

Summer of Creativity

We are thrilled to announce Disney ABC Television Group Corporate Citizenship's latest project: Summer of Creativity. Here are the details below:

Flight Dates:
June 1-August 1, 2015

Goal: The goal of Summer of Creativity is to inspire and empower kids to change the world through their creativity. Disney | ABC Television Group (DATG), together with The Walt Disney Company, will unleash the creativity of kids through creative service-related projects and community based activities that will help them create the future they imagine.

The campaign will leverage a corporate citizenship contribution to Youth Service America (YSA) that will provide \$500 grants to kids across the country performing creative service projects in their local communities. DATG will conduct an on-air/online media campaign across its various platforms to find nominees and awardees. The goal of each grant is to inspire and engage youth to work with their families, friends, schools and communities to address critical needs in their local, national, and global communities.

August 18, 2015

Dear ABC Affiliate,

We are pleased to announce ABC will participate in a fundraising telecast in support of the "Think It Up" education initiative. This telecast event will air on Friday, September 11, 2015 in the 8:00 – 9:00 PM ET/PT time period. An official booking is forthcoming.

Please see the below press release for additional information.

Regards,

John L. Rouse
Senior Vice President
ABC Affiliate Relations and Marketing

ENTERTAINMENT INDUSTRY FOUNDATION ANNOUNCES "ROADBLOCK" TELECAST FOR NATIONAL *THINK IT UP* EDUCATION INITIATIVE

Kristen Bell, Stephen Colbert, Scarlett Johansson, Matthew McConaughey, Gwyneth Paltrow, Jeremy Renner, Ryan Seacrest and Jessica Williams Among Stars to Participate in September 11, 2015 Event on ABC, CBS, FOX and NBC 8 pm ET & PT / 7 pm CT

Show Will Encourage Viewers to Support Student-Powered, Teacher-Led Projects Via Innovative Crowdfunding Platform Fueled by DonorsChoose.org

The Bill & Melinda Gates Foundation, ExxonMobil and Ashoka's Start Empathy Initiative Join the *Think It Up* Movement; Each Will Match Public Donations for Many Classroom Projects

<http://www.thinkitup.org> | [facebook.com/thinkitup.org](https://www.facebook.com/thinkitup.org) | [Twitter: @think_it_up](https://twitter.com/think_it_up) | [Instagram: @think_it_up](https://www.instagram.com/think_it_up)

LOS ANGELES, Aug. 18 – The Entertainment Industry Foundation (EIF), a leading charitable organization of the entertainment industry, today announced that all four U.S. broadcast networks will air a star-studded "roadblock" telecast fundraising event in support of *Think It Up*, EIF's new national education initiative, on Friday, September 11, 2015, at 8 pm ET & PT / 7 pm CT.

Think It Up seeks to inaugurate a new movement in support of the nation's students, teachers and schools, helping generate excitement about learning everywhere in America and building a sense of optimism about the changes underway in classrooms across the country. Because education is the cornerstone of our democracy and economy, *Think It Up* aims to renew a sense of promise for all of America's public school

students. With new technologies, ingenuity and higher expectations, we are living today in the most dynamic era in learning and education since free public schools were established in the US 150 years ago.

ABC, CBS, FOX and NBC will simultaneously broadcast the live ***Think It Up*** one-hour special from the Barker Hangar at the Santa Monica Airport, home to some of the most exciting charity events and concerts in Los Angeles.

Kristen Bell, Stephen Colbert, Scarlett Johansson, Matthew McConaughey, Gwyneth Paltrow, Jeremy Renner, Ryan Seacrest, Jessica Williams and other stars from film, television, sports, music, and digital media will take part in the telecast, with live musical performances from world-class artists, comedic sketches and more.

The telecast will spotlight powerful stories of teachers and students working together on the types of projects to be supported through the initiative. "Our hope is that by creating opportunities to unlock their passions, talents, and strengths, ***Think It Up*** will help students, working together with their teachers, to forge lasting connections between their learning experiences now and the futures they shape for themselves," said Sherry Lansing, founder of the Sherry Lansing Foundation and chair of EIF's Board of Directors.

EIF is engaging visionaries and innovators in education, entertainment industry executives, and leaders in media, technology and other businesses to roll out ***Think It Up***. In addition to aggregating funds from citizen donors, thinkitup.org will make it possible for major donors, such as corporations, philanthropists and foundations, to match some public contributions. Staples was previously announced as ***Think It Up's*** lead corporate donor.

The Bill & Melinda Gates Foundation (www.gatesfoundation.org) is a founding contributor providing expertise and guidance on the classroom practices driving impact on student learning—specifically, innovative teaching and deep, conceptual learning driven by student passions and interests.

"I am delighted to be in on the ground floor of ***Think It Up***. EIF has had a remarkable track record with Stand Up to Cancer, having shined a spotlight and rallied Americans around an important challenge that affects us all," said Vicki Phillips, leader of Bill & Melinda Gates Foundation's K-12 education program and member of the ***Think It Up*** Advisory Committee. Phillips continued by stating that, "At this critical moment in public education, EIF is answering the call once again. ***Think It Up*** is an unprecedented effort to build a national movement to support the powerful bond between students and teachers in the important work of learning. Only EIF can harness the power and influence of Hollywood to create a culture of optimism and excitement around what is possible in our nation's schools."

As a lead corporate supporter, ExxonMobil (www.exxonmobil.com) will further expand its support of high quality science, technology, engineering and math (STEM) education for our nation's schools. Working with ***Think It Up***, ExxonMobil will provide exclusive support to schools and classrooms engaged in innovative STEM learning, with an emphasis on initiatives that better prepare young women and traditionally under-represented minority students to pursue STEM careers.

"ExxonMobil has a long history of supporting education and inspiring our next generation of innovators to take on some of the world's toughest challenges," said Ken Cohen, vice president of Public and Government Affairs at ExxonMobil. "Our decades of support for STEM education includes our commitment to the National Math and Science Initiative, which brings scalable, high-quality education to young people, and our 'Be An Engineer' initiative, which inspires and informs students and parents about the opportunities in the engineering professions. ExxonMobil is pleased to be part of this effort to support teachers and students and their interest in STEM."

Ashoka, via its Start Empathy Initiative (www.startempathy.org), is a lead contributor focused on prioritizing empathy and related changemaking skills in our school curricula and culture.

"Reading and math alone are no longer enough for the world we live in – a world of constant change, of unprecedented connectivity and complexity," said Konstanze Frischen, Ashoka's North America Leader.

"We need a generation of young people who grow up practicing empathy and working in teams to solve real-world problems – who have the sense of purpose and courage to improve the society they live in. **Think It Up** is a once-in-a-generation opportunity to get the message out that empathy works: it is the foundation our students need to succeed as changemakers."

During the telecast, EIF will launch and accept donations via thinkitup.org, a first-of-its-kind platform to fund student-powered, teacher-led learning projects in partnership with DonorsChoose.org, the popular teacher crowdfunding charity. These projects will facilitate meaningful learning for the students involved, and will help students connect learning to their futures.

Since 2000, DonorsChoose.org has been an invaluable tool for individuals to contribute toward the purchase of materials needed for classroom projects that teachers have requested. Through this collaboration, public middle and high school students can work with their teachers to develop projects that draw on their passions and prepare them for success (through college, technical training or work experience), which the public can crowdfund via thinkitup.org later this fall.

Creative Artists Agency President Richard Lovett, chair of the entertainment industry's leadership committee for EIF's **Think It Up** national education initiative and a member of the DonorsChoose.org Board of Directors, described the new movement this way: "**Think It Up** is an initiative that unites individuals, organizations, companies and brands in support of our great students, teachers, and principals, to help give them an edge in the classroom and ultimately in life."

Students, teachers and citizens across the U.S. can tune in to the televised special to learn about the initiative, how student-teacher teams can submit project ideas and request funding, and how the public can fund learning experiences through direct donations at thinkitup.org. Launching with the telecast, this multi-platform initiative will continue to engage students by targeting them where they "live" – through a robust social and digital media strategy.

In addition to the roadblock telecast, **Think It Up** will engage celebrities and education/community influencers to help keep a steady drumbeat of excitement about learning and encourage ongoing support for students and teachers. National public awareness campaigns featuring celebrity ambassadors will run across all media platforms, including print, broadcast, digital, out-of-home (e.g., billboards) and radio. Lead corporate donor Staples, for example, has teamed up with the multi-talented recording artist, actor and **Think It Up** Ambassador Nick Jonas for a public service campaign encouraging students to collaborate with their teachers on projects that will help innovate their classroom experiences.

"Now more than ever, we need to support our students and teachers to spark great learning. Through the new **Think It Up** initiative, we're raising awareness and encouraging people to recognize the importance of education and to support success in the classroom," said Alison Corcoran, senior vice president, North American Stores and Online, Staples.

Local events with students and teachers will be held in communities across the country, highlighting inspiring stories of successful teacher-student collaborations.

For **Think It Up**, the Entertainment Industry Foundation is forming an Education Advisory Committee, comprising experts, leaders and advocates with impeccable credentials from diverse areas of the education field. Current members of the Committee have created criteria for the student-powered, teacher-led projects that are designed to ensure that those receiving funding facilitate meaningful learning for the students involved. The Committee will work with EIF's Board of Directors to advise on and help oversee the **Think It Up** grants program. Additional support will be provided by an Honorary National Advisory Council with two segments, one including leaders from entertainment and media, and the other, the education, non-profit and philanthropy worlds.

"The **Think It Up** campaign will shine a national spotlight on the needs of students and teachers in classrooms across America," said Charles Best, founder and CEO of DonorsChoose.org. "After serving as

a teacher resource for 15 years, we're excited that DonorsChoose.org will now be a place where the public can support project ideas straight from the imaginations of students."

"Our future depends on today's young people, so every citizen has a stake in making more high-quality, meaningful learning experiences available to teachers and their students," said Lisa Paulsen, president and chief executive officer of EIF. "We truly believe that **Think It Up** can make a difference in the lives of students, and we hope that this telecast will help spark a movement that lasts for years to come. We're extremely grateful for all the support for this initiative, from the major contributors who have provided deep, substantive expertise in addition to generous financial commitments, to individuals who will contribute whatever they can and the celebrity ambassadors who will participate in the event."

The September 11 **Think It Up** telecast will be Executive Produced by Jesse Ignjatovic and Evan Prager for Den of Thieves, working with Entertainment Industry Foundation producers.

Stuart Ruderfer, CEO of Civic Entertainment Group, a Seacrest Global Group Company, serves as an Executive Producer of the **Think It Up** initiative with the Entertainment Industry Foundation. The agency and its leadership are working with EIF to shape the overall **Think It Up** program to inaugurate the new movement and build optimism for education in America.

"We love to work on powerful programs that make a meaningful difference," said Ruderfer. "**Think It Up** is a bold collaborative effort that will support innovative work in our schools and help teachers and students succeed."

#

About the Entertainment Industry Foundation

The Entertainment Industry Foundation (EIF), established in 1942, harnesses the collective power of the entire industry to generate awareness and funds for critical health, educational and social issues. Stand Up To Cancer (SU2C), EIF's largest initiative, was established in 2008 by film and media leaders who utilize the industry's resources to engage the public in supporting a new, collaborative model of cancer research, and to increase awareness about cancer prevention as well as progress being made in the fight against the disease. SU2C accelerates research to get new therapies to patients quickly. Since its founding seven years ago, SU2C has launched 16 collaborative "Dream Teams" comprising over 940 scientists from 123 leading institutions around the world. That research, including 151 planned, initiated or completed clinical trials, has led to Food and Drug Administration approval of two new treatments. In just 15 months, Hunger Is, EIF's collaboration with The Safeway Foundation, has significantly raised awareness of childhood hunger in the United States and over \$10 Million to support breakfast, afterschool and out-of-school meal programs.

About Think It Up

Think It Up is an initiative of the Entertainment Industry Foundation (EIF), a 501(c)(3) charitable organization, created to bring broad cultural attention to the urgency of improving the learning experience in America. The national education initiative will seek to reframe the public discussion about education, create a culture of excitement about learning everywhere in America and build a sense of optimism about the potential of education in classrooms across the country.

Think It Up will invite public middle and high school students to work with their teachers to develop projects that draw on their passions and help pursue their educational goals. Posted on thinkitup.org, in collaboration with DonorsChoose.org, the student-powered, teacher-led projects will be crowdfunded by citizen donors beginning September 2015. The projects will entail rigorous skill development that prepares American youth for post-high school life, helping pave the way for career success, regardless of the path.

About DonorsChoose.org

Founded in 2000, DonorsChoose.org makes it easy for anyone to help a classroom in need. Teachers at over 60 percent of all the public schools in America have created project requests, and more than a million

people have donated \$330 million to projects that inspire them. Over 14 million students -- most from low-income communities and many in disaster-stricken areas -- have received books, art supplies, field trips, technology, and other resources that they need to learn.

About Den of Thieves

Launched in 2007 by Jesse Ignjatovic and Evan Prager, Den of Thieves has emerged as a force for ambitious music-driven event shows and unique non-scripted television series. In the live event show space, Den of Thieves has Executive Produced the *MTV Video Music Awards*, *American Idol* on FOX, *Pitbull's New Year's Revolution* on FOX, the *MTV Movie Awards*, *Key & Peele's Super Bowl Special* on Comedy Central, the *Peabody Awards* on Pivot, the *CMT Awards*, and *The Radio Disney Music Awards* -- among many others.

About Civic Entertainment Group

Founded in 1999, Civic Entertainment Group (Civic) is one of the nation's most award winning marketing services companies working with blue-chip brands including HBO, Verizon, A+E Networks, Airbnb, NBC, Farmers Insurance, CNN, NFL and Fox, among many others. The agency creates big, brand-defining platforms that inspire the imaginations of audiences and the media, influence culture and engage customers, employees and partners. In 2012, Seacrest Global Group acquired a majority stake in Civic and in 2014, Civic further expanded its capabilities with the acquisition of Culture Shop, a preeminent strategic marketing agency specializing in entertainment marketing, public relations and social/mobile marketing.

SCHEDULING ANNOUNCEMENT

LOS ANGELES, Aug. 18 – The Entertainment Industry Foundation (EIF), a leading charitable organization of the entertainment industry, today announced that all four U.S. broadcast networks will air a star-studded “roadblock” telecast fundraising event in support of *Think It Up*, EIF’s new national education initiative, on Friday, September 11, 2015, at 8 pm ET & PT / 7 pm CT.

Think It Up seeks to inaugurate a new movement in support of the nation’s students, teachers and schools, helping generate excitement about learning everywhere in America and building a sense of optimism about the changes underway in classrooms across the country. Because education is the cornerstone of our democracy and economy, *Think It Up* aims to renew a sense of promise for all of America’s public school students. With new technologies, ingenuity and higher expectations, we are living today in the most dynamic era in learning and education since free public schools were established in the US 150 years ago.

ABC, CBS, FOX and NBC will simultaneously broadcast the live *Think It Up* one-hour special from the Barker Hangar at the Santa Monica Airport, home to some of the most exciting charity events and concerts in Los Angeles.

Kristen Bell, Stephen Colbert, Scarlett Johansson, Matthew McConaughey, Gwyneth Paltrow, Jeremy Renner, Ryan Seacrest, Jessica Williams and other stars from film, television, sports, music, and digital media will take part in the telecast, with live musical performances from world-class artists, comedic sketches and more.

The telecast will spotlight powerful stories of teachers and students working together on the types of projects to be supported through the initiative. “Our hope is that by creating opportunities to unlock their passions, talents, and strengths, *Think It Up* will help students, working together with their teachers, to forge lasting connections between their learning experiences now and the futures they shape for themselves,” said Sherry Lansing, founder of the Sherry Lansing Foundation and chair of EIF’s Board of Directors.

EIF is engaging visionaries and innovators in education, entertainment industry executives, and leaders in media, technology and other businesses to roll out *Think It Up*. In addition to aggregating funds from citizen donors, thinkitup.org will make it possible for major donors, such as corporations, philanthropists and foundations, to match some public contributions. Staples was previously announced as *Think It Up’s* lead corporate donor.

The Bill & Melinda Gates Foundation (www.gatesfoundation.org) is a founding contributor providing expertise and guidance on the classroom practices driving impact on student learning—specifically, innovative teaching and deep, conceptual learning driven by student passions and interests.

SCHEDULING ANNOUNCEMENT

"I am delighted to be in on the ground floor of *Think It Up*. EIF has had a remarkable track record with Stand Up to Cancer, having shined a spotlight and rallied Americans around an important challenge that affects us all," said Vicki Phillips, leader of Bill & Melinda Gates Foundation's K-12 education program and member of the *Think It Up* Advisory Committee. Phillips continued by stating that, "At this critical moment in public education, EIF is answering the call once again. *Think It Up* is an unprecedented effort to build a national movement to support the powerful bond between students and teachers in the important work of learning. Only EIF can harness the power and influence of Hollywood to create a culture of optimism and excitement around what is possible in our nation's schools."

As a lead corporate supporter, ExxonMobil (www.exxonmobil.com) will further expand its support of high quality science, technology, engineering and math (STEM) education for our nation's schools. Working with *Think It Up*, ExxonMobil will provide exclusive support to schools and classrooms engaged in innovative STEM learning, with an emphasis on initiatives that better prepare young women and traditionally under-represented minority students to pursue STEM careers.

"ExxonMobil has a long history of supporting education and inspiring our next generation of innovators to take on some of the world's toughest challenges," said Ken Cohen, vice president of Public and Government Affairs at ExxonMobil. "Our decades of support for STEM education includes our commitment to the National Math and Science Initiative, which brings scalable, high-quality education to young people, and our 'Be An Engineer' initiative, which inspires and informs students and parents about the opportunities in the engineering professions.

ExxonMobil is pleased to be part of this effort to support teachers and students and their interest in STEM."

Ashoka, via its Start Empathy Initiative (www.startempathy.org), is a lead contributor focused on prioritizing empathy and related changemaking skills in our school curricula and culture.

"Reading and math alone are no longer enough for the world we live in – a world of constant change, of unprecedented connectivity and complexity," said Konstanze Frischen, Ashoka's North America Leader. "We need a generation of young people who grow up practicing empathy and working in teams to solve real-world problems – who have the sense of purpose and courage to improve the society they live in. *Think It Up* is a once-in-a-generation opportunity to get the message out that empathy works: it is the foundation our students need to succeed as changemakers."

During the telecast, EIF will launch and accept donations via thinkitup.org, a first-of-its-kind platform to fund student-powered, teacher-led learning projects in partnership with DonorsChoose.org, the popular teacher crowdfunding charity. These projects will facilitate meaningful learning for the students involved, and will help students connect learning to their futures.

SCHEDULING ANNOUNCEMENT

Since 2000, DonorsChoose.org has been an invaluable tool for individuals to contribute toward the purchase of materials needed for classroom projects that teachers have requested. Through this collaboration, public middle and high school students can work with their teachers to develop projects that draw on their passions and prepare them for success (through college, technical training or work experience), which the public can crowdfund via thinkitup.org later this fall.

Creative Artists Agency President Richard Lovett, chair of the entertainment industry's leadership committee for EIF's *Think It Up* national education initiative and a member of the DonorsChoose.org Board of Directors, described the new movement this way: "*Think It Up* is an initiative that unites individuals, organizations, companies and brands in support of our great students, teachers, and principals, to help give them an edge in the classroom and ultimately in life."

Students, teachers and citizens across the U.S. can tune in to the televised special to learn about the initiative, how student-teacher teams can submit project ideas and request funding, and how the public can fund learning experiences through direct donations at thinkitup.org. Launching with the telecast, this multi-platform initiative will continue to engage students by targeting them where they "live" – through a robust social and digital media strategy.

In addition to the roadblock telecast, *Think It Up* will engage celebrities and education/community influencers to help keep a steady drumbeat of excitement about learning and encourage ongoing support for students and teachers. National public awareness campaigns featuring celebrity ambassadors will run across all media platforms, including print, broadcast, digital, out-of-home (e.g., billboards) and radio. Lead corporate donor Staples, for example, has teamed up with the multi-talented recording artist, actor and *Think It Up* Ambassador Nick Jonas for a public service campaign encouraging students to collaborate with their teachers on projects that will help innovate their classroom experiences.

"Now more than ever, we need to support our students and teachers to spark great learning. Through the new *Think It Up* initiative, we're raising awareness and encouraging people to recognize the importance of education and to support success in the classroom," said Alison Corcoran, senior vice president, North American Stores and Online, Staples.

Local events with students and teachers will be held in communities across the country, highlighting inspiring stories of successful teacher-student collaborations.

For *Think It Up*, the Entertainment Industry Foundation is forming an Education Advisory Committee, comprising experts, leaders and advocates with impeccable credentials from diverse areas of the education field. Current members of the Committee have created criteria for the student-powered, teacher-led projects that are designed to ensure that those receiving

Subject: PROGRAMMING NOTICE: New Fall Line-Up for Litton's Weekend Adventure

We are extremely pleased to announce that this Fall, on October 3rd, we welcome the Emmy Award winning **Rock the Park** to "Litton's Weekend Adventure."

Rock the Park is a weekly half-hour series produced and designed to educate and inform children 13-16 years of age and taps into America's love affair with our national parks. In this awe-inspiring and entertaining series our hosts, Jack Steward and Colton Smith, come face to face with nature and some of the most amazing places on earth. Viewers will witness the fascinating underwater world of Dry Tortugas National Park in Florida, which is home to the world's most unique coral and marine life. They'll watch as Jack and Colton raft their way through Alaska's remote Aniakchak National Monument and Preserve, spotting the region's famous brown bears. Viewers will reach new heights as Jack and Colton embark on their biggest climbing challenge yet – The Grand Teton in Wyoming's Grand Teton National Park.

Jack and Colton's adventures on **Rock the Park** will inspire families to explore the vast resources that America's national parks provide.

Here is a sneak peak:

<https://vimeo.com/127258123>

There will be NO changes to the 3rd Quarter Line-up. You will be receiving your 3rd Quarter FCC Support information later this week.

The NEW 4th Quarter Line-up beginning on October 3rd, 2015 will be:

- Jack Hanna's Wild Countdown
- Ocean Mysteries with Jeff Corwin
- Sea Rescue
- The Wildlife Docs
- Rock the Park
- Born to Explore

Jack Hanna's Wild Countdown

Wildlife expert and animal ambassador, Jack Hanna, brings the viewer face-to face with the best of the beasts. In this weekly half-hour series that will engage viewers 13-16, as well as the whole family, Jack highlights his favorite animals and adventures from around the world. Presented in countdown style, Jack offers up a different 'top ten' each week in a variety of categories.

What are the top ten 'fastest animals in Africa,' 'tallest insects,' 'biggest eaters,' 'smartest birds' ...Jack will answer all of these questions and more. As Jack reveals the categories, he gives further insights and interesting facts about the animals allowing viewers of all ages the opportunity to be entertained as well as learn more about the fascinating animal kingdom in Jack Hanna's Wild Countdown.

Ocean Mysteries with Jeff Corwin

The half-hour weekly series, *Ocean Mysteries*, offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to human experience.

Hosted by Jeff Corwin, *Ocean Mysteries* is produced for ages 13-16 - and beyond - by showing how animals share the same behaviors, challenges and triumphs that humans do. From exciting rescues of abandoned animals to unexpected conflicts in the 'family dynamics' of the mingling species, viewers will get to know – and care- about these heroes, and all of the fascinating life teeming in our oceans.

Sea Rescue

The half-hour weekly series, *Sea Rescue*, features the rescue, rehabilitation and – in many instances - release back into the wild of ocean wildlife. Produced for ages 13-16, *Sea Rescue* offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. Viewers will also learn that there's a reciprocal benefit: rescued animals provide valuable insight into their biology and ecology. This information adds to the pool of knowledge necessary to conserve threatened and endangered species.

Each week, *Sea Rescue* will leave its audience inspired by the real-life stories of the featured animals and rescuers and with a fuller understanding of the rich array of sea life with which we share our planet.

The Wildlife Docs

The half-hour weekly series, *The Wildlife Docs*, produced for ages 13-16 follows the surprising, exotic, and challenging lives of a veterinary staff that cares for over 2,000 animals. From nutrition to treatments, x-rays to surgery, preventative care to emergencies, this educational and information program will allow viewers to witness a kaleidoscope of wild experiences through the eyes of our Veterinary Team. Unpredictable events unfold giving viewers a glimpse of the enormity, variety, and quality of treatment that sets the standard for animal care.

Rock the Park

Rock the Park is a weekly half-hour series produced and designed to educate and inform children 13-16 years of age and taps into America's love affair with our national parks. In this awe-inspiring and entertaining series our hosts, Jack Steward and Colton Smith, come face to face with nature and some of the most amazing places on earth. Viewers will witness the fascinating underwater world of Dry Tortugas National Park in Florida, which is home to some of the most unique coral and marine life on the planet. They'll watch as Jack and Colton raft their way through Alaska's remote Aniakchak National Monument and Preserve spotting the regions famous brown bears along the way and reach new heights with those park guys as they take on their biggest climbing challenge yet – The Grand Teton in Wyoming's Grand Teton National Park. Jack and Colton's adventures on *Rock the Park* will inspire families to go out and explore the vast resources that the national parks provide.

Born to Explore

Developed and produced for 13- 16 year olds, the world's cultures and its geographical wonders come alive as the youngest president in Explorers Club history, Richard Wiese, takes viewers on a globetrotting adventure. While developed for 13-16 year olds, *Born to Explore* is engaging for the whole family. In this weekly half-hour series, Richard uncovers amazing facts of nature and manmade treasures.

In *Born to Explore*, Richard Wiese takes the role of the ultimate Social Studies teacher to a new level, bringing the viewing audience to the places and people of our world who form our cultures. Whether he climbs Mount Kilimanjaro, explores why people live at the base of an active volcano, or travels down the Nile River, viewers will travel the world without leaving their homes.

JACK HANNA'S WILD COUNTDOWN

Saturday

July 4, 2015 – September 26, 2015

(Page 1 of 1)

Episode #JHWC409R (7/04/15)

Jack to the Future

Today, it's a two-for-one special, as Jack travels to each location TWICE! Cheetahs, Rhinos, Manatees, Kangaroos and more! Join Jack for time-traveling tour through natural history.

Episode #JHWC411R (7/11/15)

Tall Tales

If you've ever wondered why animals have tails, join Jungle Jack for today's tales about tails! Some tails are dangerous, some are powerful and some are critical for high-speed navigation. Dolphins, Scorpions, Crocs, Lemurs and more!

Episode #JHWC412R (7/18/15)

Seeing Red

Red isn't only the color of romance, in the animal world it can be used as a warning or even as camouflage. Jack's putting on his rose-colored glasses for an all red countdown? red pandas, orangutans, poison dart frogs, sea cucumbers and more!

Episode #JHWC413R (7/25/15)

Hair-Raising Adventures

Today, Jack is counting down six nerve-wracking adventures that are NOT for the faint of heart. Diving deep underwater in a Submarine, trekking into Mandrill country, coming face-to-face with a Mountain Lion and more!

Episode #JHWC414R (8/01/15)

Reptile Round-Up

Some slither, others climb and a few pack a heckuva punch, today, it's the Reptiles! Join Jack and the King Cobra, Anaconda, Tortoise, Chameleon and more cold-blooded creatures.

Episode #JHWC415R (8/08/15)

It's All Relative

Prepare to be shocked and amazed, because today Jack is exploring the family trees of six wild animals! Believe it or not Elephants are related to Manatees, the same is true for Rhinos and Tapirs, Giraffe and Okapi and more surprising animal relatives.

Episode #JHWC416R (8/15/15)

Scavenger Hunt

What do Jackals, Sharks and Leopards have in common? They're scavengers, some of the most resourceful creatures on the planet! They survive on the remains that hunters leave behind, whether it's deep in the woods, at the bottom of the sea, or even up a tree!

Episode #JHWC418R (8/22/15)

Life in the Slow Lane

Today's countdown is all about animals that know how to take it easy, from mellow mammals, like Manatees and Koalas, to relaxed reptiles like the Giant Galapagos Tortoise. Kick back, relax and take a ride in the slow lane!

Episode #JHWC419R (8/29/15)

Hanna Detective Agency

Today, Jungle Jack is putting his detective skills to the test to solve six real-life mysteries from the animal kingdom. A disappearing Civet in Borneo, a missing Elephant in Kenya, a Bat de-coding investigation in Panama, and several more mysterious mammals!

Episode #JHWC420R (9/05/15)

Second Chances

Today, Jungle Jack is meeting several lucky creatures that are getting a second chance at survival, with a little help from their friends. Gibbons, Horses, Sloths, and even a Pigeon!

Episode #JHWC421R (9/12/15)

Animal Rest Stops

Jungle Jack is on an epic animal road trip, meeting up with amazing creatures at the wildest rest stops on the planet! Sea Turtles nesting in West Africa, Whale Sharks feeding in Belize, Birds wading in Canada and more!

Episode #JHWC417R (9/19/15)

My Better Half

The number one animal in Jack's life is his amazing wife Suzi, she's a loving mother, a passionate conservationist, and a fearless adventurer. Come along for encounters with Dolphins, Elephants, Cheetahs and Poison Dart Frogs, just to name a few. Suzi, for all you do, this Wild Countdown's for you!

Episode #JHWC422R (9/26/15)

Call of the Wild

Jungle Jack is counting down the loud mouths of the animal world. Howler Monkeys, Sperm Whales, Wolves and Lions are just a few of the famous talkers on today's show. Find out which, "call of the wild" is the loudest of all!

OCEAN MYSTERIES

Saturday

July 4, 2015 – September 26, 2015

(Page 1 of 1)

Episode #OM418R (7/04/15)

Family Ties

Host Jeff Corwin explores the exciting and unexpected ways different animal species care for their young. Jeff connects with a pregnant beluga whale and a pregnant dolphin, helps conservationists protect a family of peregrine falcons, and discovers the surprising behaviors of a mother octopus.

Episode #OM419R (7/11/15)

Best of Atlantic

Host Jeff Corwin is on an epic adventure across our planet's second largest ocean to discover some of the amazing species that call the Atlantic their home. Jeff helps rescue sick and injured dolphins off the coast of Florida, connects with mighty Manatees in the Caribbean, fights to protect the fragile Tuna populations of New England, and travels to the coast of South Africa to save the endangered African Penguin.

Episode #OM420R (7/18/15)

Predators

Host Jeff Corwin travels to the largest wetland wilderness in the US, the Florida Everglades. Teaming up with expert biologists, Jeff is on a mission to help save the Everglades' ecosystem and come face to face with its most important predators: bull sharks, snook, and the American alligator.

Episode #OM421R (7/25/15)

Asian Elephants

Host Jeff Corwin is on an epic adventure to the country of Thailand on a mission to connect with its most iconic animal, the mighty Asian Elephant. Jeff visits The Anantara Elephant Camp where many rescued elephants have found a second chance at survival. Jeff helps the vet staff treat injured elephants, participates in cutting-edge elephant research, and has a fun encounter with a one year-old baby elephant.

Episode #OM422R (8/01/15)

Thailand Sea Turtles

Host Jeff Corwin travels to the beautiful country of Thailand to help save endangered sea turtles. Working alongside expert biologists, Jeff helps feed orphaned baby turtles, performs critical exams on one of the rarest turtle species on earth, and teaches rescued turtles how to swim once again

Episode #OM401R (8/08/15)

Day at the Aquarium

Host Jeff Corwin and his two young daughters explore world-renowned Georgia Aquarium in Atlanta! Jeff gives his girls an up-close look at animal care and gives us behind-the-scenes access to one of the largest aquariums in the world. Meeting African penguins, checking on the health of bottle-nose dolphins, and feeding 3-ton whale sharks is just the beginning of this family adventure that every family will love.

Episode #OM402R (8/15/15)

The Island of Tasmania

Host Jeff Corwin travels way under down under to explore the amazing island of Tasmania! Jeff uncovers the ancient secrets of this exotic island, separated from mainland Australia by 150 miles of ocean. Jeff meets some of Tasmania's remarkable marsupials, investigates the threats to Tasmania's varied habitats, and works alongside dedicated conservationists fighting to save the unique and mysterious animals found nowhere else on earth.

Episode #OM403R (8/22/15)

The Whales of Hawaii

Host Jeff Corwin joins a team of biologists racing to save the magnificent whales of the Hawaiian Islands! Equipped with latest satellite technology, underwater microphones, and genetic testing technology, Jeff tracks massive pods of melon-headed whales, searches for the elusive pygmy whales, and even dives alongside a group of pilot whales. This is an adventure on the front lines of conservation biology - and it's one you'll never forget.

Episode #OM404R (8/29/15)

Aussie Animal Care

Host Jeff Corwin visits the world renowned Australian Zoo and Veterinary Hospital founded by the legendary Steve Irwin and his family. Jeff takes us on an all access pass of animal rescue and rehab while he fights to save the life of a sick koala before it's too late. Jeff works alongside the dedicated veterinary staff to investigate the threats to Australian wildlife, and helps a critically endangered sea turtle return to the wild.

Episode #OM406R (9/05/15)

Snake, Rattle, and Roll

Host Jeff Corwin explores his home state of Massachusetts on a mission to help save endangered timber rattlesnakes. Jeff captures wild snakes for research, learns about the amazing breeding programs underway to increase snake numbers in the wild, assists in critical snake surgery, and watches the next generation of timber rattlesnakes enter the world.

Episode #OM407R (9/12/15)

Journey Across The Pacific

Host Jeff Corwin travels from the coast of California to the cliffs of Alaska, from the volcanoes of Hawaii to the coral reefs of Australia, all on an epic journey to explore the mighty Pacific Ocean. Along the way Jeff comes face to face the mysterious two-spot octopus, helps unravel the communication of humpback whales, and participates in an important health assessment of a Southern sea otter.

Episode #OM410R (9/19/15)

Care To Coexist

Host Jeff Corwin explores the ways habitat loss, climate change, and pollution are threatening animal species around the world. Jeff investigates the pollution levels in Australian bull sharks, meets a Puerto Rican parrot that almost went extinct, and learns about the challenges facing rare turtles in his home state of Massachusetts.

Episode #OM411R (9/26/15)

Best of Babies

Host Jeff Corwin pays tribute to the smallest and cutest members of the animal kingdom. Jeff meets a group of fur seal pups of the rocky shoreline of New Zealand and helps nurse baby bats back to health in the remote forests of Australia. Later, Jeff travels to New England to explore a breeding program for the extremely endangered timber rattlesnakes, and finally to the shoreline of Tahiti where he comes face to face with a humpback whale calf.

SEA RESCUE
Saturday
July 4, 2015 – September 26, 2015
(Page 1 of 1)

Episode #SEA423 (7/04/15)

Deeply Moving

Leatherback sea turtles are huge, endangered and rarely come ashore, so when one turns up sick in Florida it's all hands on deck to save her. Then two fur seals strand in California and the SeaWorld team races to the rescue.

Episode #SEA424 (7/11/15)

Lost In The Fog

A gray whale is tangled up in commercial fishing gear near the U.S. border with Canada but disappears into the fog as a rescue team tries to free it. Then, a remarkable effort to help Florida sand hill cranes. These tall, conspicuous birds whose habitat has been heavily influenced by development face a wide range of threats and challenges.

Episode #SEA425 (7/18/15)

Mother Nature

In this special episode of Sea Rescue, four different natural events leave marine animals in need of help. Super storm Sandy devastates the East Coast of the U.S.; cold temperatures cause turtles to strand on Cape Cod; warmer temperatures promote the explosive growth of a toxic algal bloom that, in the worst of conditions, can prove deadly for Florida manatees; and a powerful storm system along California's coast affects the sea lion population.

Episode #SEA426 (7/25/15)

True or False

A daring team is on an extraordinary mission to save one of the biggest animals on the planet: the Right whale. Then, when a massive oil spill threatens endangered sea turtles in the Gulf of Mexico, rescuers race to save them.

Episode #SEA418R (8/01/15)

A Heartwarming Sight

A young dolphin wanders far inland from the Gulf and into a bayou where the fresh water could affect his health. Then the pioneering and inspiring tale of Briar the sea turtle who needs cataract surgery to restore his vision.

Episode #SEA419R (8/08/15)

On the Edge

When a shark floats listlessly in the shallow water of a marina, the SeaWorld Rescue team steps in to help and a pleasant surprise awaits them. Then, when sheriff's deputies respond a call of a body in the waters off the Florida coast, they discover this is not the emergency they were expecting.

Episode #SEA420R (8/15/15)

A Deadly Loop

Packing straps floating in the water are ending up around the necks of sea lions, but fortunately help is at hand. Then, a coastal bird called the Light Footed Clapper Rail faces a number of threats in the wild, so innovative rescuers find a way to preserve their numbers.

Episode #SEA421R (8/22/15)

Lifeline to Survival

A sea lion has fishing line wrapped tightly around her neck, so the SeaWorld Rescue team races to help her. Then, when they hatch, Leatherback turtles are supposed to scramble down the beach to start life in the sea, but one tiny hatchling is stuck in its nest and there's something wrong with its shell.

Episode #SEA422R (8/29/15)

It's A Wrap!

When SeaWorld rescues a newborn harbor seal it's so cold they wrap it in blankets to keep it alive. Then a sea turtle is rescued from a nuclear power plant in New Jersey and is flown thousands of miles to its new home.

Episode #SEA423R (9/05/15)

Deeply Moving

Leatherback sea turtles are huge, endangered and rarely come ashore, so when one turns up sick in Florida it's all hands on deck to save her. Then two fur seals strand in California and the SeaWorld team races to the rescue.

Episode #SEA424R (9/12/15)

Lost In The Fog

A gray whale is tangled up in commercial fishing gear near the U.S. border with Canada but disappears into the fog as a rescue team tries to free it. Then, a remarkable effort to help Florida sand hill cranes. These tall, conspicuous birds whose habitat has been heavily influenced by development face a wide range of threats and challenges.

Episode #SEA425R (9/19/15)

Mother Nature

In this special episode of Sea Rescue, four different natural events leave marine animals in need of help. Super storm Sandy devastates the East Coast of the U.S.; cold temperatures cause turtles to strand on Cape Cod; warmer temperatures promote the explosive growth of a toxic algal bloom that, in the worst of conditions, can prove deadly for Florida manatees; and a powerful storm system along California's coast affects the sea lion population.

Episode #SEA426R (9/26/15)

True or False

A daring team is on an extraordinary mission to save one of the biggest animals on the planet: the Right whale. Then, when a massive oil spill threatens endangered sea turtles in the Gulf of Mexico, rescuers race to save them.

THE WILDLIFE DOCS
Saturday
July 4, 2015 – September 26, 2015
(Page 1 of 1)

Episode #WD223 (7/04/15)

Red, White & Orang-utan

The Wildlife Docs are thrilled when "Indra," a 33-year old endangered female orangutan, recovers from an abdominal abscess and is now able to become pregnant. Then, on the fourth of July, the day of our independence, a bald eagle, the very symbol of our country, is seriously wounded and desperately needs the help of The Wildlife Docs.

Episode #WD224 (7/11/15)

Tooth or Hare

"Chai," a critically endangered black rhino, must undergo a dental procedure that will require all The Wildlife Docs' participation. Plus, "Lulu," a Flemish giant rabbit, is in the Animal Care Center to have a cyst removed. Find out if the Docs can heal this hefty hare.

Episode #WD225 (7/18/15)

Best of Edge of Africa: Lions, Lemurs & Meerkats

Experience the continent of Africa, as we meet five spectacular species, the king of beasts, leaping lemurs, huge hippos, a clan of meerkats and laughing hyenas, all need a visit from The Wildlife Docs.

Episode #WD226 (7/25/15)

Flying Fox & the Three Bears

When a mother black bear and her two cubs wandered into populated areas looking for food and creating a dangerous situation, Busch Gardens was asked to help by caring for the cubs until they could be returned back into the wild. Today, the mother bear is going to her new home. Then, a flying fox named "Kiwi" was found with a broken hand. The Docs must perform surgery before this mega-bat has a mega-problem.

Episode #WD214R (8/01/15)

BamBam and the Meerkats

The meerkat habitat at Busch Gardens has been completely re-done, and the meerkat clan is busy making it their own. Plus, a new alpha female named "Zola" is taking over the leadership of the clan from her mother. Then, meet "BamBam," a lesser anteater. Unfortunately, "BamBam" has developed an appetite for something other than ants which has made him very sick.

Episode #WD221R (8/08/15)

The Fast and the Fastest

The team has been hand raising two adorable cheetah cubs since they were several weeks old. Now, The Wildlife Docs must make sure they are healthy enough to move into their new home at the park. Then, the Docs pay an African antelope a visit after the team discovers that she has been having trouble eating.

Episode #WD223R (8/15/15)

Red, White & Orang-utan

The Wildlife Docs are thrilled when "Indra," a 33-year old endangered female orangutan, recovers from an abdominal abscess and is now able to become pregnant. Then, on the fourth of July, the day of our independence, a bald eagle, the very symbol of our country, is seriously wounded and desperately needs the help of The Wildlife Docs.

Episode #WD225R (8/22/15)

Best of Edge of Africa: Lions, Lemurs & Meerkats

Experience the continent of Africa, as we meet five spectacular species, the king of beasts, leaping lemurs, huge hippos, a clan of meerkats and laughing hyenas, all need a visit from The Wildlife Docs.

Episode #WD219R (8/29/15)

Best of Jungala: Orangutans, Tigers & Otters

Busch Gardens own Jungala is like visiting the lush rainforest of Southeast Asia which plays home to a wealth of wildlife found few other places on earth. We'll swing by the orangutans, go swimming with otters, be amazed by the majesty of tigers and hang out with flying foxes, also known as mega-bats.

Episode #WD218R (9/05/15)

Flying High & Feeling Low

Both a giant anteater and a lesser anteater have had babies! Plus, "Comet" the young, giant anteater has to visit The Wildlife Docs. Then, when a young, wild eagle with severe injuries is brought to the Animal Care Center, it takes not one, but two Docs to perform surgery in hopes of returning this battered bird to the wild.

Episode #WD224R (9/12/15)

Tooth or Hare

"Chai," a critically endangered black rhino, must undergo a dental procedure that will require all The Wildlife Docs' participation. Plus, "Lulu," a Flemish giant rabbit, is in the Animal Care Center to have a cyst removed. Find out if the Docs can heal this hefty hare.

Episode #WD226R (9/19/15)

Flying Fox & the Three Bears

When a mother black bear and her two cubs wandered into populated areas looking for food and creating a dangerous situation, Busch Gardens was asked to help by caring for the cubs until they could be returned back into the wild. Today, the mother bear is going to her new home. Then, a flying fox named "Kiwi" was found with a broken hand. The Docs must perform surgery before this mega-bat has a mega-problem.

Episode #WD220 (9/26/15)

We're not Lion, there's an Elephant

The park's youngest pride of lions is growing up, and one of the female cubs is due in for an important appointment with The Wildlife Docs. Plus, the team at Busch Gardens must move a thirteen thousand pound Asian bull elephant to a new habitat. The elephant team has been working with "Spike" for months, training him to voluntarily enter a transportation crate that will be hoisted by a construction crane. Will "Spike" stay calm in the air?

OUTBACK ADVENTURES

Saturday

July 4, 2015 – September 26, 2015

(Page 1 of 1)

Episode #OA123 (7/04/15)

Fine Feathered Friends

Tim gives aid to an injured cormorant, feeds bush-stone curlew chicks and checks in on a cassowary chick with a surprising best friend.

Episode #OA124 (7/11/15)

Wacky Wombats & Wallabies

Tim tries to catch rock-wallabies for a check-up and spends some time with wombats at the Reptile Park and in the wild.

Episode #OA125 (7/18/15)

Koalas and Crocs

Tim explores crocodile conservation in Queensland, searches for a missing koala and gets some help at the Reptile Park from his young son Bill.

Episode #OA126 (7/25/15)

Tree Kangaroo Tales

Tim travels around Australia to learn more about the state of the elusive tree kangaroo.

Episode #OA118R (8/01/15)

Captain Kangaroo

Tim visits northern Queensland to help with the rehab of Kimberly, a colicky young tree kangaroo, and helps remove a dangerous death adder from a couple's yard.

Episode #OA119R (8/08/15)

Catch and Release

Tim visits Tasmania to round up tiger snakes around town, helps return a rehabilitated green sea turtle to the ocean and takes massive python Atomic Betty out to be weighed.

Episode #OA120R (8/15/15)

Daddy Day Care

Tim brings his son Bill to the Park to help out with the animals, and helps remove some unwanted guests from a local home and goes on snake patrol in Alice Springs.

Episode #OA121R (8/22/15)

Kangaroo Jack

Tim explores the fascinating features of the kangaroo, explores Tasmania for its three snake species and gets some assistance from his son Bill at the Reptile Park with a wombat and a tortoise.

Episode #OA122R (8/29/15)

Bower Power

Tim finds golden bower birds and their elaborate bowers, goes in search of wild tree kangaroos and takes his son Bill to the park to help out with the koalas and a chameleon.

Episode #OA123R (9/05/15)

Fine Feathered Friends

Tim gives aid to an injured cormorant, feeds bush-stone curlew chicks and checks in on a cassowary chick with a surprising best friend.

Episode #OA124R (9/12/15)

Wacky Wombats & Wallabies

Tim tries to catch rock-wallabies for a check-up and spends some time with wombats at the Reptile Park and in the wild.

Episode #OA125R (9/19/15)

Koalas and Crocs

Tim explores crocodile conservation in Queensland, searches for a missing koala and gets some help at the Reptile Park from his young son Bill.

Episode #OA126R (9/26/15)

Tree Kangaroo Tales

Tim travels around Australia to learn more about the state of the elusive tree kangaroo.

BORN TO EXPLORE

Saturday

July 4, 2015 – September 26, 2015

(Page 1 of 1)

Episode #BTE423 (7/04/15)

Land of the Vikings

Join host Richard Wiese as he journeys to Scotland and Iceland to investigate how Viking invaders from 1200 years ago left their indelible mark on those cultures. In the Shetland Islands of Scotland, he climbs aboard a Viking long ship for the sail of a lifetime. In Iceland, Richard tastes the national dish called "Viking candy" and discovers that it's really, rotten shark. Then, in a mock battle, he experiences what it might have been like to face off against two Viking warriors.

Episode #BTE424 (7/11/15)

Discovering India

Join Richard Wiese as he discovers India by rickshaw, samples savory cuisine and learns why yoga nourishes body and soul. Experience the rhythms of a Indian rural village with a family of dancers. Richard takes to the streets for a game of gully cricket and travels to Kanchipuram, the City of a Thousand Temples to receive the Hindu "archana" blessing.

Episode #BTE425 (7/18/15)

British Traditions

Host Richard Wiese heads to England to experience the traditions that define the British character. In London, he enjoys an oh-so-civilized afternoon of high tea. Then, in the Dartmoor region, Richard tries his hand at the ancient art of beekeeping, as well as fly fishing and falconry. And he also explores recent sightings of ghostly beasts that many say are roaming Dartmoor's foggy moors. From ancient traditions to modern-day mysteries, he experiences it all.

Episode #BTE426 (7/25/15)

Taste of the Mediterranean

Join host Richard Wiese as he travels to Morocco, Turkey and Cyprus to explore their shared Mediterranean roots and sample their cultures and cuisine. In Morocco's Atlas Mountains, Richard discovers the true spirit of welcome with Berber tribes. In the Cappadocia region of Turkey, he floats in a hot air balloon over stunning volcanic formations called "fairy chimneys" and learns to make grape molasses. In Cyprus, Richard joins two fishermen whose families have plied the Mediterranean waters for generations and he milks goats to make one of Cyprus' tastiest treats, halloumi cheese.

Episode #BTE406R (8/01/15)

Morocco: Exotic Land

Host Richard Wiese journeys across Morocco to discover the spirit of this exotic North African land. In Marrakech, he explores the Djemma el Fna, the thousand year-old marketplace where snake charmers, fortunetellers, monkeys and musicians create a raucous, lively mix. He travels to the Atlantic coast to spear fish with local fishermen and then grills his catch. Richard explores a remote village in the rugged Atlas Mountains, where he's welcomed into the home of a Berber family and discovers the true meaning of Moroccan hospitality.

Episode #BTE409R (8/15/15)

Inspired By Nature

Richard Wiese is on an unusual adventure - to discover the many ways that nature can inspire, transform and heal us. In Maine, Richard encounters an extraordinary dog who shows us the true meaning of courage. He meets an artist whose inspiration comes from the rivers and streams of Connecticut. And he meets a man who lived a busy urban life and has now found a rare sense of peace - and place - in the forests of North Carolina.

Episode #BTE405R (8/15/15)

A Seal's Life

Join Richard Wiese as he explores the world of seals. See how the seal population in Canada impacts polar bears and reflects global climate change. Richard joins a team of dedicated scientists who rescue orphaned and injured harbor seals and helps to return three rehabilitated pups back to the ocean. In Hawaii, another group of researchers checks the health of a pregnant seal.

Episode #BTE423R (8/22/15)

Land of the Vikings

Join host Richard Wiese as he journeys to Scotland and Iceland to investigate how Viking invaders from 1200 years ago left their indelible mark on those cultures. In the Shetland Islands of Scotland, he climbs aboard a Viking long ship for the sail of a lifetime. In Iceland, Richard tastes the national dish called "Viking candy" and discovers that it's really, rotten shark. Then, in a mock battle, he experiences what it might have been like to face off against two Viking warriors.

Episode #BTE426R (8/29/15)

Taste of the Mediterranean

Join host Richard Wiese as he travels to Morocco, Turkey and Cyprus to explore their shared Mediterranean roots and sample their cultures and cuisine. In Morocco's Atlas Mountains, Richard discovers the true spirit of welcome with Berber tribes. In the Cappadocia region of Turkey, he floats in a hot air balloon over stunning volcanic formations called "fairy chimneys" and learns to make grape molasses. In Cyprus, Richard joins two fishermen whose families have plied the Mediterranean waters for generations and he milks goats to make one of Cyprus' tastiest treats, halloumi cheese.

Episode #BTE424R (9/05/15)

Discovering India

Join Richard Wiese as he discovers India by rickshaw, samples savory cuisine and learns why yoga nourishes body and soul. Experience the rhythms of a Indian rural village with a family of dancers. Richard takes to the streets for a game of gully cricket and travels to Kanchipuram, the City of a Thousand Temples to receive the Hindu "archana" blessing.

Episode #BTE425R (9/12/15)

British Traditions

Host Richard Wiese heads to England to experience the traditions that define the British character. In London, he enjoys an oh-so-civilized afternoon of high tea. Then, in the Dartmoor region, Richard tries his hand at the ancient art of beekeeping, as well as fly fishing and falconry. And he also explores recent sightings of ghostly beasts that many say are roaming Dartmoor's foggy moors. From ancient traditions to modern-day mysteries, he experiences it all.

Episode #BTE422R (9/19/15)

"Amazing Animals"

Born to Explore journeys around the world to meet amazing animals. Richard Wiese comes face to face with the mighty polar bear in the Arctic to see how these creatures survive in the frozen tundra. Then, meet the fastest land animal on earth, the cheetah. Travel to Namibia, known as the cheetah capital of the world where Richard has an up-close encounter with these magnificent cats. A group of students explores the world through Microsoft Education using 21st century technology to join Richard on a virtual field trip to the Everglades. Experience the thrill of feeding dozens of alligators and find out what makes them unique. Travel to Botswana to meet a family of orphaned elephants and the human parents who have adopted them.

Episode #BTE420R (9/26/15)

"Tanzania: The Rooftop of Africa"

Host Richard Wiese travels to Tanzania to make his 14th ascent of Mt. Kilimanjaro, the tallest mountain in Africa. He brings along his nephews and several friends. This climb is particularly compelling for Richard: he's concerned about whether 55 year-old David Ader, who suffered a heart attack several years ago, can make it to the top. The Born to Explore team was climbing for a cause and raised several thousand dollars to provide cows for a nearby orphanage. Richard presents a gift of six milk, producing cows which will help make the orphanage agriculturally self-sufficient.

DRAGONFLY TV

Saturday

July 4, 2015 – September 26, 2015

(Page 1 of 2)

Episode #F-218 (7/04/15)

- Young kayakers investigate why there are so many boulders present in white water rapids and how they affect the water's speed and direction.
- Rock climbers learn about the geology of various rock formations, and discover how different kinds of rock each present their own set of climbing challenges.
- Science Riddle: How do you cut a rock without a saw?
- Visiting an aquatic biologist.

Episode #F-219 (7/11/15)

- Young aviation enthusiasts analyze various airplane wing designs to determine the best wing cross-section for acrobatic flying.
- Para-gliders investigate how to find the best thermals for gliding, discovering how thermals are formed and measuring their strength.
- Stunt pilots give a practical demonstration of the use of symmetrical cross-section wings.
- Science Riddle: How do you ride a wake board without a speed boat?
- Visiting an engineer who invented a flying wing for hang gliders.

Episode #F-220 (7/18/15)

- Kids analyze the wreckage from a tornado to determine the tornado's wind speed and strength.
- Young scientists head to the National Center for Atmospheric Research to learn how to create a tornado in the laboratory.
- Reading the weather: youngsters compare traditional methods of predicting the weather to see which is the most accurate.
- Science Riddle: How can weather be used to stop a criminal in his tracks?
- Visiting a meteorologist.

Episode #F-221 (7/25/15)

- GEMS (Girls in Engineering Math and Science) build a computer-controlled robot to enter in a competition based on tasks required for the International Space Station.
- A visit to the Santa Monica Pier to see the world's first solar-powered Ferris wheel.
- Experimenting with solar-powered vehicles.
- Science Riddle: How do you get electricity from a cow?
- Visiting a robot designer.

Episode #F-222 (8/01/15)

- Young scientists take a trip to the Florida Everglades to learn how non-native plant species are threatening the existence of the Florida panther, and a way to combat that threat.
- Scuba divers explore the various habitats in the underwater kelp forests surrounding Catalina Island.
- Fall foliage: investigating why trees change colors at different rates.
- Science Riddle: How do you sort 600 apples in 60 seconds?

Episode #F-223 (8/08/15)

- Using model sail boats, young scientists investigate which sail angle to the wind produces the greatest boat speed.
- The science of hot-air ballooning, revealing how hot air can lift a balloon that is as tall as a five-story building.
- The data gathered using model sail boats is put to the test on a 40-foot sloop sailing in New York Harbor.
- Science Riddle: How can you use air to right an overturned big rig truck?
- Visiting an engineer who developed a new kind of water gun.

Episode #F-224 (8/15/15)

- Testing concentration by measuring how well subjects can pay attention to two things at once, comparing perception to reality.
- Investigating how various types of roller coasters and amusement park rides affect heart rates.
- Measuring how complex tasks, in this case counting the number of passes made during a soccer game, affects perception.
- Science Riddle: How can you tell which part of your brain is working?
- Visiting a web developer.

Episode #F-225 (8/22/15)

- Testing the potential use of coconuts as food in space exploration, devising methods to test their suitability.
- Studying how craters on the moon were formed, coming up with experiments to simulate asteroid strikes on the lunar surface.
- Comparing samples of coconuts taken on the space shuttle with control samples on earth.
- Science Riddle: How would you move heavy equipment around on Mars?
- Visiting a bio-engineer.

Episode #F-226 (8/29/15)

- Analyzing the strength of Tae Kwon Do kicks, investigating how foot position affects balance and power.
- Investigating how the sense of smell affects how food tastes.
- Applying the results of the Tae Kwon Do investigation in an actual Tae Kwon Do tournament.
- Science Riddle: How can a trumpet player sustain a note for five-minutes without running out of breath?
- Visiting an anatomical model-maker.

Episode #F-201 (9/05/15)

- Young figure skaters develop and carry out experiments to understand why certain spinning moves cause more dizziness than others.
- Go kart racers work on optimizing their go karts to suit different track conditions, learning how varying gear ratios and engine rpms affect performance.
- Developing a system of observation and comparison, young animal lovers investigate which baby animals grow the fastest. Youngsters chart and compare baby chickens, cows and pigs.
- Science Riddle: How can you keep a boat from rocking on the water?
- Visiting an ice cream scientist.

DRAGONFLY TV
Saturday
July 4, 2015 – September 26, 2015
(Page 2 of 2)

Episode #F-202 (9/12/15)

- Training for survival in winter conditions, youngsters learn how to build a traditional shelter from snow, then measure and compare temperatures inside and outside the shelter.
- Girls from the Creek Nation look for inexpensive and durable building materials to help address a housing shortage. They devise and execute tests comparing cinder blocks, straw & stucco and straw bales for insulating properties and fire and water resistance.
- A young inventor designs a safer shelter for ice fishing, including solar panels and emergency flotation.
- Science Riddle: How do you climb the outside of a skyscraper without ropes or harness?
- Visiting a seismic engineer.

Episode #F-203 (9/19/15)

- Investigating the physics of water skiing, young water skiers compare how various types of skis and wakeboards perform.
- Soccer players invent methods to measure and test kicking performance, learning how strength affects distance.
- Young circus performers invent a “wobble meter” to investigate balance, learning how and why a pole can help a tight rope walker keep from falling.
- Science Riddle: How can you make an odor-proof shirt?
- Visiting a video game designer.

Episode #F-204 (9/26/15)

- Practical physics on the slopes—young skiers investigate how to control rotation during spinning trick by using their arms. They observe the effects of moving their arms in and out, and learn to improve their control.
- Young yo-yo experts develop several experiments to see what factors affect performance. In particular, they investigate how altering string length changes the way a yo-yo “sleeps.”
- Science Riddle: How can you send a message using a spinning disk?
- Visiting a meteorologist.

BIZ Kids
Saturday
July 4, 2015 – September 26, 2015
(Page 1 of 1)

Episode #BK-118 (7/04/14)

"Saving and Investing for Your Future"

You'll learn along with the Biz Kids about the powerful potential of starting a savings plan early in life. You'll also discover various savings and investing options available to young people. As always, you'll meet individuals who are successful at saving and at their businesses.

Episode #BK-119 (7/11/14)

"A Closer Look at Financial Careers"

When is a job more than a job? The Biz Kids look at what it takes to find your true calling. You'll learn ways to start exploring careers. The kids talk to several celebrities and find out how they got their start and how they keep achieving their dreams.

Episode #BK-120 (7/18/14)

"The Global Economy"

Around the world with the Biz Kids! Join us and you'll follow the flow of imports and exports that make up the interconnected world economy. You will discover who makes the many things we use every day that come from all over the world. You'll also see how several entrepreneurs have made a success of their businesses, despite the pressures of the world economy.

Episode #BK-121 (7/25/14)

"Bulls, Bears, and Financial Markets"

Kids and bulls and bears, oh my! The Biz Kids examine stocks, bonds, commodities, and the markets where each of them are traded. You will discover various ways young people can get involved with the transactions, aim for profit, and avoid risk. Meet some successful entrepreneurs along the way.

Episode #BK-122 (8/01/14)

"Sell, Sell, Sell (The Science of Sales)"

All sales final. Join the Biz Kids in sales training as they explore philosophy and sales techniques. Discover the traits common to all good salespeople. You'll meet several entrepreneurs who demonstrate superior sales skills!

Episode #BK-123 (8/08/14)

"Understanding Income and Expenses"

Go with the cash flow. The Biz Kids watch the ebb and flow of income and expenses. Join them and you'll learn proven methods for getting expenses under control while growing income with new ideas, smarter work habits, and innovation. Meet some entrepreneurs who have seen success with cash low and more!

Episode #BK-124 (8/15/14)

"Building and Growing a Business"

From start-up on up! Follow the Biz Kids as they learn the necessary steps for organizing, staffing, training, and building a new business. You will see how effective communication increases morale and makes the business grow. As always, you'll meet some individuals who have successfully built their businesses.

Episode #BK-125 (8/22/14)

"Understanding Your Paycheck"

What's on your stub, bub? The Biz Kids use a modern American pay stub to explore various social movements of the last century. From unions to social security and from workman's compensation to the 401(k) plans of today—it's all there on the stub. Plus, you'll meet entrepreneurs and explore how they started their businesses.

Episode #BK-126 (8/29/14)

"Social Entrepreneurs"

Join the Biz Kids and you'll meet social visionaries who use the same tools as profit-oriented entrepreneurs. Yet instead of building companies and large profits, these people create thriving organizations and powerful movements for social change.

Episode #BK-101 (9/05/14)

"What Is a Biz Kid?"

You'll learn that anybody can be a Biz Kid with effort and the right attitude. Biz Kids identify a need, make a plan, and take action. Join us and you'll meet a skateboard designer, a rap music producer, a boy who started a rock-a-thon to raise money for hospital rocking chairs, and more. You'll also discover the entrepreneur who built a wildly successful garden products business on ... worm poop. All successful. All Biz Kids.

Episode #BK-102 (9/12/14)

"What Is Money?"

The Biz Kids say: "Show me the money!" Join us and you'll take a grand tour through the history of money from the days of bartering, through the first coins and currency, all the way to the electronic transfers of today. Watch as the Biz Kids put on cowboy boots and get a crash course in the art of negotiation and exchange at a high-energy cattle auction in Colorado.

Episode #BK-103 (9/19/14)

"How Do You Get Money?"

Join us and you'll explore many ways to make money. Follow a Biz Kid on a job hunt—reviewing help wanted ads, filling out the application, and going through the interview. Hear from business celebrities, including Amazon.com founder Jeff Bezos, as they talk about their very first jobs. The Biz Kids also look at the many ways kids get and use allowances. Meet a young person whose love of animals turned into a profitable dog-walking business.

Episode #BK-104 (9/26/14)

"What Can You Do with Money?"

Decisions, decisions! Join the Biz Kids and you'll ponder the merits of spending, saving, donating, and investing money. Visit the New York Stock Exchange, get tips from the author of Not Buying It, and learn to avoid compulsive shopping. You can also learn how to create a financial diary and track spending. Meet an ambitious teen who opened a candy store at age 15 and, in the process, fulfilled a dream and revived an ailing business district in her small town.

DOG TALES

Host: Alex Paen
Saturday
July 4, 2015 – September 26, 2015
(Page 1 of 2)

Episode #D-177 (7/04/15)

- The Luttenbacher family of Monrovia, California, introduces viewers to their two pit bulls, Cabo and Charlotte. Family members describe their dogs' behavior and personality.
- Segment Introduces young viewers to a unique donation program: Operation Blankets of Love, providing blankets and other items to shelters.
- Ask the vet: Danger from anti-freeze.
- Breed profile: German Shepherd. Viewers learn all about this particular breed.
- Shelter of the week: Adoptable dogs from San Diego, CA.

Episode #D-190 (7/11/15)

- The Tristan family of Georgetown, Texas introduces viewers to their dogs. Family members describe the each dog's unique behaviors and personality.
- Segment features Los Angeles police officers rescuing strays and finding them new homes.
- Ask the vet: veterinary advice for trimming nails.
- Breed profile: Afghan Hounds. Viewers learn all about a particular breed.
- Shelter of the week: Adoptable dogs from Columbus, OH.

Episode #D-189 (7/18/15)

- The Shniderman family of West Hills, California introduces viewers to their lovable lab, Pepper. Family members describe the dog's unique behavior and personality.
- Segment features an Australian dog behaviorist and trainer who works with families.
- Helping dogs with limb problems.
- Ask the vet: Scooting.
- Breed profile: Chihuahua. Viewers learn all about this particular breed.
- Shelter of the week: Adoptable dogs from Chicago, IL.

Episode #D-188 (7/25/15)

- The Bush Family of Henderson, Nevada, introduces viewers to Coco and Truffles, a pair of Yorkshire terriers. Family members describe the breed's behavior and personality.
- A report on a herding school for dogs.
- Ask the vet: Cleaning your dog's teeth.
- Training tip: Coping with separation anxiety.
- Breed profile: Border Collies. Viewers learn all about this particular breed.
- Shelter of week: Adoptable dogs from Tulsa, OK.

Episode #D-182 (8/01/15)

- The Rayburg family of San Antonio, Texas, introduces viewers to their two rescued dogs, Cassie and Rocky. Family members describe each dog's unique behavior and personality.
- Segment features fire and rescue dogs in Paris, France.
- Segment featuring a visit with a professional dog photographer.
- Ask the vet: Cleaning ears.
- Breed profile: Border Collies. Viewers learn all about this particular breed.
- Shelter of the week: Adoptable dogs from Greenbelt, MD.

Episode #D-176 (8/08/15)

- The Esrig of Las Vegas, Nevada, introduces viewers to their golden retriever named Bailey. Family members describe their dog's unique behavior and personality.
- Young viewers learn about the training of dogs for law enforcement work.
- Training tip: Playing with toys.
- Ask the vet: Pet insurance.
- Breed profile: Beagle. Viewers learn all about this particular breed. Shelter of the week: Adoptable dogs from Chicago, IL.

Episode #D-175 (8/15/15)

- The Altamirano family of West Hills, California, introduces viewers to their two beagles, Sparky and Solomon. Family members describe their dogs' behavior and personality.
- We visit a state-of-the-art facility specializing in the care of German shepherds, providing rescue and adoption services.
- Ask the vet: Table scraps.
- Breed profile: Cairn Terriers. Viewers learn all about this particular breed.
- Shelter of the week: Adoptable dogs from Green Bay, WI.

Episode #D-174 (8/22/15)

- The Struble Family of Newhall, California, introduces viewers to their Chluqua named Chilian and Roxie, their golden retriever. Family members describe each dog's unique behavior and personality.
- Traveling to Russia, segment focuses on a unique program to help stray dogs, combining practical information with compassion and cultural sensitivity.
- Medical tip: Over-eating.
- Training tip: Teaching the "sit" command.
- Ask the vet: How to recognize canine diabetes.
- Breed profile: Black & tan coonhounds. Viewers learn all about this particular breed.
- Book recommendations from Scholastic.
- Shelter of the week: Adoptable dogs from Phoenix, AZ.

DOG TALES
Host: Alex Paen
Saturday
July 4, 2015 – September 26, 2015
(Page 2 of 2)

Episode #D-173 (8/29/15)

- The Schwarz family of Schertz, Texas, introduces viewers to Katie, a loveable mixed breed. Family members describe the dog's unique story and personality.
- Swimming for dogs; learning the benefits of aquatic training for dogs.
- Training tip: Giving attention.
- Ask the vet: The dangers of anti-freeze poisoning.
- Breed profile: Pit Bulls. Viewers learn all about this particular breed.
- Shelter of the week: Adoptable dogs from Cleveland, OH.

Episode #D-1001 (9/05/15)

- Family dog profile.
- Los Angeles Care & Training Center
- Training tip: Separation anxiety
- Breed profile: Collies

Episode #D-1002 (9/12/15)

- Family dog profile.
- At-risk teenager dog training program
- Training tip: Teaching tricks
- Breed profile: Cairn Terriers

Episode #D-1003 (9/19/15)

- Family dog profile.
- Teaching dogs herding techniques
- Training tip: Jumping up
- Breed profile: Chihuahuas

Episode #D-1004 (9/26/15)

- Family dog profile.
- A visit to Beagle Freedom Rescue
- Training tip: Smelly accidents
- Breed profile: Cavalier King Charles Spaniels

MISSING
Host: Alex Paen
Saturday
July 4, 2015 – September 26, 2015
(Page 1 of 2)

Episode #M-866 (7/04/15)

- Profiling the cases of 21 missing children and 3 missing adults.
- Internet Safety tip: Be skeptical of on-line personas, and never put your trust—or safety—in the hands of someone you've never met in person.
- Advice for teaching children and teens about emergency contacts, rehearsing safety skills and using the buddy system.
- Safety Quiz: What to do if you see a peeping tom.
- Safety Tip: Safeguarding teens against on-line predators.
- An instructional message from the National Center for Missing and Exploited Children.

Episode #M-867 (7/11/15)

- Profiling the cases of 20 missing children and 3 missing adults.
- Internet Safety tip: Teaching children safe surfing practices and how to recognize potential dangers on-line.
- Advice for teaching children and teens to trust their instincts if a situation makes them feel anxious, scared or just weird; doing your homework when hiring a baby-sitter.
- Safety Quiz: What to do if your ride home from school is late.
- Safety Tip: How to avoid being lured into a stranger's car.
- A look inside the forensic imaging department of the National Center for Missing and Exploited Children.

Episode #M-868 (7/18/15)

- Profiling the cases of 20 missing children and 2 adults.
- Internet Safety Tip: Warning children about false on-line identities and limiting the amount of informing in on-line profiles.
- Instructing children to check with a trusted adult before going anywhere, plus strategies for safety when using public transportation.
- Safety Quiz: How to react to an attempted kidnapping.
- Safety Tip: Staying safe in public places using the "yell and tell" method.
- A look inside the forensic imaging department of the National Center for Missing and Exploited Children.

Episode #M-869 (7/25/15)

- Profiling the cases of 22 missing children and 2 missing adults.
- Internet Safety tip: Using good judgment when posting photos or videos on-line, making sure not to reveal personal information.
- Advice for teaching children and teens on how to deal with strangers, plus keep track of activities and maintaining current photos and descriptions.
- Safety Quiz: Keeping safe at the school bus stop.
- Safety Tip: Strategies for keeping children safe when they are left home alone.
- A look inside the forensic imaging department of the National Center for Missing and Exploited Children.

Episode #M-870 (8/01/15)

- Profiling the cases of 20 missing children and 3 missing adults.
- Internet Safety tip: Be skeptical of on-line personas, and never put your trust—or safety—in the hands of someone you've never met in person.
- Advice for teaching children and teens about emergency contacts, rehearsing safety skills and using the buddy system.
- Safety Quiz: What to do if you see a peeping tom.
- Safety Tip: Safeguarding teens against on-line predators.
- A look inside the forensic imaging department of the National Center for Missing and Exploited Children.

Episode #M-871 (8/08/15)

- Profiling the cases of 20 missing children and 2 missing adults.
- Internet Safety tip: Advising parents to learn common on-line slang and acronyms so they can understand their children's e-mails and IMs.
- Advice for teaching children and teens to trust their instincts if a situation makes them feel anxious, scared or just weird; doing your homework when hiring a baby-sitter.
- Safety Quiz: Selecting the safest place to park.
- Safety Tip: Looking for the warning signs that a teen is at-risk for running away from home.
- An instructional message from the National Center for Missing and Exploited Children.

Episode #M-872 (8/15/15)

- Profiling the cases of 24 missing children and 3 adults.
- Internet Safety Tip: Blocking unwanted instant messages and e-mails from unknown or unwanted sources.
- Instructing children to check with a trusted adult before going anywhere, plus strategies for safety when using public transportation.
- Safety Quiz: Advising children not to answer the door if their parents are not at home.
- Safety Tip: Providing clear guidelines for and instructions for children and parents when visiting amusement parks and public events.
- An instructional message from the National Center for Missing and Exploited Children.

Episode #M-873 (8/22/15)

- Profiling the cases of 22 missing children and 2 missing adults.
- Internet Safety tip: Avoid posting on blogs or social networking site when angry or upset.
- Advice for teaching children and teens about emergency contacts, rehearsing safety skills and using the buddy system.
- Safety Quiz: Making sensible choices when parking your car.
- Safety Tip: Advice teens keeping safe when using their cell phones.
- An instructional message from the National Center for Missing and Exploited Children.

MISSING
Host: Alex Paen
Saturday
July 4, 2015 – September 26, 2015
(Page 2 of 2)

Episode #M-874 (8/29/15)

- Profiling the cases of 25 missing children and 2 missing adults.
- Internet Safety tip: Choosing a child-friendly ISP and using safety options to help protect children.
- Advice for teaching children and teens on how to deal with strangers, plus keep track of activities and maintaining current photos and descriptions.
- Safety Quiz: How to react to an attempted kidnapping.
- Safety Tip: Setting sensible rules for teens.
- An instructional message from the National Center for Missing and Exploited Children.

Episode #M-875 (9/05/15)

- Profiling the cases of 22 missing children and 1 missing adult.
- Internet Safety tip: Teaching children to tell a trusted adult if they encounter disturbing images or anything that makes them feel uncomfortable on-line.
- Advice for teaching children and teens about emergency contacts, rehearsing safety skills and using the buddy system.
- Safety Quiz: Setting the rules for teens going out.
- Safety Tip: Teaching children that they are not responsible for helping adults, but should seek help from a parent or other trusted adult.
- An instructional message from the National Center for Missing and Exploited Children.

Episode #M-876 (9/12/15)

- Profiling the cases of 21 missing children and 3 missing adults.
- Internet Safety tip: Teaching children safe surfing practices and how to recognize potential dangers on-line.
- Advice for teaching children and teens to trust their instincts if a situation makes them feel anxious, scared or just weird; doing your homework when hiring a baby-sitter.
- Safety Quiz: What to do if your ride home from school is late.
- Safety Tip: How to avoid being lured into a stranger's car.
- An instructional message from the National Center for Missing and Exploited Children.

Episode #M-877 (9/19/15)

- Profiling the cases of 21 missing children and 2 adults.
- Internet Safety Tip: Warning children about false on-line identities and limiting the amount of informing in on-line profiles.
- Instructing children to check with a trusted adult before going anywhere, plus strategies for safety when using public transportation.
- Safety Quiz: How to react to an attempted kidnapping.
- Safety Tip: Staying safe in public places using the "yell and tell" method.
- An instructional message from the National Center for Missing and Exploited Children.

Episode #M-878 (9/26/15)

- Profiling the cases of 24 missing children.
- Internet Safety tip: Using good judgment when posting photos or videos on-line, making sure not to reveal personal information.
- Advice for teaching children and teens on how to deal with strangers, plus keep track of activities and maintaining current photos and descriptions.
- Safety Quiz: Keeping safe at the school bus stop.
- Safety Tip: Strategies for keeping children safe when they are left home alone.
- An instructional message from the National Center for Missing and Exploited Children.

JACK HANNA'S INTO THE WILD

Sunday

July 5, 2015 – September 27, 2015

(Page 1 of 1)

Episode 807R (7/05/15)

"Wings over Curacao"

Jack is heading to the island-nation of Curacao for some quality time with its winged residents. From fearless flying Bats, and powerful Ostrich to pretty-in-pink Flamingos.

Episode 808R (7/12/15)

"Zulu Nation"

Jack heads into South Africa's Zululand and Hluhluwe-iMfolozi Park – the oldest nature reserve in Africa, where he encounters Baboons, Elephant, Rhino and more, all after witnessing the birth of a baby at the Zulu Nyala Game Reserve.

Episode 809R (7/19/15)

"Best of The Great Apes"

Jungle Jack is crisscrossing the planet to meet up with Gorillas, Chimpanzees and Orangutans. Come along for a journey with our closest living relatives, the Great Apes.

Episode 507R (7/26/15)

"Anti-Poaching Patrol"

With rhino poaching in Southern Africa on the rise, Jack travels to Zimbabwe to see rhino conservation in action. Jack goes behind-the-scenes of the International Anti-Poaching Foundation to see how they are bringing paramilitary techniques to the front lines of conservation in a fight to protect Africa's rhinos.

Episode 409R (8/02/15)

"Wild Patagonia"

Join Jack and Sue as they head to southern tip of Chile to explore the untamed region of Patagonia! The land beneath the towering Andes Mountains is home to Condors, Guanacos and some of the most beautiful Glaciers in the world – and Jack even learns what it takes to be a South American cowboy!

Episode 419R (8/09/15)

"Jungle Cruise"

Jungle Jack's taking a Jungle Cruise through the Amazon as he searches for elusive pink river dolphins. But, along the way, Jack gets a lot more than he bargained for... from a sloth to giant river otters and even anacondas! This is one adventure you won't want to miss.

Episode 314R (8/16/15)

"The Littlest Elephants"

Join Jack as he travels to the remote Sukau River on the island of Borneo in Malaysia where he gets a seldom-seen look at pygmy elephants as they emerge from the rain forest. Then after a dawn river boat excursion where Jack spots rare proboscis monkeys, a camouflaged pit viper, and curious long-tailed macaques; Jack treks through the rainforest to see orangutans in the wild – the only great ape he has yet to see in its native habitat.

Episode 504R (8/23/15)

"Zoo to You"

Jack and Sue are headed to Paso Robles, California to go behind-the-scenes at the "Zoo to You" ranch, where rescued wildlife become animal ambassadors. They get up close and personal with a Bear, Bengal Tiger, Camel, Peregrine Falcon and much more!

Episode 812R (8/30/15)

"Best of Curacao"

Come along for an epic adventure to the tropical Caribbean Island of Curacao! Join Jungle Jack as he braves a deep diving Submarine, encounters Dolphins on the high seas, and rolls up his sleeves for Coral Reef Conservation.

Episode 810R (9/06/15)

"Big Horn Transport"

It's moving day for Arizona's Big Horn Sheep! Come along with Jungle Jack as he joins the massive operation to relocate several Big Horns from Tonto National Forest to the Catalina Mountains in an effort to reintroduce the animals back into their native range.

Episode 811R (9/13/15)

"Gabon's Primates"

Gabon's pristine habitats are prime for primates! Come along as Jungle Jack meets up with conservationists to learn about the future of primates big and small, including Chimpanzees, Gorillas, Mandrills and more!

Episode 813R (9/20/15)

"Best of Florida"

Jungle Jack is exploring the state of Florida from the bottom up! From Sea Turtles in the Florida Keys, to Gators in the Swamp, Manatees in Crystal River to Cheetahs and Rhinos living large at White Oak. Come along for some fun in the Florida sun!

Episode 605R (9/27/15)

"Zimbabwe: Cats and Dogs"

At Hwange National Park in Zimbabwe, Jack heads out on a Lion-tracking expedition learning the dynamic social structure of these amazing Big Cats! And, Jack hits the trail looking for one of the most rare and endangered species in Africa -- African Wild Dogs. All before diving into Devil's Pool for one-of-a-kind view of Victoria Falls.

WILD ABOUT ANIMALS

Sunday

July 5, 2015 – September 27, 2015

(Page 1 of 1)

Episode #143 (7/05/15)

In today's show we start in Iceland with a tradition that has brought children and puffins together for generations. Then it's off to Southern California to see how service dogs help 3rd graders become better readers. From there it's up the coast to learn about sea otters with Monterey Bay Aquarium. And finally, with the help of science coral reefs are regenerating quicker off Miami.

Episode #144 (7/12/15)

On today's show we see the hopeful story of an orphaned baby anteater in Panama. Then we head to Southern Thailand to learn about a project helping Gibbons to make a comeback in the wild. We stay in Thailand and see how a local vet is helping elephants. And finally it's off to Australia where scientists are learning more about the migrations of box jellyfish.

Episode #145 (7/19/15)

We'll travel to Iceland to learn all about the Icelandic horse. We'll explore the amazing marine life of Curacao by taking a dive in the Cura-sub. And the lion may be king of the jungle but in some places an invasive species called lionfish can be a royal pain.

Episode #146 (7/26/15)

We'll visit a place that helps rehabilitate injured pelicans that have accidentally swallowed fishing hooks. A mysterious wasting syndrome is affecting sea stars on the Pacific coast. And a place in Florida specializes in harvesting life-saving anti-venom from a killer snake.

Episode #147 (8/02/15)

This week on Wild About Animals...a wild wolf-hybrid is discovered in a local park, and given a new home...we go scuba diving in the Cayman Islands where there's an amazing variety of fish...African Vultures are seen in action during the famous wildebeest migration...and a private sanctuary teaches people how to communicate with farm animals.

Episode #148 (8/09/15)

This week on Wild About Animals...a scientist on vacation saves the life of a humpback whale...a prison in Philadelphia allows inmates to train unwanted dogs for adoption...we visit the oldest zoo in the United States and discover a new way to experience primates...and a bird observatory in Idaho lets the public get close to some amazing raptors.

Episode #149 (8/16/15)

This week we visit the beautiful Pacific Northwest. Our show begins right outside of Seattle, Washington where a local animal rescue facility performed emergency surgery on a black bear cub with a collapsed lung. Then it's over to the famous Salmon Ladders in Seattle to get a look at how innovation and nature have co-existed for salmon over a hundred years in one of the main shipping paths in North America. From there it's off to the Columbia Gorge with the Oregon Zoo as they release young western pond turtles back into the wild. And finally we look at amazing program that spans from the Oregon Zoo to Uganda, Africa teaching kids the importance of wildlife.

Episode #150 (8/23/15)

This week we go down under to Australia. First up we look at the unique Lumholtz Tree Kangaroo of Queensland. Then we visit a hospital set up to treat and rehabilitate local Queensland frogs. After that we visit thousands of butterflies at the Australia Butterfly Sanctuary. The show wraps up in the Australian Outback learning about a group of volunteers helping to rehabilitate injured wildlife in the Northern Territory.

Episode #151 (8/30/15)

This week on Wild About Animals we head to the Midwest prairie and study it's inhabitants with some students from Iowa State University. We also check out the efforts of the San Diego Zoo's conservation program to save the California Condor.

Episode #152 (9/06/15)

This week we head to the tropical paradise of Hawaii. Things start off on the rooftop of a popular Maui resort that has created a home for 300,000 bees. Then we go below the surface to see a family run sailing company's commitment to clean up local coral reefs. After that it's over to the Garden Island of Kauai chasing down the story about thousands of wild chickens that run free after a hurricane wiped away many of the chicken coups. We finish back on Maui learning about a program designed to help the Hawaiian Green Sea Turtle.

Episode #101 (9/13/15)

In this episode we meet human's closest relatives – primates. See what makes a chimpanzee one of the most intelligent primates. Find out why the spider monkey is such an amazing climber and feel the power of the howler monkey's howl.

Episode #102 (9/20/15)

In this episode we'll find out how sharks use electro-sensors to detect their prey. Also, discover the skunk's stinky defense mechanism. And domestic versus wild – see how the striped zebra matches up against its cousin the horse.

Episode #103 (9/27/15)

In this episode we'll see the amazing strength of the leaf cutter ant. Find out how fast can a pronghorn really run, and how the desert camel is able to survive in such extreme conditions.
