

## Issues Programs List

**WINE-AM, WRKI-FM**

**October 1<sup>st</sup> through December 31<sup>st</sup>, 2022**

### Section I: Issues

The stations have identified the following topics as significant issues in Montana this quarter:

- A. **HIGHER EDUCATION COST CRISIS:** Combining the area's teacher shortage with many watching their finances, many Universities and Colleges in the community are having to decide between additional layoffs or an increase in tuition in an industry already criticized for being too expensive.
- B. **ER VISIT INCREASE:** Local Hospital Facilities, already under strain due to the pandemic and the rise in flu cases, saw a marked increase of ER visits during the holidays this season. Some believe it was due to more families being willing to travel and come home and some equate it to more activity due to lessened stress of COVID-19 and wanting to be active and visit family.
- C. **CANNABIS:** Adult-use sales are scheduled to begin at the start of the New Year. In addition, President Biden has wiped out federal marijuana convictions for thousands of Americans.
- D. **REMOTE WORK:** It's reported that 58% of those employed across the country have the option to work their positions remotely at least part of the week. In Danbury, CT there are currently 800-900 "at home" positions posted to job boards.

1:47	<b>SEGMENT 1: WORKERS ARE FED UP: THE CONTINUING STRIKES &amp; UNIONIZATIONS IN THE U.S.</b>	9:37
	Synopsis: Just last month, the railway industry narrowly averted a strike that would've resulted in more than 100,000 railway workers walking off the job. This dispute over pay, hours and working conditions would've shut down the U.S. railway system, costing billions of dollars in lost revenue from commuter travel and a stall in commodities and goods shipments. Over the past year, headlines covering workers striking or pushing to unionize have become commonplace. What's driving this labor revolt? Stay tuned this week. Host: Gary Price. Guests: Daisy Pitkin, Deputy Organizing Director, Workers United; Maxford Nelsen, Director of Labor Policy, The Freedom Foundation. 11:29	<b>SEGMENT 2: THE FIGHT TO SURVIVE ON THE BRINK OF EXTINCTION</b>	10:29
	Synopsis: Extinction is a normal part of evolution, but the speed at which the Earth is losing species is abnormal. Scientists estimate that today's extinction rate is hundreds, or even thousands, of times higher than the natural progression. It's hard to quantify the exact number of species affected, but experts say it's at least 10,000 species per year that go extinct. What's driving this sped up process and how can humans help more species survive? Host: Marty Peterson. Guest: Michael Webster, professor, practice, Department of Environmental Studies, New York University, author, <i>The Rescue Effect: The Key to Saving Life on Earth</i> .
