Did Texas execute an innocent man? Several controversial death penalty cases are currently under examination in Texas and in other states, but it's the 2004 execution of Cameron Todd Willingham — convicted for the arson deaths of his three young children — that's now at the center of the national debate. With unique access to those closest to the case, FRONTLINE examines the Willingham conviction in light of new science that raises doubts about whether the fire at the center of the case was really arson at all. The film meticulously examines the evidence used to convict Willingham, provides an in-depth portrait of those most impacted by the case and explores the explosive implications of the execution of a possibly innocent man.

Leonardo da Vinci is well known for his inventions as well as his art. New evidence shows that many of his ideas were realized long before he sketched them out in his notebooks- some even 1,700 years before him! Of these "inventions" da Vinci never affirmed that his projects came from his original ideas. This film features drawings of his most famous ideas and inventions, some of which trace their original creation to ancient Greece while others were a product of the scientific inventions of golden age of Islamic learning. This knowledge seemed to be lost in Europe during the Dark Ages until the Renaissance when da Vinci recovered it.

Our cameras continue to follow the wildlife dramas in Yellowstone, and Spring brings many new challenges. Whilst the brutal cold temperatures and deep snow of winter have gone, the weather is still erratic and there's the impending danger of the Thaw. When temperatures are high enough to melt the snowpack, millions of tonnes of water will cascade down the mountain, bulldozing everything in its path. Wildlife cameraman Jeff Hogan discovers a nest of Great Gray owls. There are three chicks, but one is a runt, significantly smaller than its siblings and at risk of starvation. And when the worst storms for years hit the Beartooth Mountains, Jeff wonders whether it can hang on. Down on the Snake River the family of beavers is busy making the most of the Spring vegetation. Infra red cameras give Jeff and host Kirk Johnson a secret view of life inside the lodge, as the beavers squabble over food. Kirk also dons a dry suit to head underwater to admire the engineering skills of these rodents. Massive boulders and branches are there to strengthen their dams, but will they be enough to withstand the Thaw. When the torrent of water begins to hit, Kirk joins a hydrologist to help measure the water flow
