Some members of the community cannot afford heating oil, and end up using alternative methods to heat their homes instead, taking a dangerous risk.	Echo Mitchell and Vince Reeder of Reeder Brothers Fuel Company started a 501c3 non-profit project called "Hats for Heat", to provide heating oil to those in our area who need it the most.	In Touch WWPA, WMLP	17-Dec	11:00A	20 Min	Echo Mitchell and Vince Reeder talk about the rewarding experience it is to help those in our area who may not feel comfortable asking for assistance, who they find sometimes suffer without heat, or use dangerous space heaters during the coldest months of the year. Hats for Heat seeks to raise funds to provide oil for those without. They are having a basket raffle fundraising event at the Loyalsock Hotel on January 27th and 28th. The community is invited to attend or donate baskets at the fundraiser.
