Two-Way	September was Hunger Action Month — an annual nationwide campaign designed to inspire people to take action and raise awareness of hunger in the United States. Ahead of the White House Conference on Hunger, Nutrition and Health on Wed. Sept. 28th, Feeding America released "Elevating Voices to End Hunger Together: Community-Driven Solutions to Address America's Hunger Crisis". KRCU Public Radio spoke with Sarah Garner, the Chief Advancement Officer with the SEMO Food Bank, about the results from the recent "Elevating Voices to End Hunger Together" report—what the organization learned from the regional listening sessions, and what policies may impact food banks in the months ahead, especially the upcoming U.S. Farm Bill in 2023. Garner also discussed how SEMO Food Bank helps walk families in need through the process of receiving benefits through the Supplemental Nutrition Assistance Program (SNAP).
