Program 22-27

Air Week: 7/3/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: ORPHAN DISEASE RESEARCH: OVERCOMING YEARS OF INDUSTRYWIDE NEGLECT

Time: 1:50

Duration: 12:30

Synopsis: Doctors diagnosed Patrick Girondi's son with thalassemia in 1992, declaring he'd die by age 14. Like most other rare conditions, treatments for thalassemia were slim to none. Dr. Stanley Nelson explains how orphan disease research has progressed in the last few decades and why a cure isn't always the goal.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Dr. Stanley Nelson, Professor of Human Genetics, UCLA, Director of the California Center for Rare Diseases, UCLA; Patrick Girondi, Author of Flight of the Rondone, Founder, San Rocco Therapeutics

Compliance issues: Rare Diseases, Vulnerable populations, Genetic Diseases, Public Health, State and Federal Regulations, Experimental Medication, Consumerism, Human Genetics, Pharmaceutical Industry, FDA Regulations, Rare Disease Research, Genetics

Links for more info:

– Skyhorse Publishing

SEGMENT 2: HOW JUST ONE NIGHT IN A HOSPITAL CAN CAUSE YEARS OF TRAUMA

Time: 15:22

Duration: 7:11

Synopsis: Research has shown that hospitalized adolescents can walk away physically healthy, but years later, are still dealing with symptoms of post-traumatic stress from their experience. Dr. Justin Kenardy discusses the signs of post-traumatic stress and preventive measures both parents and medical professionals can utilize.

Host: Nancy Benson

Producer: Kristen Farrah

Guests: Dr. Justin Kenardy, Professor Emeritus, School of Psychology, University of Queensland

Compliance issues: Patient Safety, Long-term Trauma, Children and Youth at Risk, Hospital Stays, Mental Health, Post Traumatic Stress Disorder

Links for more info:

– Pediatric Critical Care Medicine

Program 22-28

Air Week: 7/10/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: HOW CLICKBAIT HEADLINES GAVE FALSE HOPE TO SIDS FAMILIES

Time: 1:51

Duration: 13:03

Synopsis: Sudden Infant Death Syndrome has baffled the scientific community for years. What causes the condition is still unknown, though media headlines for a recent SIDS study would make you think differently. Dr. Fern Hauck explains the confusion and where SIDS research stands today.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Dr. Fern Hauck, SIDS Researcher, Professor of Family Medicine and Public Health Sciences, University of Virginia; Nadine Freedline, Mother

Compliance issues: Public Health, Health Care, Parenting, Family Issues, Safe Sleeping, Child Safety, SIDS, Public Safety, Children and Youth at Risk

Links for more info:

SEGMENT 2: HOW HAS COVID-19 SHAPED THE PUBLIC RESPONSE TO MONKEYPOX?

Time: 15:56

Duration: 6:59

Synopsis: An outbreak of monkeypox, a viral disease, has popped up in numerous countries around the world. Public health agencies have issued safety recommendations, but with growing mistrust in these institutions, will anyone heed the advice? An expert discusses how the pandemic helped foster this rocky relationship.

Host: Nancy Benson

Producer: Grace Galante

Guests: Dr. William Schaffner, Professor of Preventive Medicine and Infectious Diseases, Vanderbilt University Medical Center

Compliance issues: Health Care, Infectious Disease, Emergency Preparedness, Monkeypox, Vaccination, Public Safety, Covid-19 Pandemic, State and Federal Regulations, Public Health

Links for more info:

Program 22-29

Air Week: 7/17/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: FOREVER SMALL: MUSCLE DYSMORPHIA'S PLACE IN BODYBUILDING CULTURE

Time: 1:50

Duration: 11:35

Synopsis: Bodybuilding is a sport that requires athletes to constantly monitor their physiques. This fixation can often develop into a subtype of body dysmorphic disorder called muscle dysmorphia. Dr. Roberto Olivardia explains how the condition fits into the culture of bodybuilding.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Roberto Olivardia, Lecturer, Department of Psychiatry, Harvard Medical School, Clinical Psychologist, McLean Hospital

Compliance issues: Mental Illness, Public Health, Eating Disorders, Mental Health, Social Media, Consumerism, Sports and Society, Diet and Nutrition, Body Dysmorphia, Public Safety

Links for more info:

Program 22-29

Air Week: 7/17/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 2: WHY ARE MEN SKIPPING THEIR ANNUAL CHECKUPS?

Time: 14:26

Duration: 8:15

Synopsis: A recent survey by Orlando Health finds that many men overestimate how healthy they are, prompting one-third of them to skip their annual health screening. Dr. Thomas Kelley addresses common fears that keep men away from the doctor's office, and why annual checkups are crucial to overall health management.

Host: Nancy Benson

Producer: Kristen Farrah

Guests: Dr. Thomas Kelley, Family Medicine Physician, Orlando Health Physician Associates; Dexter Grant, male patient

Compliance issues: Public Safety, Health Screenings, Public Health, Health Care, Patient Safety, Prevention, Gender Issues, Annual Checkups

Links for more info:

Program 22-30

Air Week: 7/24/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: "IT'S LIKE LOSING A BODY PART": WHY ALOPECIA IS MORE THAN JUST HAIR LOSS

Time: 1:49

Duration: 12:09

Synopsis: Alopecia is an autoimmune disease that can lead to a partial or complete loss of hair. While the condition appears to be purely cosmetic, we speak with one patient, Deirdre Nero, about how it can lead to a plethora of physical problems and can greatly affect daily life. Dr. Brett King, a dermatologist at Yale University, explains how one new FDA-approved treatment is the first systemic therapy for severe alopecia.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Dr. Brett King, Associate Professor of Dermatology, Yale University; Deirdre Nero, Secretary of the Board of Directors, National Alopecia Areata Foundation, Alopecia Patient

Compliance issues: Vulnerable populations, Health Care, Medication, Autoimmune Diseases

Links for more info:

SEGMENT 2: ENDING THE EPIDEMIC: LIFE-SAVING TREATMENT FOR HIV

Time: 15:00

Duration: 7:37

Synopsis: For many years, an HIV diagnosis was thought to be a death sentence. Although this is no longer the case, many affected individuals still face barriers to receiving treatment. Dr. Timothy Harrison, a deputy director at the U.S. Department of Health and Human Services, explains the still-persistent social stigma and how government entities are increasing access to HIV care.

Host: Nancy Benson

Producer: Grace Galante

Guests: Dr. Timothy Harrison, Deputy Director of Strategic Initiatives, U.S. Department of Health and Human Services, Senior Policy Advisor, U.S. Department of Health and Human Services; Joey Garcia, HIV Peer Support Specialist, Ashwell Sexual Health + Wellness, Austin, TX

Compliance issues: Local Government, Prevention, Infectious Disease, Public Safety, Sex Education, Public Health, Federal and State Government, Health Care, HIV/AIDS, Vulnerable populations, Discrimination

Links for more info:

Program 22-31

Air Week: 7/31/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: STRANGER THAN FICTION: USING ELECTRONIC TATTOOS TO MONITOR HEALTH

Time: 1:50

Duration: 11:50

Synopsis: Scientists are bringing temporary tattoos into the medical realm using nanotechnology. Electronic tattoos are patches placed on a patient's skin that will be able to both monitor and treat their specific condition. Dr. Aaron Franklin discusses how this technology will revolutionize patient care.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Dr. Aaron Franklin, Professor of Electrical and Computer Engineering, Duke University; Dr. Roozbeh Jafari, Professor of Biomedical Engineering, Texas A&M University

Compliance issues: Patient Safety, Technology, Theragnostics, Consumerism, Nanotechnology, Health Care

Links for more info:

SEGMENT 2: WHY BEATING CANCER DOESN'T MEAN THE BATTLE'S OVER

Time: 14:41

Duration: 7:47

Synopsis: Cancer treatments like radiation or chemotherapy elevate a patient's risk of fatal heart disease, even decades after beating the cancer itself. Fortunately, a new medical discipline called cardio-oncology is working to reduce this heart damage in cancer patients. An expert explains how this new role fits into cancer care.

Host: Nancy Benson

Producer: Grace Galante

Guests: Dr. Chris Fine, FACC Cardio-Oncologist, National Jewish Health and Intermountain Healthcare

Compliance issues: Cardiology, Chemotherapy, Cardio-oncology, Patient Safety, Oncology, Cancer, Multidisciplinary Care, Radiation, Fatal Heart Disease

Links for more info:

Program 22-32

Air Week: 8/7/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: HOW MERCURY'S INVADING OUR AIR, WATER AND FOOD

Time: 1:50

Duration: 11:20

Synopsis: It's no secret mercury can harm our health, so why are dangerous exposures still prevalent? Well, it might be due to the unexpected contacts many people don't know about. Dr. Charles Driscoll explains how mercury's invaded all parts of our lives, and the government's erratic policies surrounding the element.

Host: Reed Pence

Producer: Grace Galante

Guests: Dr. Charles Driscoll, Professor in the Department of Civil and Environmental Engineering, Syracuse University; Dr. Michael Gochfeld, Professor Emeritus of Biomedical and Health Sciences, Rutgers University

Compliance issues: Food Safety, Vulnerable populations, Air Pollution, Skin Cancer, Environment, Federal Regulations, Public Health, Mining, Water Pollution, Federal Government, Mercury Poisoning

Links for more info:

SEGMENT 2: MIND OVER MATTER: HOW SCIENCE IS UTILIZING THE PLACEBO EFFECT

Time: 14:12

Duration: 8:21

Synopsis: Though the placebo effect has been the downfall of much research, one scientist aims to change that. Dr. Emiliano Santarnecchi hopes to use it as a supplemental therapy to medicinal treatments. He discusses the potential applications, as well as the ethical dilemma behind this idea.

Host: Nancy Benson

Producer: Grace Galante

Guests: Dr. Emiliano Santarnecchi, Associate Professor of Radiology, Harvard Medical School, Research Director, Massachusetts General Hospital

Compliance issues: Health Care, Psychology, Neuroscience, Patient Safety, Ethics, Consumerism

Links for more info:

Program 22-33

Air Week: 8/14/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: WHAT YOU SHOULD KNOW ABOUT INGESTING MICROPLASTICS

Time: 1:50

Duration: 11:54

Synopsis: When broken down, plastic products create tiny particles called microplastics. These nearly invisible specks seep into our water, air, and have recently been found inside our bodies. Experts discuss how we ingest microplastics, and what potential effects they may have on our health.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Dr. Phoebe Stapleton, Assistant Professor, Department of Pharmacology and Toxicology, Rutgers University; Dr. Laura Sadofsky, Senior Lecturer, Respiratory Medicine, Hull York Medical School

Compliance issues: Pollution, Water Pollution, Environment, Public Safety, Public Health, Food Safety, Microplastic, Consumerism, Drinking Water Safety, Plastic, Air Pollution

Links for more info:

SEGMENT 2: FIRST RESPONDERS HAVE A NEW ROBOTIC SIDEKICK

Time: 14:46

Duration: 7:42

Synopsis: While the public safety industry has slowly evolved, entrepreneur Doron Kempel says there hasn't been a large push for innovation in recent years. Kempel founded Bond – a private security company that's betting big on drones working alongside first responders in emergency situations. He explains how these robots can advance the field by improving response times, providing more on-scene information through video, and more.

Host: Nancy Benson

Producer: Kristen Farrah

Guests: Doron Kempel, Founder, Bond

Compliance issues: First Responders, Private Security, Public Safety, Drones, Surveillance, Public Health, Technology, Emergency Services, Robots, Public Security

Links for more info:

Program 22-34

Air Week: 8/21/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: 988: THE NEW NUMBER FOR SUICIDE AND CRISIS PREVENTION

Time: 1:50

Duration: 11:32

Synopsis: In many households, mental health isn't talked about until it's too late. Fortunately, the Substance Abuse and Mental Health Services Administration created a suicide and crisis hotline in 2005 to help those struggling. This year, the ten-digit number was changed to just three: 988. Experts explain how this change will help increase awareness and access to prevention resources.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Colleen Carr, Director, National Action Alliance for Suicide Prevention; Eileen Davis, Vice President, Mass 211, Director, Call2Talk

Compliance issues: Public Safety, Public Health, Mental Health, Emergency Preparedness, Consumerism, Vulnerable populations, Mental Health Awareness, Prevention, Crisis, Suicide

Links for more info:

SEGMENT 2: THE TATTOOS THAT GIVE BREAST CANCER SURVIVORS THEIR IDENTITY BACK

Time: 14:34

Duration: 8:11

Synopsis: Tattoos can be a sign of expression, but for survivors of breast cancer, the art means something different. Areola restoration is a subset of medical tattooing – an advanced form of cosmetic tattooing. It can provide a sense of closure for the women who've battled cancer and undergone mastectomies. Shana Irish discusses how medical tattooing can help these women finally feel comfortable in their own skin.

Host: Nancy Benson

Producer: Kristen Farrah

Guests: Shana Irish, Licensed and Certified Permanent Makeup Artist and Medical Tattooist, Owner, Skyn Studio

Compliance issues: Mastectomy, Vulnerable populations, Cancer Survivors, Patient Safety, Medical Tattooing, Mental Health, Scar Therapy, Areola Restoration, Breast Cancer

Links for more info:

Program 22-35

Air Week: 8/28/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: OFFSHORING MEDICATION: WHERE ARE YOUR GENERIC DRUGS BEING MADE?

Time: 1:50

Duration: 12:44

Synopsis: According to Georgetown University's Health Policy Institute, 66% of all U.S. adults use prescription drugs – and a majority of those are generic. So why don't we know where these products are made? Dr. Rena Conti shares non-public data to show where much of the medication Americans ingest every day are manufactured.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Dr. Rena Conti, Associate Professor of Markets, Public Policy, and Law, Questrom School of Business, Boston University

Compliance issues: Trade Secret, Waste Disposal and Landfills, Generic Drugs, Patient Safety, Prescription Medication, Ethics, Public Health, Pharmaceutical Industry, Consumerism

Links for more info:

SEGMENT 2: WHY CHEMOTHERAPY MAY NOT ALWAYS BE THE BEST OPTION

Time: 15:36

Duration: 7:05

Synopsis: Cancer is a ruthless disease, which is why the traditional treatment methods are so aggressive. But does everyone need chemo? Dr. Jeanne Tie doesn't think so. She's created a blood test that determines whether chemotherapy is necessary for patients living with colon cancer.

Host: Nancy Benson

Producer: Grace Galante

Guests: Dr. Jeanne Tie, Medical Oncologist, Peter MacCallum Cancer Centre; Sabrina Rojas, Stage Four Colon Cancer Patient

Compliance issues: Precision Medicine, Rare Conditions, Colon Cancer, Cancer Treatment, Patient Safety, Cancer Survivors, Chemotherapy, Colorectal Cancer

Links for more info:

Program 22-36

Air Week: 9/4/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: PARASOCIAL RELATIONSHIPS: HOW CELEBRITIES INFLUENCE YOUR DECISIONS

Time: 1:50

Duration: 11:39

Synopsis: If you've ever felt connected to a movie star or celebrity, you've experienced a parasocial relationship. This one-sided connection gives the celebrity influence over your daily decision making and creates a feeling of friendship with someone you've never met. An expert explains both the benefits and drawbacks of parasocial relationships.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Bradley Bond, Associate Professor of Communications, University of San Diego; Victoria Paris, Social Media Influencer

Compliance issues: Mental Health, Consumerism, Interpersonal Relationships, Psychology, Social Media, Relationships, Public Safety, Technology

Links for more info:

SEGMENT 2: ENDING THE TRIAL AND ERROR TREATMENT METHOD FOR RHEUMATOID ARTHRITIS

Time: 14:31

Duration: 8:39

Synopsis: Many patients with rheumatoid arthritis are forced to try numerous, expensive medications until they find one that works. Fortunately, Scipher Medicine's new blood test offers a precision approach, discovering what medication will work the first time. Dr. Sam Asgarian discusses how the blood test works and how it's helping to change the future of autoimmune disease treatment.

Host: Nancy Benson

Producer: Kristen Farrah

Guests: Dr. Sam Asgarian, Chief Medical Officer, Scipher Medicine; Emma Larson, Rheumatoid Arthritis Patient

Compliance issues: Autoimmune Diseases, Precision Medicine, Molecular Testing, Genetics, Rheumatoid Arthritis, Vulnerable populations, Trial and Error Medicine, Patient Safety, Consumerism

Links for more info:

Program 22-37

Air Week: 9/11/2022

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: IT'S ALL IN YOUR HEAD: THE SCIENCE BEHIND EMOTIONAL INTELLIGENCE

Time: 1:50

Duration: 12:33

Synopsis: The field of emotion research is flooded with more opinions than facts, however, one main theory says our emotions are an instant response to the world around us. But does that mean we have no control? Two experts discuss the role of emotions and how you can foster your emotional intelligence.

Host: Reed Pence

Producer: Kristen Farrah

Guests: Andrew Ortony, Professor Emeritus of Psychology, Education, and Computer Science, Northwestern University; Nadine Levitt, Author, Founder, Wurrly, LLC, Founder, Inspired Education Inc

Compliance issues: Parenting, Emotion, Education, Public Health, Consumerism, Neurology, Child Psychology, Psychology, Emotional Intelligence

Links for more info:

SEGMENT 2: THE UNCLAIMED BODIES OF AMERICA

Time: 15:25

Duration: 7:19

Synopsis: Funerals happen nearly every day and are typically organized and paid for by loved ones. But what happens to the bodies that are never claimed? Dr. Pamela Prickett explains how states handle the dead who are left without any relatives or loved ones to bury them.

Host: Nancy Benson

Producer: Kristen Farrah

Guests: Dr. Pamela Prickett, Assistant Professor of Sociology, University of Amsterdam

Compliance issues: State Government and Legislation, Funerals, Vulnerable populations, Cremation, Homelessness, Death, Gender Issues, Economy, Autopsy, Unclaimed Bodies

Links for more info:
