Length::25

HEALTH AND MEDICAL

Program: 4:30 pm

Date: 02-01-2017

Description: Texas has identified the first instance of a laboratory-confirmed Zika infection in a pregnant Texas resident who did not travel outside the state. The woman, a resident of Bexar County, traveled to Brownsville in November, around the time six Brownsville residents acquired cases of Zika virus disease from mosquitoes there. She did not get sick and was tested for Zika during regular prenatal care. Because the infection was not transmitted in Bexar County, it does not represent an increased risk of Zika there.
