SECTION 1. ISSUES

The above stations have identified the following as some of the more significant community issues addressed this quarter.

A. **Education.** Education can come in many forms. We spoke with several representatives from the City of Missoula about a variety of issues the public needs to know about. We also spoke with the Missoula Economic Partnership about the local economy. The Missoula Economic Partnership hosts an ECON 101 show every month.

B. **Local Government.** We covered the usual topics of government, but also focused on communication as a whole. Twice a month we have a “City Talk” show where we discuss a variety of issues. We also meet with our Missoula County Commissioners every month to discuss property taxes, budgeting, how tax dollars are spent, and more.

C. **Law Enforcement.** Crime has so many topics, and we try to check on them all. We spoke with the President of the Crime Prevention Research Center about Second Amendment rights and more. We also spoke with our Attorney General about the drug crisis. We also spoke to our newly elected Chief of Police about crime numbers in 2022.

D. **Affordable Housing.** We spoke to our City officials and mayoral candidates about the cost of housing in Missoula. We also spoke about property taxes. As a result, we also talked about the homelessness issues around Missoula and how to try and solve them.

E. **Election.** We are preparing for the upcoming election in Missoula where we will choose a new mayor. We spoke to both candidates and the newly elected mayor has agreed to join us on a regular basis.

F. **Development.** The City of Missoula is focusing a lot of its efforts on development. As a result, we introduced a new monthly program discussing that specific issue. We also talked about development with the Missoula Economic Partnership.
