This is to certify that the list set forth below identifies all programs and series aired by **24H** during the above-referenced calendar quarter that were originally produced and broadcast primarily for an audience of children 12 years old and under. As a standard practice, we formatted and aired each of the children's programs and series identified below so that the total commercial time (including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour) did not exceed 10.5 minutes per hour on weekends, and 12 minutes per hour on weekdays in compliance with the Children's Television Act of 1990 and the rules and regulations of the Federal Communications Commission (the "FCC"), (the "Regulations").

None of the following programs or series included any commercial spots (including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour) that contained references to, characters or actors from, or that offered products related to, the underlying program or series. Any instances in which the children's programming commercial limits were exceeded during the referenced calendar quarter are explained in detail below. I further certify that I have been designated by **24H** as the official responsible for oversight of compliance with the FCC children's programming commercial limits, and I am familiar with the Regulations.

Re: Certification of Compliance for Children's Television Programming, Closed Captioning Programming and Quality Standards, and Commercial Advertisement Loudness Measures – Q1 2023

Dear Mr. West:

You have recently requested information from us to assist you in your recordkeeping obligations respecting the commercial limitations imposed on children's programming by the Children's Television Act. We hereby advise you that during the first calendar quarter of 2023 none of Altice News' programming under its News 12, i24 News and Cheddar brands was originally produced and broadcast primarily for an audience of children 12 years old and under, and therefore the FCC limits on commercial time as contained in 47 C.F.R. Section 76.225 did not apply to any of Altice News' programming.

In addition, you have recently requested information from Altice News to assist you in your record keeping obligations respecting the closed captioning requirements set forth in Section 79.1 of Title 47 of the Code of Federal Regulations. We hereby advise you that, during the first calendar quarter of 2023, Altice News' programming services under its News 12, i24 News and Cheddar brands complied with the applicable closed-captioning requirements set forth in Section 79.1, including the applicable caption quality standards.

Finally, you have recently requested information from Altice News to assist you in your record keeping obligations respecting the commercial advertisement loudness control requirements of Section 76.607 of Title 47 of the Code of Federal Regulations. We hereby advise you that, during the first calendar quarter of 2023, (i) all commercial advertisements embedded in programs carried on Altice News' programming under its News 12, i24 News and Cheddar brands were in compliance with the loudness control practices contained in Advanced Television Systems Committee (ATSC) A/85: Recommended Practice: Techniques for Establishing and Maintaining Audio Loudness for Digital Television ("ATSC A/85 Recommended Practice") at the point of distribution by Altice News to authorized reception equipment of downstream multichannel video programming distributors, and (ii) compliance with the ATSC A/85 Recommended Practice is determined by Altice News through the use of equipment and associated software that is installed, utilized and maintained in a commercially reasonable manner.

We trust that this satisfies your request.

Sincerely,

Kristin Malaspina

**Re: Certifications of Compliance, Calm and Closed Captioning Rules
4th Quarter: October 1, 2023 to December 31, 2023**

Children's Programming - January 1, 2023 to December 31, 2023

I am writing to request a copy of certifications from your Company to ensure compliance with the FCC's rules regarding Closed Captioning, Children's Programming, and the CALM Act. Please note that this request covers all Charter systems.

Closed Captioning. FCC rules require non-exempt video programming transmitted by Charter on its cable systems to comply with the FCC's closed captioning rules (*See 47 C.F.R. § 79.1 et al*). In addition, FCC rules require distributors to exercise best efforts to obtain certifications from video programmers stating that non-exempt programming is in compliance with the FCC's caption *quality* standards. If your Company has an affiliation agreement with Charter, it also requires your network to comply with these FCC requirements. Accordingly, Charter hereby requests that your network certify its compliance with the FCC's closed captioning rules during the fourth quarter of 2023. Such certification includes, but is not limited to, satisfaction of the FCC's rule requiring prescribed amounts of non-exempt programming to be captioned, including for any linear, on-demand, standard-definition and or high-definition format in which your network is transmitted. In addition, if you have not already done so, Charter is requesting that your company certify that it is in compliance with the FCC's captioning *quality* rules. For your convenience, attached hereto is a captioning certification form that you may choose to utilize for your network.

Children's Programming. As you may recall, the FCC recently changed the filing cycle from quarterly to annually for certificates of compliance for children's programming. Please note that if you provide any children's programming, FCC rules require your company to identify the children's programs that were transmitted during the past year. If your Company has an affiliation agreement with Charter, it also requires your network to comply with these FCC requirements. Accordingly, Charter hereby requests that your network review its practices and certify its compliance with the FCC's commercial limits on children's programming for the calendar year 2023. If you believe your network is exempt from this requirement, does not offer children's programming, or if your network has already sent an annual certification (or posted it on-line),

please indicate in your response. Otherwise, please use the enclosed certification form and submit the certification on your network's letterhead along with a detailed explanation of any instance in which your programs exceeded the limits on commercial time.

CALM Act. Commercial advertisements embedded in programming transmitted by Charter must be in compliance with applicable loudness control practices. If your Company has an affiliation agreement with Charter, it also requires your network to comply with these FCC requirements. Accordingly, if you have not previously provided Charter with a copy of your network's CALM Act certification, Charter hereby requests a copy of your network's certification of compliance with ATSC A/85 RP with respect to commercial programming. For your convenience, attached hereto is a CALM Act certification form that you may choose to utilize for your network.

Upon completion of the certifications, please provide copies at the address listed above. If you have already sent a certification to Charter, or have posted your certifications online, please indicate in your response along with a working link to any online filing.

Sincerely,

Joseph West, Jr.

* "The Children's Television Programming Rules Order, FCC 19-67 (released July 12, 2019), deleted the obligation for stations that multicast to air three (3) hours of digital Children's CORE programming for each multicast channel. The primary signal of a station may complete its Children's CORE obligation by airing either (i) three (3) hours per week (as averaged over a six-month period) of CORE Programming, or (ii) 156 hours of CORE Programming annually, including at least 26 hours per quarter of regularly scheduled weekly programming of at least 30 minutes in length and up to 52 hours annually of CORE Programs of at least 30 minutes in length that are not aired on a regularly scheduled weekly basis, such as educational specials and regularly scheduled non-weekly programming, and/or other non-regularly scheduled programming and short-form programming, such as PSAs and interstitials. In retaining the existing three (3) hour per week (on average) requirement the FCC also expanded CORE Programming hours to be between 6 a.m. to 10 p.m. local time, and allows stations to also air thirteen (13) hours per quarter of the regularly scheduled weekly CORE programming on a multicast stream. Accordingly, stations need to air at least two-thirds of their total annual CORE Programming hours (i.e., 104 hours) on their primary streams and no more than one-third of their total CORE Programming (i.e., 52 hours) hours on a multicast stream. All Core Programming that is not regularly scheduled weekly programming must be aired on a station's primary stream. TBN and its affiliated stations provide three (3) or more hours of CORE programming on the primary signal, and provide additional Children's Programming on its multicast channel SMILE 24-hours per day. Further, TBN's multicast channel, Enlace (a Spanish language service), also provides additional Children's Programming.

* "The Children's Television Programming Rules Order, FCC 19-67 (released July 12, 2019), deleted the obligation for stations that multicast to air three (3) hours of digital Children's CORE programming for each multicast channel. The primary signal of a station may complete its Children's CORE obligation by airing either (i) three (3) hours per week (as averaged over a six-month period) of CORE Programming, or (ii) 156 hours of CORE Programming annually, including at least 26 hours per quarter of regularly scheduled weekly programming of at least 30 minutes in length and up to 52 hours annually of CORE Programs of at least 30 minutes in length that are not aired on a regularly scheduled weekly basis, such as educational specials and regularly scheduled non-weekly programming, and/or other non-regularly scheduled programming and short-form programming, such as PSAs and interstitials. In retaining the existing three (3) hour per week (on average) requirement the FCC also expanded CORE Programming hours to be between 6 a.m. to 10 p.m. local time, and allows stations to also air thirteen (13) hours per quarter of the regularly scheduled weekly CORE programming on a multicast stream. Accordingly, stations need to air at least two-thirds of their total annual CORE Programming hours (i.e., 104 hours) on their primary streams and no more than one-third of their total CORE Programming (i.e., 52 hours) hours on a multicast stream. All Core Programming that is not regularly scheduled weekly programming must be aired on a station's primary stream. TBN and its affiliated stations provide three (3) or more hours of CORE programming on the primary signal, and provide additional Children's Programming on its multicast channel SMILE 24-hours per day. Further, TBN's multicast channel, Enlace (a Spanish language service), also provides additional Children's Programming.

Certification of Compliance: FCC Children's Television Requirements for the Year 2023

On behalf of the Trinity Broadcasting Network (TBN), this is to certify that the program services named below comply with the FCC's children's television programming and commercial time limit obligations specified in FCC Rules 73.671 and 73.670 (47 CFR 73.671 and 73.670), respectively.

CHILDREN'S PROGRAMMING CERTIFICATION

January 1, 2023 to December 31, 2023

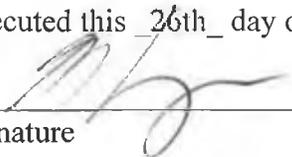

This is to certify that the list set forth below identifies all programs and series transmitted during the above referenced calendar quarter that were originally produced and broadcast primarily for an audience of children 12 years old and under. As a standard practice, we formatted and aired each of the children's programs and series identified below so that the total commercial time (including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour) did not exceed 10.5 minutes per hour on weekends, and 12 minutes per hour on weekdays, in compliance with the Children's Television Act of 1990 and the rules and regulations of the Federal Communications Commission (the "FCC").

None of the following programs or series included any commercial spots including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour that contained references to, characters or actors from, or that offered products related to, the underlying program or series. Any instances in which the children's programming commercial limits were exceeded during the referenced calendar quarter are explained in detail below. I further certify that I have been designated by TV5 USA Inc as the official responsible for oversight of compliance with the FCC children's programming commercial limits, and I am familiar with the Regulations.

List children's programs run during calendar quarter:

There is no advertising on TV5 programming.

I hereby declare under penalty of perjury that the foregoing is true and correct.
