

Medical Notification Process
WQPX-TV - Scranton, PA - ION Media Scranton License, INC.

Per the rules of the FCC (47 CFR 15.242) and as part of the grant of a construction permit, television stations are required to make a good faith effort to identify and notify health care facilities (e.g., hospitals, nursing homes, see 47 CFR 15.242(a)(1)) within the service area potentially affected by DTV operations.

Widely was engaged to identify and to make a good faith effort to notify locations that met the criteria of the rules.

Using D&B data, and NAICS codes, and using industry standard mapping software, Widely identified all locations that were within a 155 kilometer radius of the transmission location. This yielded 2436 locations that met the following criteria:

- General medical and surgical hospitals
- Nursing and personal care
- Psychiatric hospitals
- Residential care
- Skilled nursing care facilities
- VA medical facilities

The facilities were selected from the licensed D&B data for the following NAICS codes:

NAICS Code 622 Hospitals

Industries in the Hospitals subsector provide medical, diagnostic, and treatment services that include physician, nursing, and other health services to inpatients and the specialized accommodation services required by inpatients. Hospitals may also provide outpatient services as a secondary activity. Establishments in the Hospitals subsector provide inpatient health services, many of which can only be provided using the specialized facilities and equipment that form a significant and integral part of the production process.

NAICS Code 623 Nursing and Residential Care Facilities

Industries in the Nursing and Residential Care Facilities subsector provide residential care combined with either nursing, supervisory, or other types of care as required by the residents. In this subsector, the facilities are a significant part of the production process and the care provided is a mix of health and social services with the health services being largely some level of nursing services.

The letters were mailed via the US Post Office. Letters that were returned from the US Post Office were researched individually and, where possible, addresses were corrected and the letters were resent.

In addition, letters were sent to the following state associations:

Health Care Association of New Jersey
LeadingAge New Jersey
Medical Society of New Jersey
New Jersey Hospital Association
New Jersey State Nurses Association
Greater New York Hospital Association
Healthcare Association of New York State
Intercounty Health Facilities Association

Medical Society of the State of New York
Nassau-Suffolk Hospital Council, Inc.
New York State Health Facilities Association
New York State Nurses Assoc.
Southern New York Association
The Northern Metropolitan Hospital Association
(NorMet)
PA State Nurses Association

Pennsylvania Health Care Association
Pennsylvania Medical Society
The Hospital & Health system Association of Pennsylvania
Center for Assisted Living Management

Letter sent to the facilities and the facility list follow.

Facility Letter

To: Director, Clinical/Biomedical Engineering Engineer, Risk Manager, Hospital Administrator, Nursing Home Director

From: WQPX-TV - Scranton, PA - ION Media Scranton License, Inc.

Date: June 3, 2019

Pages in this communication: 2

Notice of Channel Change for Digital Television Channels

You are receiving this letter because WQPX-TV was a participant in the Broadcast Incentive Reverse Auction (Auction 1001). This station will cease operations on its current channel 32 (578 - 584 MHz) and will commence operations on channel 33 (584 - 590 MHz). This may affect reception and retransmission equipment in your facility. Please be sure that everyone responsible for the supervision or maintenance of the biomedical equipment receives a copy of this notification and the attachment regarding the channel change on 8/2/19.

Under authorization from the Federal Communications Commission (FCC), the station listed above will be broadcasting on a new frequency.

Per the rules of the FCC (DA 17-702), stations are required to make a good faith effort to identify and notify health care facilities (e.g., hospitals, nursing homes, see 47 CFR 15.242(a)(1)) within the service area potentially affected by the DTV operations.

Widelity has been retained by the station listed above to make the required good faith notifications to applicable facilities in their service areas. This letter is to notify health care facilities in the coverage area in the event that any electronic medical devices are affected by the relocation of the transmit locations of the station. Your facility may have electronic biomedical devices that could be impacted by the DTV operations listed on the following pages. The FCC allows certain electronic biomedical devices to use unoccupied DTV frequencies on a secondary use basis. As a result of the secondary use status, your facility is responsible for identifying and resolving any potential radio frequency interference for the operations identified on the following pages.

To address potential interference problems for medical telemetry systems, the FDA recommends that you work with the manufacturer of your telemetry systems to:

- determine the channel/frequencies your telemetry systems use; and
- consult the FCC table of allotments for DTV channels that will be coming on line in your area.

If your telemetry systems are transmitting on channels that are used by a local station, (as identified in the attached sheets) you should work with the manufacturer of your telemetry systems to:

- change your telemetry channels to unused channels prior to the expected broadcast date to avoid interference

If you find that your telemetry systems are transmitting on channels that will remain unused, you should not have a problem due to DTV transmissions. However, you should periodically check the FCC allotments to assure that those channels remain available.

Sincerely
Widelity, Inc.

WQPX-TV, Scranton, PA, will be changing the frequencies on which it transmits. It will cease operations on its current channel 32 (578 - 584 MHz) and will commence operations on channel 33 (584 - 590 MHz). Per the FCC, this process of change in frequencies from channel 32 to channel 33 may begin as early as 8/2/19. This change in broadcast channels may affect equipment in your facility. It is possible that certain medical devices in your facility may be affected by the change in operations identified here.

As the guidance from the FDA notes:

Many medical telemetry devices are operated under 47 CFR Part 15 of the FCC regulations. These devices are secondary users of the radio-frequency (RF) spectrum. Licensed users such as television stations are the primary users. As a secondary user, your telemetry devices may be subject to interference from the primary user at any time, but must not cause interference with the primary user. If your telemetry devices are operating on frequencies licensed to a primary user, you need to be aware of the potential for interference and take any steps necessary to avoid device malfunctions due to interference

FDA Recommendations

To address potential interference problems for medical telemetry systems, the FDA recommends that you work with the manufacturer of your telemetry systems to:

- determine the channel/frequencies your telemetry systems use; and
- consult the FCC table of allotments for DTV channels that will be coming on line in your area.

If your telemetry systems are transmitting or receiving on channels that are scheduled to be used by a local station, you should work with the manufacturer of your telemetry systems to:

- change your telemetry channels to unused channels prior to the expected broadcast date to avoid interference

As a general rule, if you find that your telemetry systems are transmitting or receiving on channels that will remain unused, you should not have a problem due to DTV transmissions. However, you should periodically check the FCC allotments to assure that those channels remain available.

WQPX-TV - Scranton, PA - ION Media Scranton License, INC.

Facility ID: 64690 FCC file Number: 0000068029

DTV Channel: 33

Frequency Band: 584 - 590 MHz

Effective radiated power: 700 kW Horizontal 175 kW Vertical Elliptical polarization

Antenna Location: 41° 26' 6" N (41.435), 75° 43' 34" W (-75.726111) (NAD83)

Association Letters to associations – Pennsylvania, New Jersey, New York

Date

Name

Title

Association

Address

City, State zip

Dear:

WQPX-TV, Scranton, PA, will be changing the frequencies on which it transmits. It will cease operations on its current channel 32 (578 - 584 MHz) and will commence operations on channel 33 (584 - 590 MHz). Per the FCC, this process of change in frequencies from channel 32 to channel 33 may begin as early as 8/2/19.

Our firm, Widelity, has been retained by the station to make the required good faith notifications to applicable facilities in their service areas. Hospitals, medical, and residential medical facilities in the service area have been notified of the impending change in frequency.

It is possible that some of your member's facilities in CUSTOMIZE LETTER will be impacted by the FCC authorized move. In your membership communications, would you please consider notifying your members of the change in the event that some of their devices are tuned to the identified spectrum? Timely notification will give them time to retune their equipment.

Please do not hesitate to contact me if you have any questions or need additional information.

Thank you for your assistance in this effort.

Sincerely,

Michael Lasky

Principal

Widelity
