The first caller of the program accidentally sent an email to the wrong person, it was a venting email that was supposed to go to a girlfriend and ended up being sent to the director of her college, and was wondering if she needed to bring up the email at her upcoming school meeting. Dr. Ray responded by saying that there is no real reason for her to bring up the email but if they happen to bring it up, hopefully it will be constructive and they will discuss ways to improve their program. The second caller has a son in law, who is diagnosed bi-polar, who has always had a distant attitude toward them and blames them for the problems in his marriage. The callers question was how do they continue a relationship with their daughter and her family when the son in law is distant and blames them for everything, to which Dr. Ray responds that they should never expect warmth and respect from him, since he does not even have those feelings toward himself and that they should talk to their daughter about how to continue a relationship with them without jeopardizing her marriage and family.
