The Taylorville City Council met on Tuesday evening. They honored Alivia Foraker as Youth of the Month. Alivia won 3 gold medals in the US Trampoline and Tumbling Association National Championship in Rochester, Minnesota. The board rescinded the ordinance and voted in favor of allowing designated drive-up facilities for the sale and delivery of alcoholic beverages in their original unopened containers, but it didn't come without discussion. Aldermen Larry Budd and Kathy Driskell spoke out against bringing this back up, after it had already been voted "no" the previous board meeting.

BUDD1

A contentious city council meeting in Taylorville saw a little bit of a standoff between some Aldermen and Taylorville Mayor Bruce Barry on Monday evening. The issue at hand was trees on Pawnee Street that needed to be removed. Aldermen Kathy Driskell asked Taylorville Mayor Bruce Barry why they were voting on something after trees had already been removed. Mayor Barry said that it was about safety. The wish from Mayor Barry was to take funds from Ward 5 which is the emergency fund money as opposed to Ward 1 funds to remove the trees and to fix the sidewalk.

Heat stroke which happens when the body isn't able to cool itself quickly enough is the leading cause of non-crash, vehicle related deaths in children under 15 and more studies have been done like this from the injury prevention advocacy group, Safe Kids Worldwide.

When left in a hot car, a child's major organs begin to shut down when their internal temperature reaches 104 degrees. The Christian County Health Department has noticed a slight uptick in the positivity rate in Christian County, but at this point are not looking to cancel any functions, tighten restrictions for schools, or make a mask mandate necessary again.

Marcie May, with the CCHD, spoke to Regional Radio News and said that the positivity rate has gone up, but not in senior citizens, as they are the most vaccinated group in the county. She said the positivity rate has increased in the younger population more. No events have been canceled from the health department, they are asking you to take precautions. Wear a mask if you aren't vaccinated or if you feel unsafe, and practice social distancing as best you can when in larger groups.

As of Monday, there were 18 new cases of COVID-19 with 6 currently in the hospital. There have been nearly 23,000 vaccines administered and the positivity rate for Christian County is sitting at 6.2%. The health department would like it to be at under 5%.

There are many great reasons to ride a bike. Riding a bike helps you stay fit, helps strengthen your muscles and bones, prevents disease, and supports mental health by decreasing stress. Riding a bike can also pose some risks as can all physical activity, so it's important to stay safe when riding.

According to the National Center for Health Statistics, 1089 bicyclists died in 2019. More than 700 of those were involved in motor vehicle crashes. Dr. Bill Walsh, Chief Medical Officer for OSF Healthcare in Evergreen Park says head injuries are the most serious injury you can get riding bike so you should always wear a helmet. .

A new state law that has been signed by Governor JB Pritzker will protect children with severe allergies. The measure requires the Illinois State Board of Education and public health officials to come up with a comprehensive guideline for preventing and handling an allergic reaction in school children. This will also apply to daycares. Illinois Department of Children and Family Services Deputy Director Bill McCaffrey says that parents deserve to know that their children are taken care of.
