now approaching age 21, she points out that she's lived more than half her life with the vision situation, so it "just is normal" for her.</p>

AppHarvest CEO Jonathan Webb describes what's inside the high-tech containers. "There's LED lights and sensors and software, and the students can operate the farm with an iPhone and iPad. And what we're really trying to do is inspire the next generation to get into agriculture and be excited about farming. Faith	KLOVE's Positive People News Podcast with on-air 60sec promo for podcast	July 2021	4 per wk, 16 total	60sec Podcast 16.53min	Youth Pastor's Summer Bible Idea Keeps Students from Leaving the Faith Youth Pastor Will Standridge from Amarillo, Texas was worried too many students were leaving the Christian faith. So, he challenged them to read, or 'shred' the Bible in 66 days over-the-summer and build a stronger relationship with Jesus. "Once young people lose that original interest in Christ, it takes a lot to bring them back into the fold," says Pastor Will. He believes not getting the right answers to their questions can lead students to quitting their faith all together. Pastor Will says if they can instill in young people a faith in God's inerrant inspired Word and the Gospel that's contained in there, they're setting students up to be able to deal with any situation that that comes their way in life. And his efforts are paying off. At least 30 young people have taken up the challenge, and a chance to grow deeper in their faith with God.

Incarceration – Ministry	Closer Look	8/8/21	7:00pm	30min	<p>Jail to Jobs, Prison Fellowship 'Remembers Those In Prison'</p> <p>The Bible's book of Hebrews calls Christians to "remember those in prison." Today, in the United States more than 2-million men and women are behind bars. Even more striking, 2 out of 3 prisoners, when they get out, will re-offend and go right back in. Christ-centered ministries like Prison Fellowship and Jail To Jobs Austin break into that hopelessness with practical and spiritual reform. Hip-hop artist Lecrae partners with Prison Fellowship, performing concerts in select prisons, speaking and encouraging inmates to embrace a second chance at life. In Austin, Christian-based program called Jail to Jobs is another example of a restorative approach, successfully redirecting teenagers caught breaking the law. As the name implies, the ministry goes into juvenile halls and offers young men and women a chance to show up on a jobsite and learn a trade when they are released. "If we can get them to us, and mentor them and teach the word of God," says Jeremias Cooper, JTJ Travis County director, "then we can start making some changes in their lives."</p>

She is already an established triathlon competitor, with gold, silver, and bronze medals. Her typical training day sounds grueling, but she’s up for it. Sometimes a body wakes up, feels great – but my mind’s not really there. Other times, my mind’s there, I’m ready to kill a workout and my legs won’t really follow.” Keeping herself in synch, Grace says recovery from the demanding training is important, “but that also means taking time for myself.”
